STEWART TITLE

GUARANTY COMPANY

OWNER'S COVERAGE STATEMENT

This Policy insures your title to the land described in Schedule A--if that land is a one-to-four family residential lot or condominium unit. Your insurance, as described in this Coverage Statement, is effective on the Policy Date shown in Schedule A.

Your insurance is limited by the following:

- EXCLUSIONS on page 2
- EXCEPTIONS in Schedule B
- CONDITIONS on pages 2 and 5.

We insure you against actual loss resulting from:

- any title risks covered by this Policy--up to the policy Amount and
- any costs, attorneys' fees and expenses we have to pay under this Policy.

COVERED TITLE RISKS

This Policy covers the following title risks, if they affect your title on the Policy Date.

1. Someone else owns an interest in your title.
2. A document is not properly signed, sealed, acknowledged, or delivered.
3. Forgery, fraud, duress, incompetency, incapacity or impersonation.
4. Defective recording of any document.
5. You do not have any legal right of access to and from the land.
6. There are restrictive covenants limiting your use of the land.
7. There is a lien on your title because of:
 - a mortgage or deed of trust
 - a judgment, tax, or special assessment
 - a charge by a homeowner's or condominium association.
8. There are liens on your title, arising now or later, for labor and material furnished before the Policy Date--unless you agreed to pay for the labor and material.
9. Others have rights arising out of leases, contracts, or options.
10. Someone else has an easement on your land.
11. Your title is unmarketable, which allows another person to refuse to perform a contract to purchase, to lease or to make a mortgage loan.
12. You are forced to remove your existing structure--other than a boundary wall or fence--because:
 - it extends on to adjoining land or on to any easement
 - it violates a restriction shown in Schedule B.
 - it violates an existing zoning law.
13. You cannot use the land because use as a single-family residence violates a restriction shown in Schedule B or an existing zoning law.
14. Other defects, liens, or encumbrances.

COMPANY'S DUTY TO DEFEND AGAINST COURT CASES

We will defend your title in any court case as to that part of the case that is based on a Covered Title Risk insured against by this Policy. We will pay the costs, attorneys' fees, and expenses we incur in that defense.

We can end this duty to defend your title by exercising any of our options listed in Item 4 of the Conditions.

This policy is not complete without Schedules A and B.

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.

Dear Mr. Wolfe:

The department acknowledges receipt of correspondence changing ownership of the above referenced water right to you. The department has modified its records to reflect the change in ownership and has enclosed a computer-generated report for your records.

Please note that as of July 1, 1996, water right owners are required to report any change of water right ownership and any change of mailing address of the owner of a water right to the department. Notice of the change must be provided to the department within 120 days of the change. Change reporting forms are available from any office of the department.

Please feel free to contact the department if you have questions.

RE: Phone conversation

At Sharla Curtis's request I phoned the Ada County Assessor's office and spoke to Louise. She verified that Lot 8 in Block 1 of Riverside Ranches subdivision is in T04N, R01E, S23, SWNE. She confirmed that their records show Timbre Wolfe as the current owner and that he bought the property from Rodriguez. Their records do not show any previous owner beyond Rodriguez.

Unfortunately there's nothing
in the file stating the sub-
division lot description, so
I suggest you contact the
assessor's office and see if
you can get a 4¹/₂ match and
find out if Carpenters still
owns any other property in
the legal we have in the file.
If you're convinced we have
a match after that, document
your findings in the file via
a memo and go for it.

MEMORANDUM

TO: File 63-10863 / William Carpenter
FROM: Brenda Chapman
DATE: August 9, 1995
RE: Recommendation Adjustment(s)

=====

The final licensing recommendations for the above referenced water right are based on the information below:

H. RECOMMENDATIONS

1. Recommended Amounts

Beneficial Use	Period of Use	Rate of Div	Annual Vol
Irrigation	3-15 to 11-15	.13	19.8
Stockwater	1-01 to 12-31	.02	.1
Domestic	1-01 to 12-31	.02	.6

The total diversion rate has been limited to the theoretical capacity of .14 cfs.

According to information in Section D, the total irrigated area, including the lawn, is 4.4 acres.
[4.4 x .03 cfs = .13 cfs]

Reducing the domestic rate to an internal use only rate of .02 cfs conforms the recommendation to the current guidelines for processing combination domestic and irrigation rights.

RE: PERMIT NO. 63-10863

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise at (208)334-2190.

