INSTRUCTIONS

This form has been prepared to assist new owners of property to comply with the requirements of Sections 42-248 and 42-1409(6), Idaho Code. Section 42-248 requires certain property holders to notify the Department of Water Resources (IDWR) of any change in mailing address or ownership of all or part of a water right record on file with IDWR. Section 42-1409(6) provides that new property owners must notify IDWR of any change in ownership of a water right during an adjudication of water rights. Required claims may be filed by a new owner.

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. Please contact your nearest IDWR office, or call 1-800-451-4129, if you would like more information or need help completing this form. Please attach additional sheets to the form if you require additional space to describe or explain any of the items on the form.

1. If there are water rights associated with the property, the seller should be able to provide you with the water right or adjudication claim number(s). Please enter these number(s) at Item 1. If you or the seller believes there are water rights for the property but the numbers are unknown, you may wish to contact IDWR for assistance in identifying the water rights for the property in question. If claims for the rights are required, and have not been filed, IDWR will so advise you.
2. The information described at Item 2 is required, since IDWR cannot process the requested change without documentation of ownership. The preferred types of documentation are shown; contact IDWR if you have difficulty obtaining this information. Do not obtain a new survey for purposes of this form before contacting IDWR.
3. Please provide the name and address of the former owner of the water right and/or adjudication claim at Item 3.
4. The name, mailing address, and telephone number of the new owner(s) is entered at Item 4. Please indicate the relationship between multiple owners by using the connector 'and', 'or', or 'and/or'. If an 'and' is used, all parties must sign this form. If an 'and/or' or 'or' is used, all parties may sign. However, only one of the named parties is required to sign.
5. At Item 5, please provide the date the property in question was acquired. This may be the date of "closing" in the case of a real estate transaction or the date of court order for other types of ownership changes.
6. You may be purchasing only a portion of the total water right held by the seller. This means the water right held by the seller may be "split" to provide your share of the right in question. Be sure to include a description of the portion of the water right you have purchased at Item 6.

Please provide as much detail as possible concerning your portion of the water right: include the number of homes you acquired, number of acres irrigated with your portion of the right, if it is more than 1/2 acre, type and number of stock if your portion of the right includes stockwater, etc. In the absence of information to the contrary, IDWR will assume the intent is to split the rights *proportionately*.

7. The new owner(s) must sign the form in the space(s) provided at Item 7. Corporations and other organizations must submit a list of directors or officers demonstrating the authority of the director or officer to sign the form.
8. There is no filing fee. When complete, you should retain a copy and return the original of the form to the IDWR office nearest you:

WATER RIGHT LICENSE

WATER RIGHT NO. 63-10669

Priority: August 8, 1988

Maximum Diversion Rate: 2.22 CFS

Maximum Diversion Volume: 499.5 AF

This is to certify, that DONALD K JENNINGS

PO BOX 2663

ELKO NV 89801

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated August 8, 1988; and has submitted Proof of Beneficial Use on September 20, 1990. An examination indicates that the works have a diversion capacity of 3.690 cfs of water from a GROUNDWATER source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	04/15 to 10/31	2.22 CFS	499.5 AF

LOCATION OF POINT(S) OF DIVERSION:

SESE , Sec. 28, Township 05N, Range 01W
ADA County

PLACE OF USE: IRRIGATION

<u>TWN</u>	<u>RGE</u>	<u>SEC</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>TOTAL</u>
05N	01W	27	NESW 38	NWSW 21	SWSW 27	86
		28	SESE 25			25

Total number of acres irrigated: 111

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right limited to the amount that can actually be beneficially use used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 4.5 afa per acre for the lands above.

REQUEST FOR EXTENSION OF TIME

For Office Use Only
\$15 FEE Received by OK
Date 10-27-89
Receipt # C0125102To provide additional time in which to submit proof
of beneficial use for a water right permit

Department of Water Resources

The Idaho Department of Water Resources will consider this form as a request that the permit holder(s) be granted an additional period of time in which to complete development of a water right under the provisions of Section 42-204, Idaho Code.

