RE: WATER RIGHT NO. 63-11013

Dear Water Right Holder(s):

The above referenced water right is in the process of being licensed. However, before a license can be issued, your permit must be amended to correspond with the findings of the Department's field examiner.

The enclosed Application for Amendment contains information that will be included on the license when it is issued. The amendment reflects a change in the location of the point(s) of diversion and the place(s) of use description. Please review carefully and if you concur, sign the amendment and return with the \$50.00 filing fee within 14 days.

The last page of the Application for Amendment form contains a list of CONDITIONS/REMARKS proposed for the license when it is issued. These conditions/remarks may be modified upon further administrative review.

If you do not concur or have any questions with this information, please contact me as soon as possible. My telephone number is (208) 327-7947.

Sincerely,

Domestic use for 3 homes (1 full time res, one part-time, one guest house) land under single ownership. One trailer⁽⁺¹⁾ owned separately. Irrigation from riser taps (2³ per home) with hoses/rainbirds.

Location actually in Sec 11 SWSW. Amend permit (permit holder also owns SESE Sec 10)

Irrigation around homes 2 & 3 is questionable, and may be nothing more than irrigation of native materials for fire prevention. However, much of the area has been cleared of rocks & leveled, and some attempt to establish lawn grasses is evident in at least some areas. On the other hand, each home could be given up to one-half acre under domestic exemption &/or the "community well" policy, so I recommend this approach to licensing, thus granting 1.5 acres total irrigation.

No overlaps @ amended location.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 63-11013

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise at (208)334-2190.

Sincerely,

Karen L. Gustafson
Secretary/Records Manager

Re: Permit No. 63-11013

Dear Permit Holder:

Returned is the proof of beneficial use you submitted to this office. Unfortunately, it is unacceptable as filed. In order for the Department to complete processing, further information is required. You failed to complete #6 (total rate and/or volume). Since the Department cannot determine from this information exactly how much water you are diverting, we can only inform you of the amount appropriated on your permit. Your permit was issued for 0.06 cfs.

When the total rate or volume is 0.04 cfs or greater, a license examination fee applies. A license examination fee based on a rate of 0.06 cfs is \$50. I have enclosed an instruction sheet and fee schedule for your convenience.

In order to meet all of the required dates, you must return the corrected original proof form and fee on or before February 1, 1993.

If you have any questions or if I can be of any further assistance, please feel free to contact me.

Sincerely,

Karen L. Gustafson
Secretary/Records Manager

PROOF DUE NOTICE

RE: PERMIT NO. 63-11013

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before February 1, 1993. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson
Secretary/Records Manager

RE: PERMIT NO. P63-11013

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Please note the requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permit was approved.
