ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 63-10726, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before July 1, 19 90.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.

e. Other: Permit holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.

This permit is subject to the agreement dated 3/28/89 between permit holder and protestant(s) to the extent such agreement covers matters within the jurisdiction of the Department of Water Resources.

The single household domestic water right in the name of Henry Ross is senior to the water right of Covert Water Users, Inc.

H. REMARKS AND OVERLAP REVIEW ANALYSIS

* The three wells in this system comprise WR #s 63-65403, 63-10726. The two 8" wells cover 25 cfs of the domestic to the 10" covers the new domestic - irrigation for the subdivision.
Add 2 8" wells Permit IRR season 184 days - V_{RR} > V_{IR} Allow Standard Season
Remarks - PPU (5 Acres / 15.9 Acres), 3 P/D's NESE, DOM / 60 Homes, P/U, WB 3 GW/supp.

The approval of this permit authorizes the construction of a well as described on this application subject to the conditions on this permit.

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from its date of issuance for the start of construction and is valid for one (1) year from the date of issuance for completion of the well unless an extension has been granted.
3. This permit does not constitute the approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Issuance of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.

SPECIFIC CONDITIONS:

8. Use of the water from this well is not authorized until water right application 63-10726 is approved.

Dated this 28th day of October, 1988.

RE: PERMIT NO. 63-10726

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form entitled "Proof of

MICROFILMED

SEP 22 1989

Beneficial Use" that must be submitted to the Department when your project is completed. If development is complete, you may submit proof of beneficial use immediately.

IN THE MATTER OF APPLICATION)
FOR PERMIT NO. 63-10726 IN THE)
NAME OF COVERT WATER USERS, INC.)

NOTICE OF CONFERENCE

On October 24, 1988, Covert Water Users, Inc. filed with the Department of Water Resources an application for permit to appropriate the public waters of the State of Idaho. The application was protested by Henry Ross.

The Department has set the matter of protest for a conference to be held on March 28, 1989, at 10:00 a.m., in the Judge's Chambers next to the main meeting room on the first floor of the Canyon County Courthouse, 1115 Albany, Caldwell, Idaho. The conference will be held in accordance with provisions of Chapters 2 and 17, Title 42, and Chapter 52, Title 67, of the Idaho Code, the adopted Rules of Practice and Procedure of the Department of Water Resources, and Rules 4 and 5 of the adopted Rules and Regulations of Water Appropriation of the Department of Water Resources. Opportunity shall be afforded all parties to respond and present information and argument on all issues involved.

Dated this 8th day of March, 1989.

RECORDED

SEP 22 1989

CONFERENCE INFORMATION

IN THE MATTER OF APPROVAL OF AN APPLICATION FOR PERMIT

In accordance with Idaho Code, Section 42-203(A), the following issues are involved in the consideration of the application and protest(s):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use conflict with the local public interest?

The intent of the conference is to resolve any conflicts regarding the proposed water appropriation in light of these five factors. The conference will not be recorded in an effort to promote full discussion of the issues. Possible resolutions are: (1) clarification of the issues resulting in a determination by all parties that the application is acceptable, (2) modification of the application to make it acceptable to the protestant(s), or (3) addition of acceptable restrictions or conditions of approval. If a resolution is not attainable, then a hearing will be set by the Department.

Re: Application for Permit No. 63-10726

Dear Applicant:

Enclosed is a copy of a protest(s) filed against the issuance of a permit pursuant to the above-referenced application. The Department suggests that you contact the protestant(s) and attempt to resolve the protest(s).

If this office has not been advised within twenty (20) days that the protest(s) has been resolved, the matter will be scheduled for a conference. At such a conference, the following are the principle items the Department will review (per Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use under this permit conflict with the local public interest?

Please contact this office if you have questions regarding this procedure.

Sincerely,

David R. Tuthill Jr.

Re: Application for Permit No. 63-10726, in the Name of Covert Water Users, Inc.

Dear Protestant:

This office acknowledges receipt of your protest to the issuance of a permit pursuant to the above referenced application. The Department suggests you contact the applicant(s) directly in an effort to determine what is proposed by the application and to attempt to resolve the protest.

If this office has not been advised within twenty (20) days that the protest has been resolved, the matter will be scheduled for conference. At such a conference, the following are the principle items the Department can consider in either approving or denying an application or permit (Section 42-1203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use under this permit conflict with the local public interest?

If this office can be of further assistance, please contact us.

Mr. Higginson I am protesting this water right against the Covert water users Inc. 228 Pleasanton Dr. Nampa, Idaho, 83686. Diversion Pct. N E S E sec. 4 T. 02NR 02W. Source Groundwater. Why I am protesting. Because this summer My well here at home has dropped 20 feet. That is the water table. I had to add another 40 feet of pipe in order to get down into the water supply again.

I ahve lived here for 48 years and this the first time this has ever happedd. I can't see them watering there lawns two and three time a week and me not having water for my house and livestock. you say the permit will be subject to all Prior water right. I sure would like to know what this means. If my water table keeps dropping can they still pump thiswell? What can I do and how do I go about doing something. I would like to from you and give me some answer to these questions

Re: Water Right and Well Drilling

Dear Sir:

I returned your well drilling application due to related complications. The fee for such a well is \$100. Also, a water right is required by Idaho statute for the use of water in a multiple-family domestic setting. I did not find a water right in the name of the association. Please complete and return the enclosed Application for Permit to establish a water right. Enclose the well drilling permit and correct fee. Be sure to include the correct legal description on the drilling permit. The legal location should match the point of diversion description on line 3 of the water right application.

In completing the water right application, you should show domestic use for internal purposes and irrigation for lawns and related grounds. The maximum internal water use for 60 homes is 0.35 cfs (157 gallons/minute). Irrigation amounts are calculated at 0.02 cfs per acre of irrigation. If irrigation does not exceed 1/2 acre or does not occur at all, just show domestic use. Remember to include the correct fee for this application.

Once the legal location is known, which includes township, range, section, and 1/4-1/4 of section, you may want to call this office to see if a water right already exists for that property. It is possible that one exists for your uses but is in a different name. Please call 334-2190 for more information.

Sincerely,

Steve Lester
Sr. Water Resource Agent

This letter was erroneous. I did discuss 63-05413 belatedly and informed Mr. Guey of the alternatives after receiving the new application. He subsequently returned the drilling permit and fee for WR application.

CLAIM TO A WATER RIGHT

Department of Water Resources

Under the provisions of Section 42-243, Idaho Code, any person using or claiming rights to the public waters of Idaho established by diversion and application to a beneficial use must file a claim with the Department of Water Resources on or before June 30, 1983. Exempted from this filing are single family domestic uses as defined in Section 42-230(d), Idaho Code. Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.

Notice is hereby given that
