CONDITIONS OF APPROVAL AND REMARKS

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Domestic use is for 1 home.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. Witness the seal and signature of the Director, affixed at Boise, this 19TH day of OCTOBER, 1995.

RE: WATER RIGHT NO. 63-10954
In the name of Tom & Karen Stokes

Dear Mr. and Mrs. McLaughlin:

Enclosed is a copy of the license on the above referenced water right. In July of 1995, the Department conducted a field exam on the property associated with the right. Our field examiner noted that you are the current owners of the property. This was confirmed by the Ada County Assessor's office.

When a water right is in the permit stage it is considered personal property. A permit must be assigned to a new owner. Since we have no record of an assignment from the Stokes to you, the license was issued in the original owners' names.

Please note, however, that in Idaho a licensed water right is appurtenant to the land and is considered real property. Proof of owning the land is proof of owning the water right, unless it was specifically excluded in the sale.

If you have any questions, please contact me at (208) 327-7946.

Sincerely,

Shelley Walter Keen
Water Rights Supervisor

RE: Recommendation Adjustment(s)

=====

The final licensing recommendation for Right 63-10954 is based on the information below:

A change of ownership was discovered when the exam was conducted in July on this permit. I contacted the Ada County Assessor's Office and their records show the current owners as Charles and Jane McLaughlin. The ownership change occurred in 1994.

Because the permit covered a home, I checked in area phone books and could not find a listing for the owners of record, Tom and Karen Stokes. With forwarding mail problems, the approved license may or may not reach Mr. and Mrs. Stokes.

Based on the above information and to prevent us from having to attempt to locate Tom and Karen Stokes, I am recommending the license stay in the their names but be sent to Charles and Jane McLaughlin.

PROOF DUE NOTICE

RE: PERMIT NO. 63-10954

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before December 1, 1990. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
Secretary/Records Manager

RE: PERMIT NO. P63-10954

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form entitled "Proof of Beneficial Use".

DEC 19 1989
