WATER RIGHT LICENSE

WATER RIGHT NO. 63-10648

Priority: June 13, 1988

Maximum Diversion Rate: 1.03 CFS
Maximum Diversion Volume: 231.3 AF

This is to certify, that LUCILLE BROKAW
ORVILLE E BROKAW

9000 E KUNA RD
KUNA ID 83634

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated June 13, 1988; and has submitted Proof of Beneficial Use on June 13, 1989. An examination indicates that the works have a diversion capacity of 2.740 cfs of water from a **GROUNDWATER** source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	04/15 to 10/15	1.03 CFS	231.3 AF

LOCATION OF POINT(S) OF DIVERSION: SENE , Sec. 26, Township 04N, Range 05W
CANYON County

<u>PLACE OF USE:</u>	<u>IRRIGATION</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>TOTAL</u>
<u>TWN</u>	<u>RGE</u>	<u>SEC</u>			
04N	05W	26	SWNE 37.6	SENE 13.8	51.4
Total number of acres irrigated:					51.4

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right limited to the amount that can actually be beneficially use used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 4.5 afa per acre for the lands above.

WATER RIGHT LICENSE

WATER RIGHT NO. 63-10648

This license is issued pursuant to the provisions of Section 42-219, Idaho Code.
Witness the seal and signature of the Director, affixed at Boise, this 16th
day of OCTOBER, 1992.

Acting for  R. Keith Higginson, Director

RECEIVED

OCT 27 1992

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
APPLICATION FOR PERMIT

To appropriate the public waters of the State of Idaho

APPROVED

1. Name of applicant Orville E. and/or Lucille Brookaw Phone 362-2971
Post office address 9000 E. Kuna Rd. Kuna, Id. 83634

2. Source of water supply groundwater which is a tributary of _____

3. Location of point of diversion is _____ $\frac{1}{4}$ of SE $\frac{1}{4}$ of NE $\frac{1}{4}$, Govt. Lot _____
Sec. 26 Township 4N Range 5W B.M. Canyon County; additional
points of diversion if any: _____

4. Water will be used for the following purposes:

Amount 1.10 for Irrigation purposes from 4/15 to 10/15 (both dates inclusive)
(cfs or acre-feet per annum)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)

5. Total quantity to be appropriated is (a) 1.10 and/or (b) _____
cubic feet per second acre feet per annum

6. Proposed diverting works:

a. Description of ditches, flumes, pumps, headgates, etc. 20 hp pump and sprinkler
system.

b. Height of storage dam _____ feet; active reservoir capacity _____ acre-feet; total
reservoir capacity _____ acre-feet; period of year when water will be diverted to storage:
_____ to _____ inclusive.

c. Proposed well diameter is 8 inches; proposed depth of well is 160 feet.

d. Is ground water with a temperature of greater than 90°F being sought? No

7. Time required for the completion of the works and application of the water to the proposed beneficial use is
1 years (minimum 1 year).

RECEIVED

SEP 30 1988

8. Description of proposed uses (if irrigation only, go to item 9):

- Hydropower; show total feet of head and proposed capacity in KW. _____
- Stockwatering; list number and kind of livestock. _____
- Municipal; show name of municipality. _____
- Domestic; show number of households. _____
- Other; describe fully. _____

9. Description of place of use:

- If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
- If water is used for other purposes, place a symbol of the use (example: *D* for Domestic) in the corresponding place of use below. See instructions for standard symbols.

TWP	RANGE	SEC.	NE¼				NW¼				SW¼				SE¼				TOTALS
			NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	
4N	5W	26			40	15													55

Total number of acres to be irrigated 55

10. Describe any other water rights used for the same purposes as described above. Boise Project water (Wilden Irrigation District) on SWNE S.26.

- Who owns the property at the point of diversion? Applicants
- Who owns the land to be irrigated or place of use? Applicants
- If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing. _____

12. Remarks: This well will supplement surface water on the SWNE and provide water right coverage on SENE.

SEP 30 1988

13. Map of proposed project: show clearly the proposed point of diversion, place of use, section number, township and range number.

Scale: 2 inches equal 1 mile.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 63-10648, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before August 1, 19 89.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.

e. Other:

Permit holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.

Prior to the diversion of water under this permit a flow measurement port or other device as specified by the Department shall be installed to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department.

Witness my hand this 3rd day of August, 1988.

