8" x 310' well, used for domestic, Stockwater & irrigation on approx 4 acres. Domestic use includes a heat pump system which discharges into a small pond. Pond overflow used to fill 2 Stock tanks. Excess overflow drains into Woods Gulch at rear of property. Stockwater is for 3 horses, kept year round. Irrigation is all by underground system using pop-up sprinklers. Approx. 1/2 acre lawn, ~~with~~ and the balance of irrigation around eastern perimeter of property & the upper portion of 2 pastures in the rear of property.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 63-11019

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise at (208)334-2190.

Sincerely,

Karen L. Gustafson

PROOF DUE NOTICE

RE: PERMIT NO. 63-11019

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before January 1, 1993. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson
Secretary/Records Manager

Dear Permit Holder:

Enclosed is a copy of the approved request for extension of time.
The time within which to submit proof of beneficial use is
extended to January 1, 1993.

Please note that the department has granted this extension based
on due diligence. It is important that you work diligently toward
the completion of this project during the construction period
allowed. The department may not be able to grant additional
requests.

If you have any questions or if I can be of any further
assistance, please feel free to contact this office.

RE: PERMIT NO. P63-11019

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Please note the requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permit was approved.

Dear Sir:

Enclosed is your Application for Permit for water right. Would you please sign it in number 13 and return it to this office.

Also, on the application I am confused as to the second name. Is it Lexi R. Esposito?

Thank you for your cooperation.