Sincerely,

JULIE L. YARBROUGH

RE: Permit No. 63-10863
Drilling Permit No. 63-88-W-0205-000

Dear Permit Holder:

Returned is the Proof of Beneficial Use form submitted in connection with the above referenced water right. It, and your permit to appropriate water (copy enclosed), both indicate that water is diverted for irrigation. Also enclosed is a copy of the drilling permit you applied for in 1988. It indicates the extent of use to be domestic. Domestic use constitutes the diversion of 0.04 cfs or less and/or the use for one home and irrigation of up to 1/2 acre of land.

You were properly charged \$10.00 for the domestic well drilling permit. However, because of the use you have indicated (irrigation and stock with a diversion of 0.20 cfs), the drilling permit is no longer considered strictly domestic. The charge for a non-domestic drilling permit at that time was \$100.00.

Before the Department can accept the proof of beneficial use as filed, you will need to pay the additional \$90.00 fee to upgrade the drilling permit to a non-domestic.

Since you submitted the proof, I have started the process to refund the \$15.00 you submitted for the extension of time request.

Additionally, one of the conditions of your water right permit requires you to install a flow measurement port. Please indicate on the proof whether or not you have complied with this condition. If you have not installed the port, you can request a waiver of the condition.

The Department will hold your file for 30 days to allow you time in which to submit the additional fee. Please address your correspondence directly to me.

If you have any questions or if I can be of any further assistance, please feel free to contact me.

Sincerely,

JULIE L. YARBROUGH

MEMORANDUM

Date: April 15, 1994
From: Julie L. Yarbrough
To: File No. 63-10863
Subject: Extension

I spoke to the permit holder (William Carpenter) this morning and he was confused about which water right he was filing for an extension of time on. He will be filing proof on this water right and the department will refund the \$15.00 extension fee. Proof for the other water right is due in August and the permit holder will file an extension at that time.

RE: Permit No. 63-10863

Dear Permit Holder:

Returned is the Request for Extension of Time you submitted in connection with the above referenced permit. Before the Department can proceed with the analysis, some clarification of the work completed is needed.

You indicate that you are digging a pond for wildlife habitat. Your water right permit (copy enclosed) only authorizes you to divert groundwater for domestic, irrigation and stockwater use. The water right permit does not authorize a diversion or storage for a pond. Please review the enclosed permit and clarify the work being done.

Additionally, an extension request can only be granted for a maximum of five (5) years. You have indicated you want an extension until 2037. Please modify this to reflect the maximum time allowed.

Please respond and return the requested information with the extension, on or before the proof due date of May 2, 1994. Once the Department has received the requested information, we will be able to proceed with the analysis of your Request for Extension of Time.

If you have any questions or if I can be of any further assistance, please feel free to contact me.

Sincerely,

JULIE L. YARBROUGH
Senior Secretary

PROOF DUE NOTICE

RE: PERMIT NO. 63-10863

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before May 1, 1994. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

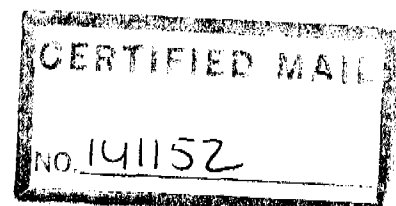

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 63-10863

Dear Mr. Carpenter;

In past correspondence from this Department you were requested to provide information. No information was received. On July 7, 1990 you were sent a NOTICE OF PENDING ORDER VOIDING APPLICATION and you were advised that your application would be voided if you failed to respond.

In reviewing your application I find that an Order Voiding Application had not been sent. I also found that the reason for requesting additional information was our concern of injury to Boise River water rights if you diverted water from your well.

The Department has elected not to pursue mitigation requirements at this time, however, the Department retains jurisdiction to impose mitigation if necessary.

Enclosed is your approved application. Be sure to review the conditions of approval. If you have any questions please let me know.

Sincerely,

JIM JOHNSON
Water Rights Supervisor

RE: Application to appropriate water no. 63-10863

Dear Mr. Carpenter:

NOTICE OF PENDING ORDER VOIDING APPLICATION

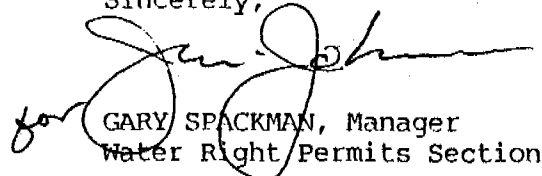

On July 13, 1989, you filed with the Department of Water Resources an application to appropriate water number 63-10863, for irrigation, stockwater and domestic purposes located within Government Lot 2, NWSWNE, Sec. 23, T4N, R1E, B.M., Ada County.

