NOTICE OF PENDING ORDER VOIDING PERMIT

Dear Permit Holder(s):

The development proposed in Permit to Appropriate Water No. 63-10692 was examined in 1990 by Department of Water Resources personnel. At the time of the examination, the Department personnel discovered that the actual place of use differed from the place of use proposed in the permit.

We have attempted on several occasions to persuade you to file an application for amendment of Permit No. 63-10692 with the Department. To date, the application for amendment of the permit has not been filed with the Department.

Enclosed is a completed application for amendment of your permit which reflects the correct place of use. You should sign the application for amendment, and return it to this Department accompanied by a \$20 filing fee within thirty (30) days of the date of this letter.

Should you fail or refuse to submit the application for amendment within thirty (30) days, the Department will act to void your permit. The grounds for voiding the permit are set forth in Section 42-219, Idaho Code, where it states that if the Department finds "that the applicant has not fully complied with the law and the conditions of the permit . . . [it] may refuse issuance of a license and void the permit." One of the conditions of the permit was that the point of diversion and/or place of use would be located as indicated on the permit.
