Dear Ms. Skaggs:

I have been trying to reach you for five days and not been able to. The receptionist tells me that only you can handle this matter and your letter only gives us fifteen days so thus this letter.

The information in the enclosed water right no. 63-10928 is correct at the present time. However, we are building a new building and the state fire marshall is requiring that we put in a 200,000 gallon reservoir for fire protection. We wanted to advise you of this projected change in our usage.

If you desire to contact me about this please call me at 362-3716.

Sincerely yours,

Pat Burnham

RE: PERMIT NO. P63-10928

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form entitled "Proof of
