Response JFW.

The license was cut back to 1 ac. because that was what the examiner found gated. (see diagram attached) Pam Skaggs talked to you in June of '92 and that if you had a problem with the acreage to submit information in a response. None was received. Please contact me if you have further questions

WATER RIGHT LICENSE

WATER RIGHT NO. 63-10909

Priority: August 22, 1989

Maximum Diversion Rate:

0.03 CFS

Maximum Diversion Volume:

4.5 AF

This is to certify, that JOAN B WALL
6179 LATIGO DR
BOISE ID 83709

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated August 22, 1989; and has submitted Proof of Beneficial Use on November 26, 1990. An examination indicates that the works have a diversion capacity of .070 cfs of water from a GROUNDWATER source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	03/15 to 11/15	0.03 CFS	4.5 AF

LOCATION OF POINT(S) OF DIVERSION:

Total number of acres irrigated: 1

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with all other rights shall provide no more than .03 cfs per acre nor more than 4.5 afa per acre for the lands above.
6. Place of use also known as Lot 32, Block 15, Sunset West Subdivision No. 2.

RE: Water Right License 63-10909

Dear Mrs. Wall:

John Westra, from our Western Region office, has forwarded your statement regarding the licensing of the above referenced right. I have reviewed the file and note that I spoke to you about the licensing recommendations last year, on 06-05-92, when the right was being licensed.

To summarize the appropriation process, you filed an application on 08-22-89 listing 2 acres located on Lot 32, Block 15, Sunset West Subdivision #2. The permit was approved on 12-14-89, and you submitted the proof of completion on 11-26-90.

A field examiner verified the development of this water right by field inspection on 08-21-91. His measurements and findings are the basis of the license recommendations. As you could see from the diagram John Westra sent you from the exam, the examiner found your property was a triangular wedge shape measured at approximately 195' by 380'. The total area of your property, less the area occupied by the house, was calculated to be approximately 0.79 acre.

Calculations of Area

Area of a Triangle = $0.5 \times \text{Base} \times \text{Height}$
 $0.5 \times (195 \text{ ft.} \times 380 \text{ ft.}) = 37,050 \text{ sq.ft.}$
 $37,050 \text{ sq.ft.} - 2,500 \text{ sq.ft. (house)} = 34,550 \text{ sq.ft.}$
 $34,550 \text{ sq.ft.} / 43,560 \text{ sq.ft. (sq.ft. in an acre)} = 0.79 \text{ acre}$
Therefore, the license recommendation was for 1 acre.

When you contacted me during licensing, I allowed you additional time to provide supporting evidence showing additional irrigated acres. When I received no response, the license was issued as recommended. I understand that you didn't respond due to an illness in your family.

RECEIVED

JUL 01 1993

I contacted the Ada County Assessor's office on 06-22-92 and again on 06-22-93, to confirm the recorded size of your property. Their records reflect the total acreage of your property at 0.9 or approximately 1 acre as recommended on your water right license.

I hope this has clarified the water right process and provided you with a clear explanation of how your right evolved into the license that was issued. I have attached a copy of the property record provided by the assessor's office for your review. If you feel that we are still not aware of any pertinent facts that should be considered, please provide the information to my attention or contact me directly at 327-7943.

Sincerely,

Pamela Skaggs

RE: Field exam acreage results.

Mrs. Wall does not feel the acreage found as a result of the field exam is accurate. She feels the acreage irrigated is much greater. I explained to her how the calculations were done, but she still felt this was not acceptable. She had not made a response to the Department's letter in 1992, because of the illness of her husband.

RE: TELECON WITH PERMIT HOLDER

DATE: 22-JUN-1992

Joan Wall telephoned the office on 06-05-92 in response to the draft copy of the proposed license. She felt that the acreage had been miscalculated and that the license should include the entire 2 acres approved on the permit. I explained how the acreage had been calculated. She still felt the measurements must be in error. I told her I would hold the file 15 days to allow her to submit any information that would support her claim of 2 acres.

I have received no correspondence from the permit holder and the assessor's office verifies the property is approximately 1 acre. I recommend that processing continue per the draft license.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 63-10909

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise at (208)334-2190.

Sincerely,

Rita Fleck
Secretary/Records Manager

PROOF DUE NOTICE

RE: PERMIT NO. 63-10909

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before January 1, 1991. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
Secretary/Records Manager

RE: PERMIT NO. P63-10909

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form entitled "Proof of

MICROFILMED

Beneficial Use" that must be submitted to the Department when your project is completed. If development is complete, you may submit proof of beneficial use immediately.
