State of Idaho
Department of Water Resources

WATER RIGHT LICENSE

WATER RIGHT NO. 63-10873

Priority: August 1, 1989

Maximum Diversion Rate:

0.01 CFS

Maximum Diversion Volume:

0.4 AF

This is to certify, that ALLAN E CAFFERTY
VIRGINIA M CAFFERTY

2121 S EAGLESON
BOISE ID 83705

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated August 1, 1989; and has submitted Proof of Beneficial Use on October 18, 1990. An examination indicates that the works have a diversion capacity of .010 cfs of water from:

SPRING tributary to ROBIE CREEK, SOUTH FORK

source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
STOCKWATER	01/01 to 12/31	0.01 CFS	0.4 AF

LOCATION OF POINT(S) OF DIVERSION: NWSESW , Sec. 31, Township 04N, Range 04E
BOISE County

PLACE OF USE: STOCKWATER
TWN RGE SEC
04N 04E 31 SESW

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Use of water under this water right will be regulated by the watermaster of State Water District No. 63.
6. The issuance of this right in no way grants any right-of-way or easement across the land of another.
7. Stockwater use is for 30 range cattle.

RE: Permit No. 63-10873

Dear Sir:

The above water right permit for a spring for stock water use was examined on 6/5/91 as we arranged during our 5/29/91 telephone conversation. Two sites within NWSESW Section 31 were found. Please refer to the enclosed map and copies of photographs.

Site A, located west of Schoonover Gulch, had a stock tank and water lines, but no lines originating from a spring were found. Site B, east of the gulch and just south of the South Fork of Robie Creek, contained an operating spring and stock tank. Photo no. 4 illustrates the pipe and tank at site B.

Although your directions to me indicated that the development was located about 150 to 200 yards up (west) the South Fork of Robie Creek, no spring development was found in that direction. I assume that you meant to direct me to site B. Unless you indicate otherwise by responding by 9/1/91, I will assume that the spring and stock tank located at site B east of Schoonover Gulch ^{are} is the development intended in your permit. A license recommendation will be made to license that spring.

The issue of property ownership of the land containing site B was brought to my attention. Because water rights convey no right-of-way or access across or onto private property, the department can issue the license regardless of the identity of the property owner. The license is appurtenant to the land unless withheld from the land by a legal action (deed, contract, etc.).

Therefore, a license may be issued in your name but possibly will be owned by the current property owner if other than yourself.

Sincerely,

Steve Lester
Sr. Water Resource Agent

Dear Steve,

Pursuant to PERMIT #63-10873, I am formally requesting a delay of issuing a license on this spring if it is the spring that is located south of the South Fork of Robie Creek and East of Schoonover Gulch. The spring in question is east of the old barn and road going to other homes (this is a private road, not the County Road). This spring is located in an area of confusion regarding property ownership. The permit is in Alan Cafferty's name and his property is adjoining the property where the spring is located. This spring was the pride and joy of Hugh Cook who passed away in 1989. I believe the spring is located on the property of Hugh Cook. The property is in the process of being resurveyed due to property sale and in an effort to clean up previous boundary questions. I am the signed purchaser of Hugh's property and am involved in researching the historical use of this spring and resolving the property lines.

I believe the spring belongs to Hugh Cook's property and was used by him. I therefore contest the issuance of a license for this spring to any other party, including Alan or Virginia Cafferty or related parties. I request a delay of license determination for a period of 6 months from today (6/5/91) to allow property lines to be verified and water use to be researched and documented. Thank you for your consideration in this matter. Please notify me of any action taken in this regard - either in issuing a formal delay period or in issuing a license.

