F. FLOW CALCULATIONS

Additional Computation Sheets Attached

Measured Method:

$$\text{Theoretical} = \frac{15 \times 8.8 \times .70}{280 + (2.3 \times 55)} = \frac{92.4}{386.5} = .24 \text{ cfs}$$

SYSTEM CAPACITY

$$\text{NEED} = \frac{\text{IRR}}{10A} \times .02 = .20 \text{ cfs}$$

$$\text{Domestic} = \frac{15 \text{ Homs}}{10A} \times .02 = .18 \text{ cfs}$$

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$$V_{IR} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = 10 \times 4.5 = 45 \text{ AFA}$$

$$V_{DR} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = .20 \times 245 \times 1.9835 = 97 \text{ AFA}$$

$$V = \text{Smaller of } V_{IR} \text{ and } V_{DR} = 45 \text{ AFA}$$

2. Volume Calculations for Other Uses:

$$V_{AF} \text{ DOMESTIC} = 15 \text{ Homs} / 10A = .6 \times 15 = 9 \text{ AFA}$$

"Amount covered under IRR. component".

RE: PERMIT NO. 63-10912

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. Enclosed is an order advancing the priority of the permit since the proof was received after the proof due date. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise at (208)334-2190.

Sincerely,

Karen L. Gustafson

LAPSE NOTICE

You are hereby notified that under the provisions of Section 42-218a of the Idaho Code, the above referenced permit has lapsed. This office did not receive either an acceptable Proof of Beneficial Use submittal or an acceptable request for an extension of time to our letter of October 31, 1991. You did not return the \$50 fee as you stated during our visit on December 23, 1991. No further construction or additional development is authorized under this permit unless it is reinstated.

Your permit cannot be reinstated unless you submit the Proof of Beneficial Use or submit an Extension of Time Request showing reasonable cause for the delay. Either the completed Proof of Beneficial Use Submittal including the examination fee, or a completed field examination report; or the extension request form together with the \$15 fee, must be received by this department within sixty days of the date of mailing of this lapse notice or the permit will no longer be of any force or effect.

A proof of beneficial use form and a request for extension of time form are again enclosed for your use. Please note that only one extension of time can be granted, unless the project has not been completed because of lack of a necessary approval by a governmental agency or by litigation which brings title to the water in question.

Sincerely,

L. GLEN SAXTON, Chief
Water Allocation Bureau

RE: PERMIT NO. 63-10912

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before January 1, 1992. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

Gentlemen:

Re: Permit No. 63-10912

Enclosed is a copy of the approved request for extension of time. The time within which to submit proof of beneficial use is extended to January 1, 1992.

Note that the department has granted this extension based on due diligence. It is important that you work diligently toward the completion of this project during the construction period allowed. The department may not be able to grant additional requests.

If at the time proof is due again, all 19 lots are stubbed in for a water supply, then you can submit the proof for that many domestic uses even though there are still no houses.

Sincerely,

RE: PERMIT NO. P63-10912

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Please be advised that water quality is subject to regulations of the Idaho Department of Health and Welfare. We suggest that you check with them before starting construction.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit.