G. VOLUME CALCULATIONS

see attached sheet

1. Volume Calculations for Irrigation:

$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) =$ 231.3

$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 =$ 326.8 375.7 502.6

$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} =$ 326.8 231.3

2. Volume Calculations for Other Uses:

None

RECEIVED
OCT 27 1992

IRRIGATION RIGHT FROM A GROUND WATER SOURCE

A theoretical calculation is necessary to determine if a measurement is required for irrigation from a groundwater source.

=====

1. Using the found acres (or an estimate by the permit holder) calculate the acre-foot per annum limit. This is the volume that the system must be able to theoretically produce to exclude a rate of flow measurement.

2. Next, given the pump hp and the estimated dynamic water level, calculate the theoretical rate of flow that the system can produce.

3. Using the rate found in step 2 and the days in the permitted irrigation season, calculate the theoretical AFA that the system could produce. This volume is then compared to the first AFA calculation. If the theoretical volume (step 3) is greater than the irrigation requirement volume (step 1) then no measurement is necessary. If it is less, then you must make a diversion rate measurement during the field examination.

(OPEN DISCHARGE)

(SPRINKLERS)

$$1. \frac{20 \times 8.8 \times .7}{45} = 2.74 \text{ cfs}$$

$$\frac{51.4}{\text{Found Acres}} \times \frac{4.5}{\text{Irr. Req.}} = \frac{231.3}{\text{AFA}}$$

$$2. \frac{(20) \text{ HP} \times 8.8 \times (.7) \text{ EFF}}{(.45) \text{ Dyn Level} + (2.3 \times \{50\} \text{ PSI})} = .77 \text{ CFS}$$

$$3. \frac{.77}{\text{Theoretical Div. Rate}} \times \frac{246}{\text{Days in season}} \times 1.9835 = \frac{375.7}{\text{AFA}}$$

Note: for electrical motors
EFF = 0.70
for diesel motors
EFF = 0.60

Data Requires Verification ☐
Measurement Required -- ☐
Measurement Not Required ☒

Calculation data sources:

Found acres = 51.4

Dear Mr. & Mrs. Brokaw:

Re: Permit No. 63-10648

This office acknowledges receipt of the proof of beneficial use form submitted on June 13, 1989.

Note the condition of approval of your permit which requires you to install a flow measurement port or other device to provide for the determination of the rate of diversion. The next step is for the department to conduct a field examination for licensing purposes. At the time the field examination is conducted, a type of measuring device must be installed. Failure to comply is reason for the department to cancel the permit.

The department understands, however, that certain methods of diversion make it impossible to install measuring devices. If this situation applies to you, discuss with the department representatives alternative techniques of measuring your diversion rate. At the time of the field inspection, the field examiner can be prepared with the appropriate measuring equipment.

If you have any questions concerning this matter, please feel free to contact the Western Regional office in Boise at 334-2190

Sincerely,

NINA K. SHIELDS
Clerical Assistant

ACTION OF IDWR

(X) Approved () Denied

The approval of this permit authorizes the construction of a well as described on this application subject to the conditions on this permit.

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from its date of issuance for the start of construction and is valid for one (1) year from the date of issuance for completion of the well unless an extension has been granted.
3. This permit does not constitute the approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Issuance of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.

SPECIFIC CONDITIONS:

8. This permit does not constitute the approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.

Orville E. and/or Lucille Brokaw
9000 E. Kuna Rd.
Kuna, ID 83634

Dear Mr. and Mrs. Brokaw:

Re: Permit No. 63-10648

I have the responsibility of reviewing the proof of beneficial use forms in connection with the water right files and matching well driller's reports (well logs) and well drilling permits. During my research I have not been able to locate either the driller's report or if required, a drilling permit.

Can you provide me with a copy of the driller's report or the following information about the well:

When was the well drilled?

Aug. 1988

Who was the well driller?

Scott Drilling

If one was required, what is the of the drilling permit number?

I appreciate any help you can give me regarding this matter.

Sincerely,

RITA I. FLECK
Secretary/Records Manager

PROOF DUE NOTICE

RE: PERMIT NO. 63-10648

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before August 1, 1989. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
Secretary/Records Manager

RE: PERMIT NO. 63-10648

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct you attention to the conditions of approval on the final page.

Be sure to note the special condition requiring you to install a measuring device, or a flow measurement port to provide for the installation of measuring equipment by the Department. Enclosed please find a list of measuring device options, and specifications for the installation of the flow measurement port.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since

MAILED

SEP 30 1988

you must take further action to develop this permit. Also enclosed for your convenience is the statement of beneficial use that must be submitted when your project is completed.

Sincerely,

Gary Spackman
Supervisor, Water Allocation Section