Permit No. 63-10669Name(s) of Permit Holder: Donald K. JenningsPost Office Address: P.O. Box 2663 Elko, Nevada 89801Telephone No. (702) 738-5992Date Proof Is Due: November 1, 1989.Describe what work has been completed toward the development of this water right:
(This must be filled out! If no work has been completed, show "none".)1) Well drilled to 415 ft 16" casing w/ 90% of screens set.
by Pete Cope drilling

2) Pumping test for 4.5 hrs by Lynne of Idaho

Costing \$ 24,132.00

The permit holder(s) has been unable to complete the remainder of the work for the following reasons:

Well completion late in season - unable to get
delivery of pumping system on short notice.Permit holder(s) request an extension to November 1, 1990.
(1 yr. minimum)Donald K. Jennings
(Signature)*

FEE: \$15.00

*IF OTHER THAN PERMIT HOLDER,
POWER OF ATTORNEY MUST BE SUPPLIED.

ACTION OF THE DEPARTMENT OF WATER RESOURCES

IT IS HEREBY ORDERED that the above request for extension of time be APPROVED and the time within which to submit proof of beneficial use be extended to November 1, 1990.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 63-10669, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before November 1, 19 89.
- c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.
- d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.
- e. Other: Permit holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.
Prior to the diversion of water under this permit a flow measurement port or other device as specified by the Department shall be installed to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department.

Witness my hand this 6th day of October, 1988.

RE: Water Right 63-10669

Dear Mr. Kling:

The department acknowledges receipt of correspondence changing ownership of the above referenced water right to you. The department has modified its records to reflect the change in ownership and has enclosed a computer-generated report for your records.

Please note that as of July 1, 1996, water right owners are required to report any change of water right ownership and any change of mailing address of the owner of a water right to the department. Notice of the change must be provided to the department within 120 days of the change. Change reporting forms are available from any office of the department.

Please feel free to contact the department if you have questions.

Sincerely,

Jeff Peppersack, Manager

RE: WATER RIGHT NO. 63-10669

Dear Water Right Holder(s):

Enclosed is a draft copy of the license proposed to be issued on the above referenced water right.

This right is currently being reviewed by this office for licensing. The enclosed preliminary copy is subject to change upon further administrative review.

We ask that you review the proposed license and if you do not concur with the information, please let us know within 10 days.

Sincerely,

A handwritten signature in cursive script that reads 'Pamela Skaggs'.

☐ Additional Computation Sheets Attached

1. Measured Method: *Well theoretical: $\frac{70 \times 8.8 \times .6}{100 + (2.3 \times 0)} = 3.69 \text{ cfs}$ - limited to 222 cfs - 1" PER ACRE*
2. Alternate Method for Checking Purposes: *Pond pump theoretical: $\frac{60 \times 8.8 \times .7}{5 + (2.3 \times 70)} = 2.23 \text{ cfs}$ } N/A*

F. PUMP EFFICIENCY DATA (Optional)

Discharge Pressure: _____ psi x 2.31 = _____ ft (1); Dynamic pumping level: _____ ft (2)

Total Head: (1) + (2) = _____ (3)

; Flow rate: _____ cfs (4)

Water HP: (3) x (4) ÷ 8.8 = _____ (5)

Meter Input KW: 3.6 x _____ KH x _____ CTR or _____ MULT x _____ PTR x _____ N/ _____ T = _____ (6)

Meter Input HP: (6) x 1.34 = _____ (7)

Panel Input KW: _____ Ave PF x _____ Ave Volts x _____ Ave Amps x .001732 = _____ (6)

Panel Input HP: (6) x 1.34 = _____ (7) Efficiency: (5)/(7) x 100 = _____ %

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = 111 \times 4.5 = 499.5 \text{ afa}$

$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = 2.22 \times 246 \times 1.9835 = 1083.2$

$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} = 499.5 \text{ afa}$

2. Volume Calculations for Other Uses:

NA

MISSISSIPPI MED

FEB 01 1993

H. REMARKS AND OVERLAP REVIEW ANALYSIS.

63-2406 is a drainage district license and a questionable source for this permit's land.