On October 23, 1989, the Department requested that you submit a plan to replace depletions from the Boise River. As of this date, the Department has not received the requested information. Pursuant to Section 42-204, Idaho Code, the Department may void the record of applications for which requested information is not submitted.

The purpose of this letter is to request that you withdraw your application or explain why the Department should not void your application. Enclosed is a withdrawal form that should be signed and returned to me, unless you have some explanation that would prevent the Department from voiding your application.

If you fail to respond to this inquiry within thirty (30) days of the date of this letter, the Department will act to void your application. The application will be voided on the grounds that requested information was not submitted.

Sincerely,

for GARY SPACKMAN, Manager
Water Right Permits Section

RE: Application for Permit to Appropriate Water No. 63-10863

Dear Mr. Carpenter:

The state office of the Department of Water Resources recently received application to appropriate water no. 63-10863. You propose in the application to divert .2 cubic feet per second (cfs) for irrigation, stockwater and domestic use.

During the regional review of the application the region determined that your proposed use would interfere with surface water flows in the Boise River. It recommended that prior to placing water to irrigation use under this permit, you must prepare and implement a plan to mitigate impacts to flows of the Boise River.

You must provide to this office a plan to replace depletions from the Boise River. The most obvious plan would be the purchase of storage water from the water supply bank by contacting Lee Sisco watermaster for water district 63, Boise River, 214 Broadway, Boise, telephone number 344-4121. Purchase of three acre-feet of storage per acre of irrigated land is an appropriate number.

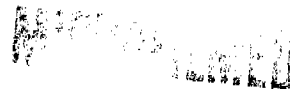

Please submit the requested information within thirty (30) days of the date of this letter. Failure to do so may jeopardize the status of your filing.

