WATER RIGHT LICENSE

WATER RIGHT NO. 63-10973

Priority: August 28, 1989

Maximum Diversion Rate: 0.12 CFS
Maximum Diversion Volume: 18.0 AF

This is to certify, that HARRY NEUFELD
DELLA NEUFELD

1770 S LINDER
MERIDIAN ID 83642

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated August 28, 1989; and has submitted Proof of Beneficial Use on October 25, 1990. An examination indicates that the works have a diversion capacity of .210 cfs of water from a GROUNDWATER source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	03/15 to 11/15	0.12 CFS	18.0 AF

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with all other rights shall provide no more than .03 cfs per acre nor more than 4.5 afa per acre for the lands above.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code.
Witness the seal and signature of the Director, affixed at Boise, this 9th day of April, 1994.

E. NARRATIVE/REMARKS/COMMENTS

This system uses a 1 hp pump to push water from a static water level of 20'. The well casing is 8" and the well is 128' deep. The dynamic is 35'. The well is open discharge into the ditch system which can irrigate the fields, fill the ponds or water the garden. The two pond sizes are 0.1 AF or 500 sq ft.

Dear Mr. Neufeld:

Re: Permit No. 63-10973

The department received the proof of beneficial use form and evidence of possessory interest--tax bill. The department is willing to accept proof of beneficial use form as action on the permit, but without a notarized assignment form, the department will not change the ownership of the permit.

The next step is for the department to conduct the field inspection to confirm and determine the extent of beneficial use. I cannot tell just when the representative from our Western Regional office will conduct the exam, but he will try to contact you or your representative prior to being in the area.

If you have questions, please contact me.

Sincerely,

RITA I. FLECK

Re: Permit No. 63-10973

I have not received an answer to my letter of December 13 to Mr. Taylor requesting assignment of the permit.

Is it possible for you to show possessory interest in the land by providing the department with a copy of the tax notice?

Please contact me as to what action you wish the department to take.

Dear Mr. Taylor:

Re: Permit No. 63-10973

The department received a proof of beneficial use form and fee from Harry Neufeld. The permit, however, is still in the name of Lurna E. and Sylvan Taylor.

Since a permit is considered as personal property, the permit holder(s) or an authorized agent must submit an assignment conveying the permit to Mr. Neufeld. Enclosed is a form which can be used for that purpose.

I will hold the permit for thirty days without action. Please advise the department what action you wish to take.

If you have questions, please feel free to contact me.

Sincerely,

Dear Mr. Neufeld:

Re: Permit No. 63-10973

The department received the proof of beneficial use form and the \$50 license exam fee on October 25, 1990. The permit, however, is in the name of Lurna E. or Sylvan Taylor.

Since a permit is considered as personal property, either the permit holder or an authorized agent must submit an assignment conveying the permit to you. Enclosed is a form which can be used for that purpose.

I will hold the proof of beneficial use form for thirty days without action. Please attend to secure an assignment from the Taylors.

If you have questions, please feel free to contact me.

PROOF DUE NOTICE

RE: PERMIT NO. 63-10973

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before December 1, 1990. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck

RE: PERMIT NO. P63-10973

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form entitled "Proof of

Beneficial Use" that must be submitted to the Department when your project is completed. If development is complete, you may submit proof of beneficial use immediately.