Period of use should comply with department standards for the area. Both the well and pond pump theoreticals support the recommended rate of diversion. The pond pump theoretical ¹⁰psi is estimated as the minimum needed to supply adequate pressure at the end of the longest mainline.

I. RECOMMENDATIONS

1. Recommended Amounts

Beneficial Use	Period of Use		Rate of Diversion Q (cfs)	Annual Volume V (afa)
	From	To		
Irrigation	3-15	11-15	2.22 cfs	499.5 afa
Totals:			2.22 cfs	499.5 afa

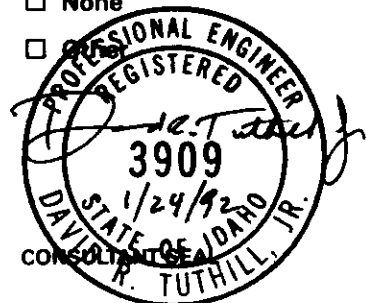

2. Recommended Amendments

- ☐ Change P.D. as reflected above ☐ Add P.D. as reflected above
☒ Change P.U. as reflected above ☐ Add P.U. as reflected above

- ☐ None
☐ Other

J. AUTHENTICATION

Field Examiner's Name Melvin T. Schulte
Signature Melvin T. Schulte
Certification Date _____
Field Report Preparation Date 1-8-92

K. Licensing recommendation shall be prepared by an Idaho Department of Water Resources employee on a computer printout attached hereto.

FEB 01 1993

63-10669 NARRATIVE

The well and pump system consists of a well with a 16" diameter casing, a submersible pump powered by an 88 Hp Duetz diesel motor, a Rockford PTO unit and an Amorillo 70 Hp gear drive with a 1760 rpm capacity. This system discharges water through a 12' x 8" steel pipe into a holding pond with a capacity of approximately one and a quarter acre feet. The pond can also receive Farmers Union Ditch water from an inlet at the Northwest corner.