Respectfully,

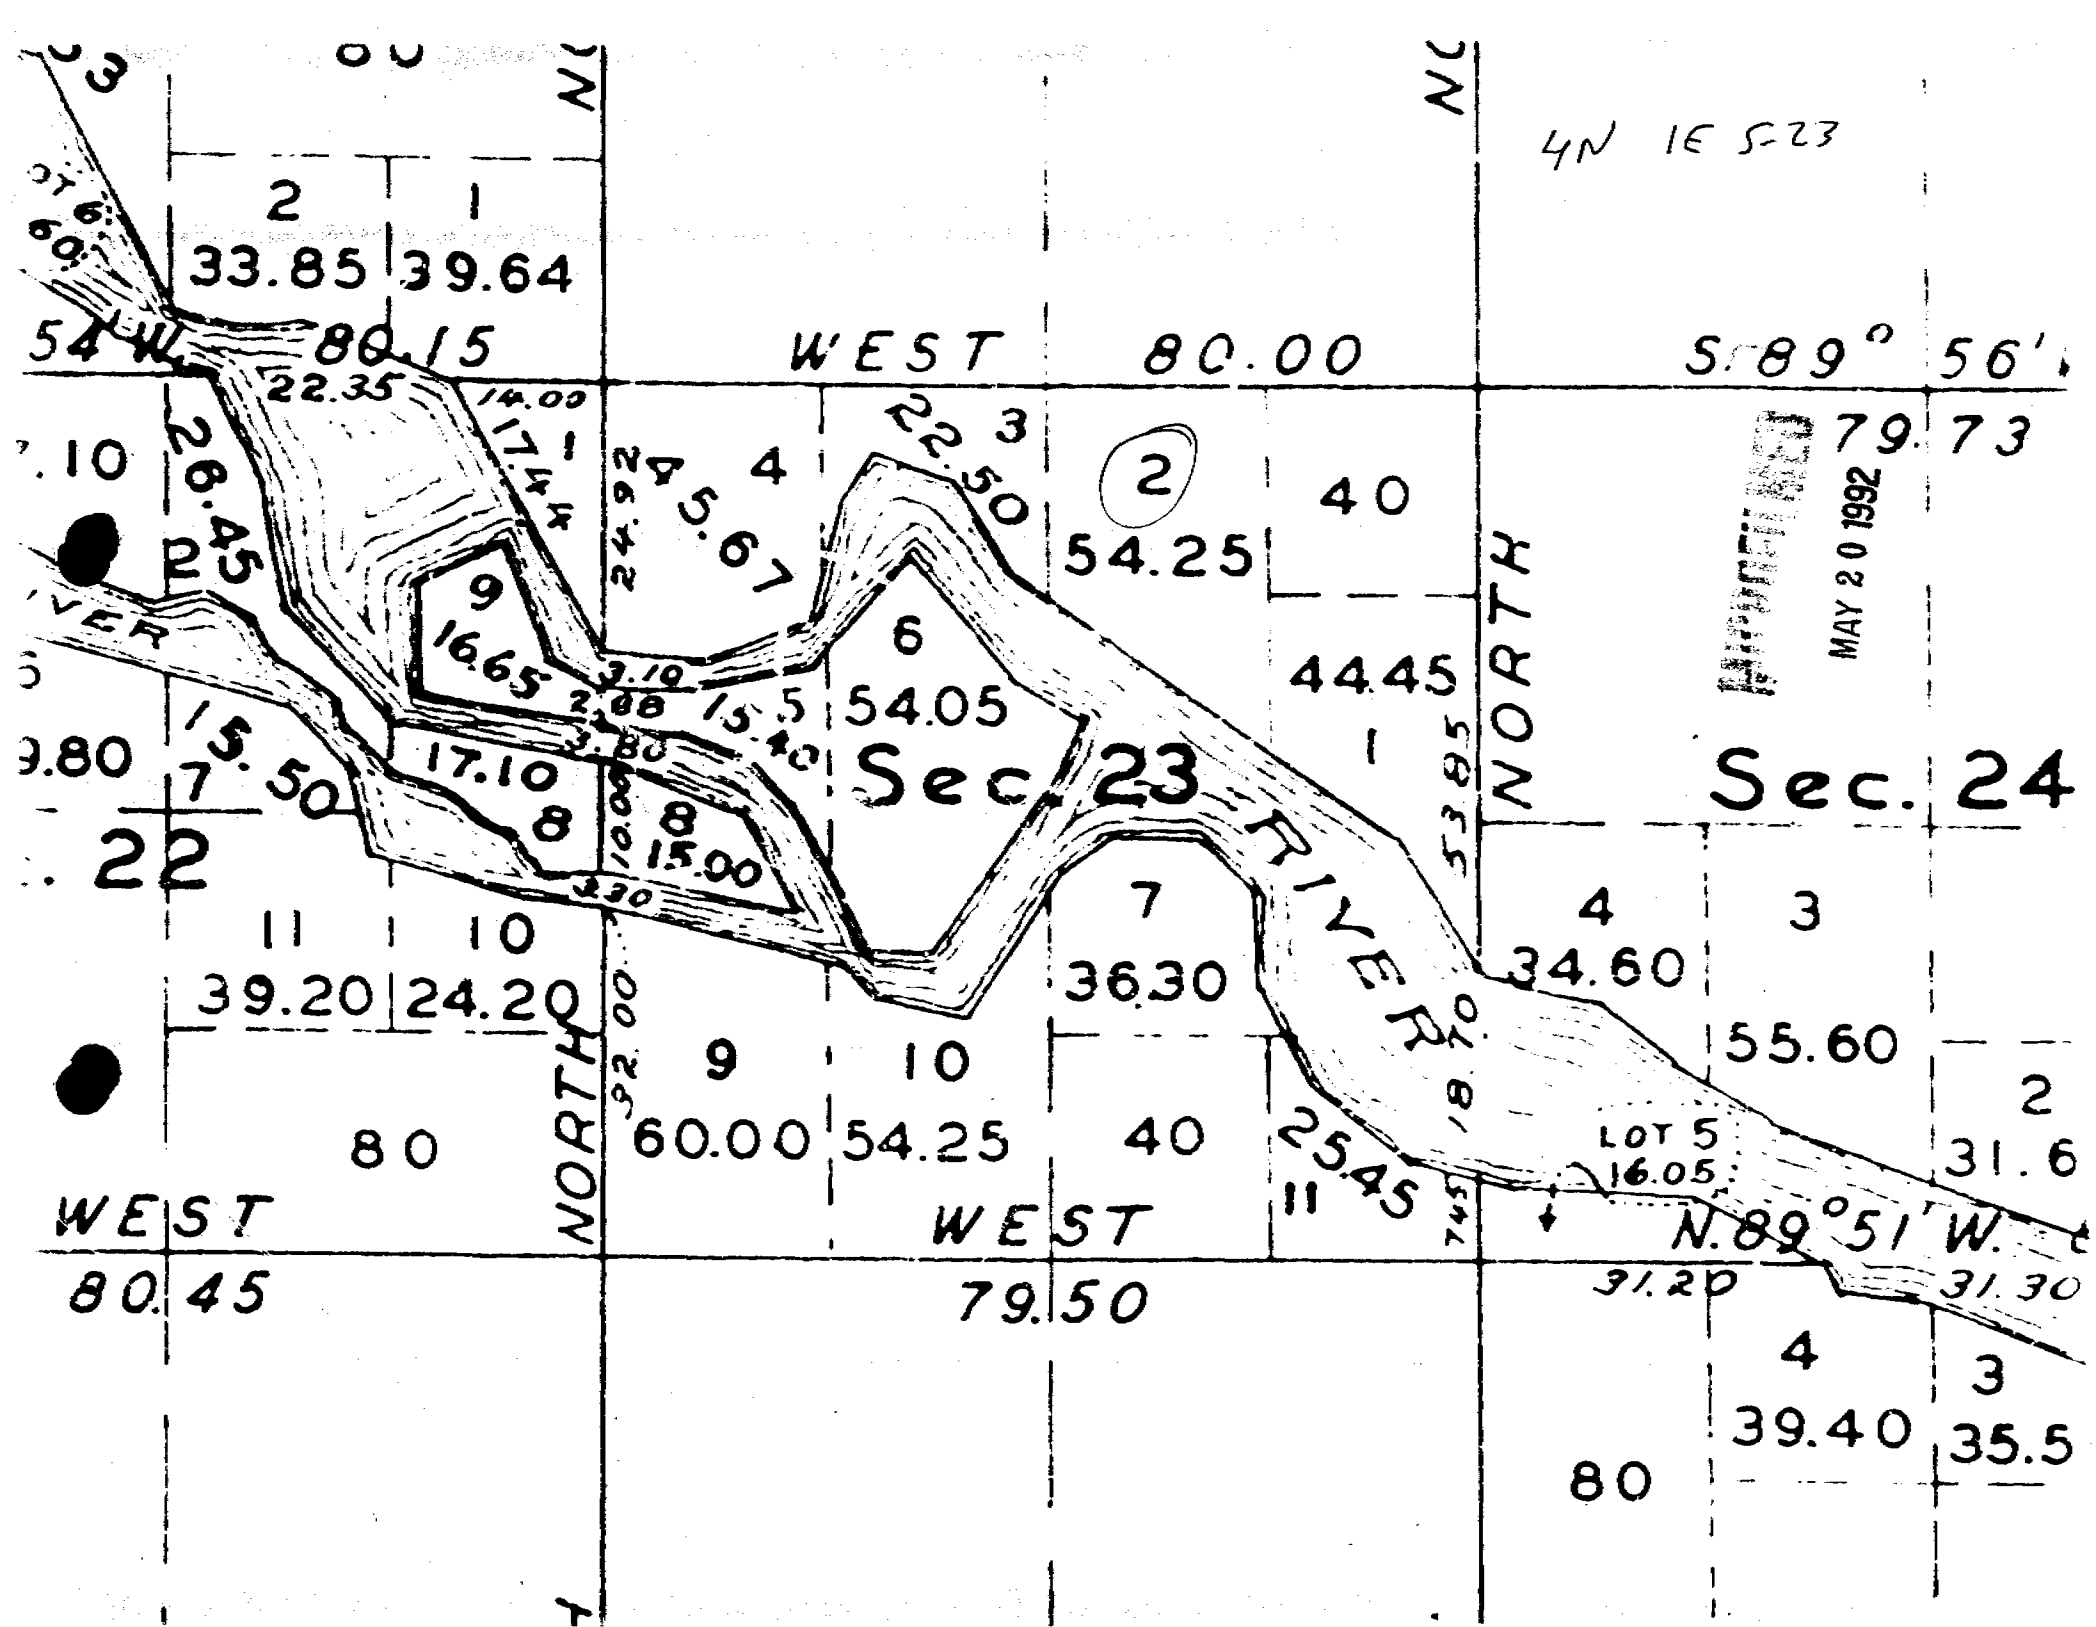

GARY SPACKMAN, Manager
Water Right Permits Section