Sincerely,

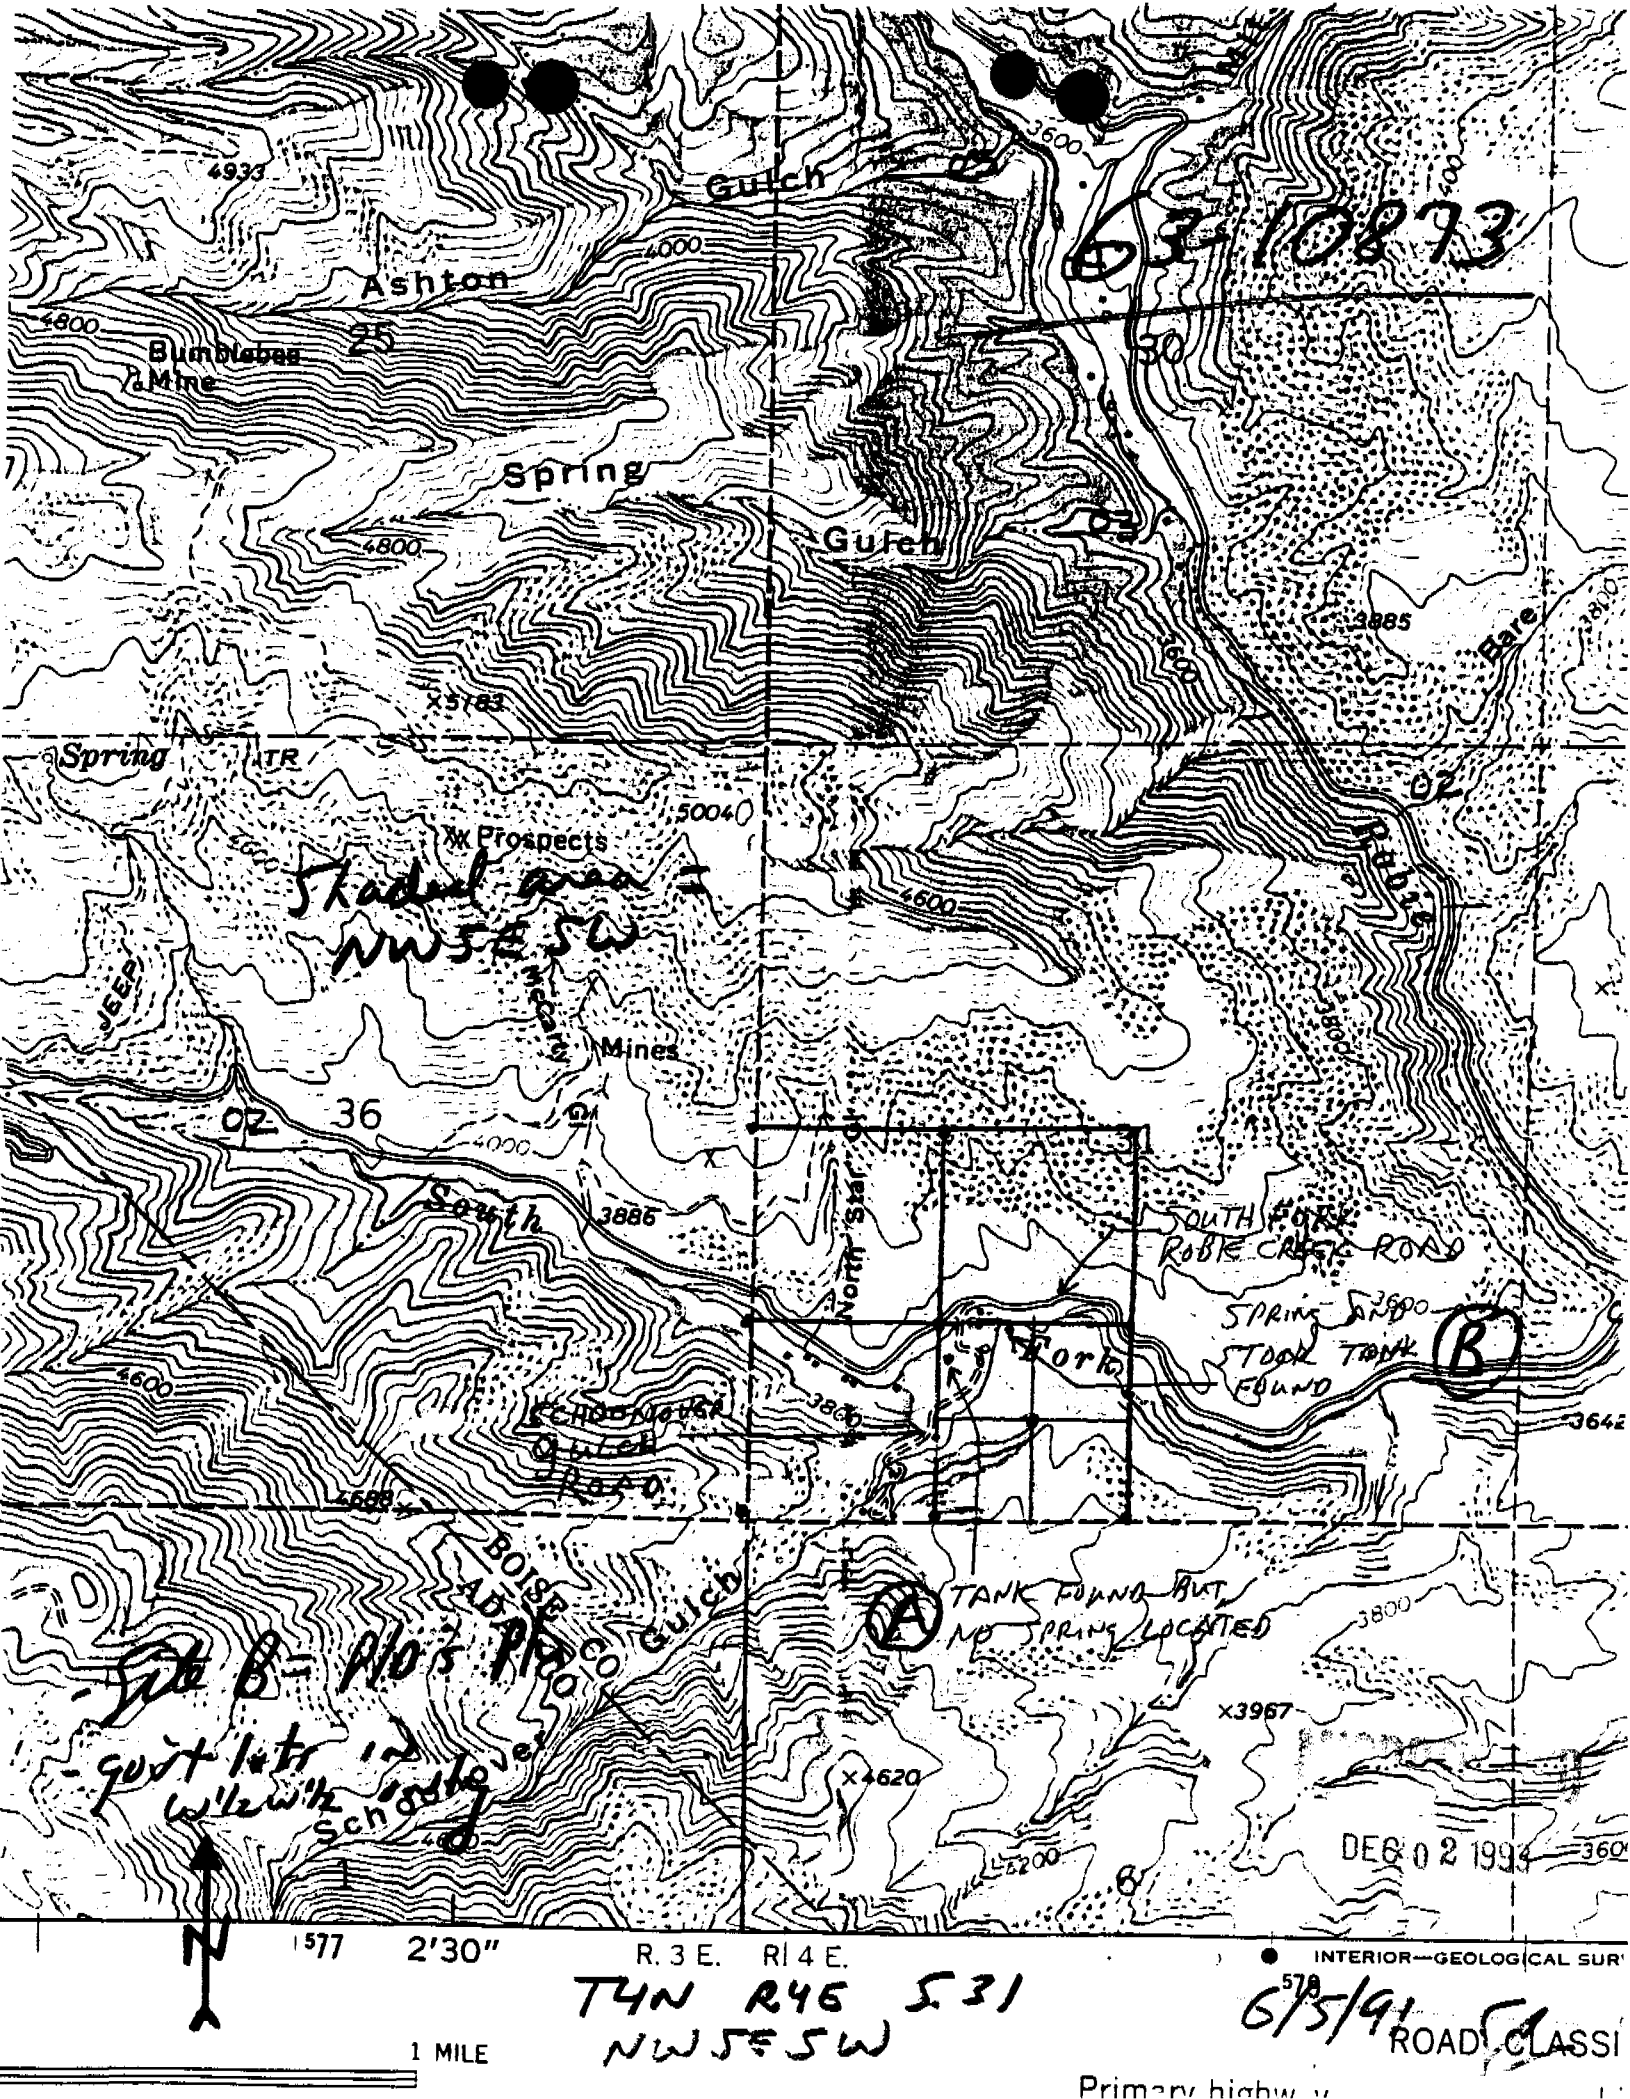

Jan Blum

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 63-10873

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise at (208)334-2190.

Sincerely,

Rita Fleck
Secretary/Records Manager

PERMIT APPROVAL NOTICE

RE: PERMIT NO. P63-10873

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form entitled "Proof of Beneficial Use" that must be submitted to the Department when your project is completed. If development is complete, you may submit proof of beneficial use immediately.

Sincerely,

GARY SPACKMAN, Supervisor
