RE: Annual Volume for Fish Propagation

=====

Per a memo dated 1/15/88, volume is calculated as follows:

1. Calculate changes per hour:
Total flow into facility x 3600/facility volume (cf) = changes
 2. Calculate annual volume:
Facility volume (af) x changes x 8760 = AFA
 3. Calculate volume given by permitted flow:
Flow rate (cfs) x 1.9835 x 365 days = AFA
 4. Recommend lower figure.

3. Narrative: Description (As operating at time of measurement. Indicate pressure, number of sprinklers, etc.)

This system makes use of water seepage from the Barre River. The owner has built a levee around & dredged ponds around what used to be swamp land. Now he has 8 ponds that contain 30,000 or so bars. The ponds fluctuate with the river as it rises & falls. The owner also has ditch rights on the Hart River Ditch which he drains - some system. There are no diversion works except from pond to pond or if necessary there is an overflow into the Barre River.

RE: PERMIT 63-10843

Dear Mr. Rogers:

The department has reviewed the proof of beneficial use which you submitted on October 1, 1990 in connection with the above referenced permit. Your statement on the proof that there is no diversion mechanism used in connection with the water in the ponds is a potential problem as described below.

In Idaho there are two major requirements among others which are required to develop a water right. One is a beneficial use of the water and the other is a physical diversion works. Among typical diversion works are dams, headgates, and pumps. If you do not have physical diversion works in place at the time the examination is conducted by the department to determine the extent of beneficial use under your permit, your permit can not ripen into a license of water right.

Please feel free to contact the department if you have questions.

Sincerely,

A handwritten signature in cursive script that reads "Rita I. Fleck".

PROOF DUE NOTICE

RE: PERMIT NO. 63-10843

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before November 1, 1990. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
Secretary/Records Manager

RE: PERMIT NO. P63-10843

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Be sure to note the special condition requiring you to install a lockable device that will provide the watermaster control on your diversion.

Please be advised that your plans for fish propagation may be subject to regulations of the Idaho Department of Fish and Game. We suggest that you check with them before starting construction.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form entitled "Proof of Beneficial Use" that must be submitted to the Department when your project is completed. If development is complete, you may submit proof of beneficial use immediately.

Sincerely,

GARY SPACKMAN, Supervisor