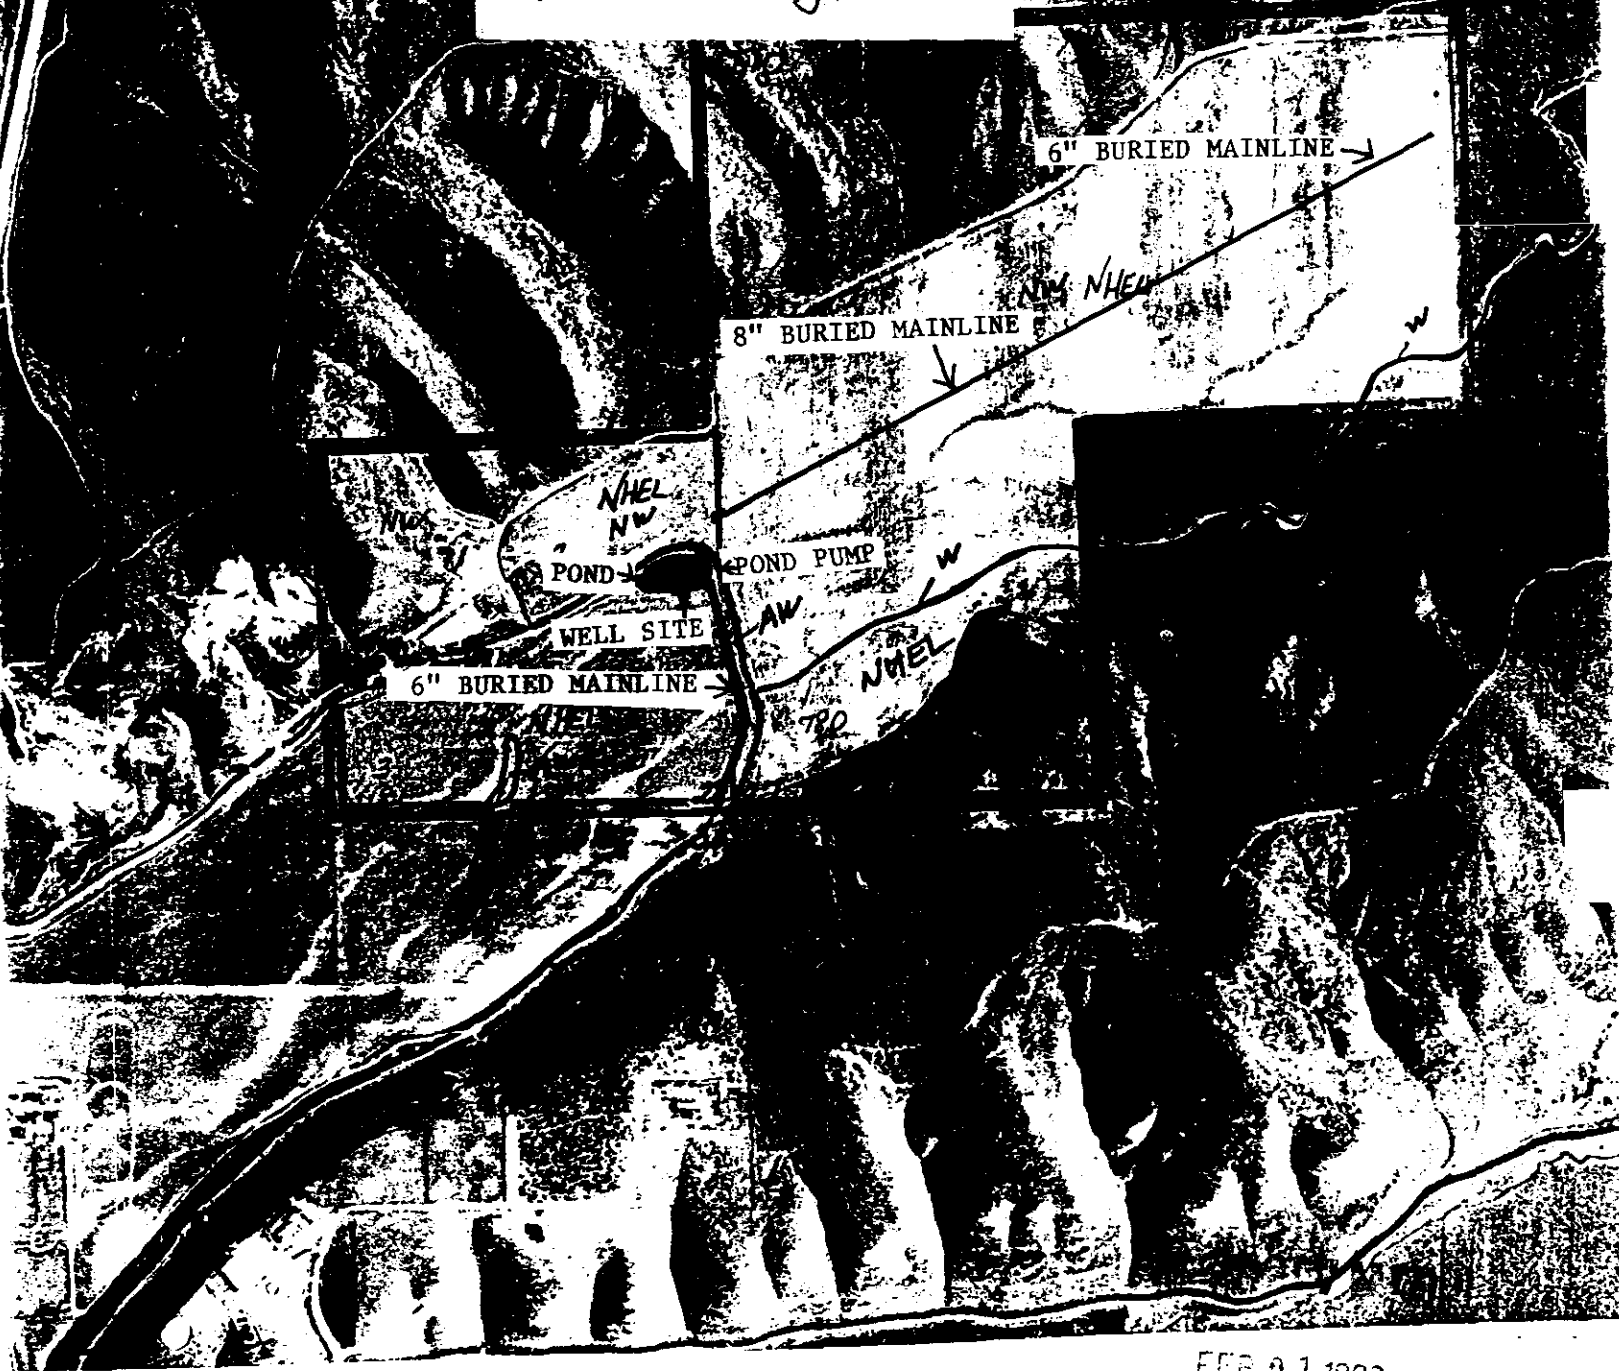

Water is pumped from the pond by a 60 Hp pump through an 8" discharge pipe into a 10" x 10' steel tube. From the 10' steel tube water can be delivered to a 9" steel pipe for about 50' to cross the Farmers Union canal to the North of the pond pump. After it crosses the canal the pipe converts to an 8" buried mainline with risers. The mainline goes North about 200' then Northeast for about one half mile with the last 200' converting to a 6" line. Irrigation is applied by handlines.

At the 10" steel tube water can also be diverted South into a 6" buried mainline with risers to irrigate a field of about 18 acres with handlines. At the time of exam the sprinkler equipment had been removed from the fields to accomodate harvesting of a mint crop.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 63-10669

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise at (208)334-2190.

Sincerely,

Rita Fleck
Secretary/Records Manager

PROOF DUE NOTICE

RE: PERMIT NO. 63-10669

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before November 1, 1990. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

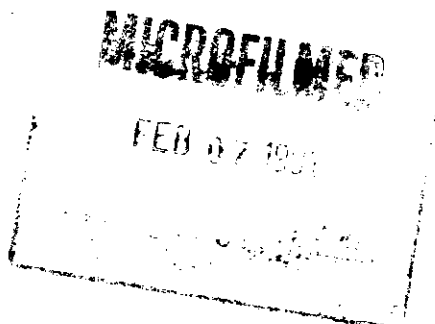

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
Secretary/Records Manager

Enclosures

January 4, 1990

Donald K. Jennings

Dear Mr. Jennings:

Re: Permit No. 63-10669

Enclosed is a copy of the approved request for extension of time. The time within which to submit the proofs of beneficial use is extended to November 1, 1990.

The department has granted this extension based on due diligence. It is important that you work diligently toward the completion of this project during the construction period allowed. The department may not be able to grant additional requests.

If you have any questions concerning this permit, please feel free to contact this office.

