=====

Today Dale O'Brien brought me his signed licensing amendment for permit 63-10981 and his cancelled check, #2578, indicating that he paid his licensing amendment fee on August 15, 1994. I was subsequently able to locate receipt C031048 in our database for Mr. O'Brien's \$50 fee. The licensing amendment he submitted in 1994 was apparently lost.

E. NARRATIVE/REMARKS/COMMENTS

OVERLAPS - P/O - Same QR, different source of groundwater
P/U - Same QR, different area of use.

A small portion, approximately 2.0 acres, is irrigated by this well. The present area is irrigated by 3" hand line and ~~1 1/4" Rubber hose~~ for sprinkler irrigation and flood irrigated by a 300' section of 1 1/4" Rubber Hose.

The well contains two pumps: A 1 h.p. for domestic internal and external, and a 2 h.p. pump for irrigation of 2.0 acres.

Recommendations:

Domestic: Lawn area < 0.5 acre, ALLOW 0.02 for external and 0.02 internal. Recommend Licensing for 0.04 CFS AS REQUESTED.

Irrigation: Theoretical Flow calculation indicates system cannot supply 0.19 CFS for both domestic and irrigation as requested. Since only 2 acres is presently irrigated, recommend Licensing for 0.06 CFS.

$$Q(\text{Theoretical}) = \frac{(8.8)(0.7)(3)}{(2.31 \times 58) + \frac{3.5}{40}} = 0.11 \text{ CFS}$$

No well log found to determine STATIC WATER LEVEL, therefore checked wells in area to estimate.

NOTE: P/O & P/U need to be changed to: NWSW sec. 29, T. 4N R. 1E.

PROOF DUE NOTICE

RE: PERMIT NO. 63-10981

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before January 1, 1993. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Dear Permit Holder:

Enclosed is a copy of the approved request for extension of time. The time within which to submit proof of beneficial use is extended to January 1, 1993. However, since the extension was received after the proof of beneficial use date, it was necessary for the department to reinstate your permit and advance your priority date to October 29, 1989.

Please note that the department has granted this extension based on due diligence. It is important that you work diligently toward the completion of this project during the construction period allowed. The department may not be able to grant additional requests.

If you have any questions or if I can be of any further assistance, please feel free to contact me.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Nina Shields

RE: PERMIT NO. P63-10981

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Please note the requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the

permit was approved.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a license.

Sincerely,

GARY SPACKMAN, Supervisor
