3. Narrative: Description (As operating at time of measurement. Indicate pressure, number of sprinklers, etc.)

Well #1 is a 6" well with a 1/2 hp pump. Well #2 is a 6" well with a 1 1/2 hp submersible pump. Both wells are located inside separate housings approx. 15' apart. * The wells are connected underground and pump into a single pressure tank. From well logs in the same Q/Q, the dynamic level is approx. 30'. Eighteen mobile homes with lawns operate off of the two wells under this permit. Each mobile home has a lawn of approx. 20' x 35'. Total acreage = $20 \times 35 \times 18 / 43560 = .3$.

RE: PERMIT NO. P63-11008

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Please be advised that water quality is subject to regulations of the Idaho Department of Health and Welfare. We suggest that you check with them before starting construction.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also