Sincerely,

RITA I. FLECK
Secretary/Records Manager

PROOF DUE NOTICE

RE: PERMIT NO. 63-10669

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before November 1, 1989. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
Secretary/Records Manager

Re: Drilling Permit No. 63-88-W-150
Water Permit No. 63-10669

Dear Mr. Jennings:

Department of Water Resources

This office has been contacted by a number of your neighbors in Boise who live near your farm off the Emmett highway.

Their concern involves your proposed drilling of an irrigation well in Section 28 just north of their residences and the potential of adversely affecting their wells. As you are probably aware, since these neighbors all have prior vested rights in their wells this would include the right to continue to have their water available at their historic pumping level. Thus, if your well causes a lowering of the water table interfering with this right, you may be faced with considerable expense and damage. We are not saying that this in fact will happen, but it is a possibility which you should be aware of before you expend the funds to drill your proposed well.

The neighbors who are concerned are:

a. Glenn and Mary Stillwell, who have a domestic well drilled in approximately 1978 in the NE1/4 of Section 33. This well is pumping at approximately the 200-foot level.

b. Stanley and Edna McCoy, who have a domestic well drilled in approximately 1964 in the NE1/4 of Section 33. Their well is pumping at approximately the 100-foot level.

c. Jay and Kim Green, who have a domestic well drilled in approximately 1970 in the NE1/4 of Section 33, which is also pumping at approximately the 100-foot level.

d. Logan and Doris Schirmer, who have a domestic well dating from around 1978 in the NE1/4 of Section 33, which is pumping at approximately the 235-foot level.

