PROOF DUE NOTICE

RE: PERMIT NO. 63-10850

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before December 1, 1990. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

RE: PERMIT NO. P63-10850

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Please be advised that a recent Idaho Supreme Court decision may affect the relationship between your proposed well(s) and nearby domestic wells. In Parker vs. Wallentine the court ruled that a domestic well drilled prior to 1978 was protected against drawdown caused by a nearby irrigation well, even though a reasonable pumping depth had not been reached.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form entitled "Proof of

MICROFILMED

Beneficial Use" that must be submitted to the Department when your project is completed. If development is complete, you may submit proof of beneficial use immediately.

3 wells have existed ^{prior to 11/87} for ~~the~~ common system for 51 homes and approx 10 acres (.2 ac/home irrigated).

Rec'd:

- ① Change adj. claims A63-08154, A63-08234, A63-09064 which cover 25 of the homes.

The claims shall each state 3 wells in 4N-3W-5.10 SWSW (see map). All 3 wells in place is used prior to Adjud. commencement of 11/87.

These existing rights imply irrig. use on yards under the former style in which irrig. was not shown separately in subdivision.

Assuming .2 ac/home irrigated (from attachment to Appl. 63-10850),
 $25 \times .2 = 5$ acres irrigated with the homes. Even at .5 ac/home,
 $25 \times .5 = 12.5 \approx 13$ acres irrigated with the homes.
