WATER RIGHT LICENSE
WATER RIGHT NO. 63-10819

Priority: June 19, 1989

Maximum Diversion Rate: 0.02 CFS
Maximum Diversion Volume: 0.6 AF

This is to certify, that E CLYDE WILSON
1193 CAMELOT
BOISE ID 83704

has complied with the terms and conditions
of the permit, issued pursuant to Application for Permit dated June 19, 1989; and
has submitted Proof of Beneficial Use on November 1, 1991. An examination indicates
that the works have a diversion capacity of .040 cfs of water from a **GROUNDWATER**
source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
DOMESTIC	01/01 to 12/31	0.02 CFS	0.6 AF

LOCATION OF POINT(S) OF DIVERSION: NWNW , Sec. 34, Township 02N, Range 01E
ADA County

PLACE OF USE: DOMESTIC
TWN RGE SEC

02N 01E 34 NWNW

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Domestic use is for irrigation of 0.1 acre and a garden shed.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code.
Witness the seal and signature of the Director, affixed at Boise, this 3RD
day of FEBRUARY, 1993.

An 8" well with a 1 1/2 h.p. pump and a 1 1/2" discharge supplies water to a pressure tank at 60 psi. The water is used in faucets with hoses in a garden of approx. 1 acre, and it is also used for drinking water inside a garden shed. Since the permit is for domestic use and irrig. of more than 1/2 acre, I recommend licensing this W.R. for domestic purposes also.

Re: Permit No. 63-10819

Dear Mr. and Mrs. Coryell:

Returned is the Proof of Beneficial Use form you submitted in reference to the above mentioned permit. Since our files indicate the permit holder to be E. Clyde Wilson, it was necessary for our office to contact him.

After discussions with Mr. Wilson he has chosen not to convey the water rights permit to you until the outstanding mortgage is paid on the property. Mr. Wilson has also submitted a Proof of Beneficial Use, along with the required fee, and it has been accepted by the department.

I have also started the process to refund the \$50 you submitted with the proof. The process takes approximately two to four weeks to complete.

If you have any questions or if we can be of any assistance, please feel free to contact this office.

Sincerely,

Karen Gustafson

MEMORANDUM

To: File 63-10819
From: L. Glen Saxton *LGS*
RE: PHONE CALL FROM CLYDE WILSON
Date: October 24, 1991

Clyde Wilson, the permit holder, called in connection with the department's October 22, 1991 letter.

He does not wish to convey the permit to the new owners (Coryell) until the Coryells pay off an outstanding mortgage to him. I advised Wilson that he is not required to assign the permit to the new owners but that if he does not assign the permit, the proof submitted by Coryell is not acceptable and that Wilson himself needs to submit the proof.

Wilson stated that he will out of state for a while but will visit the department during the first week on November to file the proof.

If Wilson files the proof, the department needs to refund the \$50 dollar license examination fee paid by Coryell to Coryell and return Coryell's proof.

The amount of water for which proof will be filed likely will not exceed 0.04 cfs. If so, a license examination fee is not applicable and does not need to be submitted by Wilson.

Re: Permit No. 63-10819

Dear Mr. Wilson:

We are in receipt of a Proof of Beneficial Use form from Mel and Caryol Coryell concerning the above mentioned water rights permit.

In order for you to convey the water rights permit to the new property owner, it will be necessary for you to complete and have notarized the attached Assignment of Application for Permit form. The completion of this form will allow the permit for water rights to transfer to the new property owner.

It is imperative that you complete, have notarized and return this form as soon as possible. It is our desire to allow the new property owner ample time to complete his paperwork and return to us no later than 11/1/91.

If you have any questions, please feel free to contact us.

PROOF DUE NOTICE

RE: PERMIT NO. 63-10819

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before November 1, 1991. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
Secretary/Records Manager

RE: PERMIT NO. P63-10819

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Please note the requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permit was approved.