FEB 26 1990

Mr. Donald K. Jennings
January 9, 1989
Page Two

e. Raymond and Juanita Marchesini, who have a domestic well in the NE1/4 of Section 33.

f. John and Maxine Schvaneveldt also have a domestic well dating from about 1974 in the NE1/4 of Section 33, which is pumping at approximately the 157-foot level.

g. David and Carol Wetherell, who have a domestic well dating from 1986 in the NE1/4 of Section 33, which is pumping at approximately the 190-foot level.

If you would like to discuss this matter further or need additional information, please advise.

Very truly yours,

Randall C. Fredricks

The approval of this permit authorizes the construction of a well as described on this application subject to the conditions on this permit.

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from its date of issuance for the start of construction and is valid for one (1) year from the date of issuance for completion of the well unless an extension has been granted.
3. This permit does not constitute the approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Issuance of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.

SPECIFIC CONDITIONS:

Dated this 10th day of August, 1988.

RE: PERMIT NO. 63-10669

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Be sure to note the special condition requiring you to install a measuring device, or a flow measurement port to provide for the installation of measuring equipment by the Department. Enclosed please find a list of measuring device options, and specifications for the installation of the flow measurement port.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

MICROFILMED

DEC 08 1988

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form entitled "Proof of Beneficial Use" that must be submitted to the Department when your project is completed.

Sincerely,

Gary Spackman

Re: Water Right No. 63-10669

Dear Water Right Applicant:

Enclosed is a temporary approval for diversion of groundwater during the 1988 irrigation season.

The copy of the application for permit to appropriate water attached to the interim approval defines the various components of your temporary approval. The inclusion of the copy of the application is only for the purpose of definition, and any terms contained therein are limited by the conditions of the temporary approval.

This office will continue to process the original application for permit, pursuant to Chapter 2, Title 42, Idaho Code, unless directed otherwise by you. This processing will include advertisement for two weeks in the county where the point of diversion is located.

Sincerely,

DAVID R. TUTHILL, JR., P.E.
Manager, Western Regional Office

Copy of Application for Permit

MICROFILMED

DEC 08 1988

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES
WITH RESPECT TO TEMPORARY APPROVAL OF
APPLICATIONS FOR PERMIT NO. 63-10669

This is to certify that I have examined Application for Permit to Appropriate the public waters of the State of Idaho No. 63-10669 ; and a temporary approval to divert groundwater is granted until 11/15/1988, subject to the following limitations and conditions:

- a. The water use approved herein is subject to all prior water rights.
- b. By accepting the temporary approval and diversion of water under the temporary approval, the water user assumes all risk relative to interference with other water rights and acknowledges and agrees that the Director is authorized to take reasonable steps to insure that water is not diverted under the approval at any time the Director determines there is not water available for diversion.
- c. The water user acknowledges that the temporary approval does not establish a right to divert water except as specifically provided in the temporary approval.
- d. The water user assumes all risk that he or she will be successful in obtaining a permanent water right permit when the application is processed under the provisions of Chapter 2, Title 42, Idaho Code and the Water Appropriation Rules and Regulations. Following expiration of the temporary approval, diversion of water shall cease and the well shall be capped unless a permit is issued under Chapter 2, Title 42, Idaho Code.
- e. Violation of temporary approval conditions, provisions of the Idaho Code, or the Water Appropriation Rules and Regulations is cause for cancellation of the temporary approval and denial of future requests.
- f. By accepting this temporary approval, the water user acknowledges and agrees that the Director of IDWR is authorized to disconnect the power supply from the pump motor used to divert water under the temporary approval or to take other reasonable steps to insure that water is not diverted during any period the temporary approval is suspended or revoked, or has expired.
- g. The Director retains jurisdiction of this temporary approval, and may cancel or modify the approval, or impose additional conditions not a part of the original temporary approval conditions.

MICROFILMED

DEC 08 1988

- h. The temporary approval applies only to uses and lands which normally have an adequate supply of water from surface water sources but are temporarily water short because of drought conditions.

Witness my hand this 10th day of August, 1988.
