ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 63-10634, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before August 1, 19 90.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.

e. Other:

Permit holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.

Permit holder shall commence the excavation or construction of diverting works within one year of the date this permit is issued and shall proceed diligently until the project is complete.

Prior to the diversion of water under this permit a flow measurement port or other device as specified by the Department shall be installed to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department.

RE: PERMIT NO. 63-10634

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct you attention to the conditions of approval on the final page.

Also enclosed is a copy of the approved drilling permit submitted in connection with this water right.

Be sure to note the special condition requiring you to install a measuring device, or a flow measurement port to provide for the installation of measuring equipment by the Department. Enclosed please find a list of measuring device options, and specifications for the installation of the flow measurement port.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Please note the requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permit was approved.

We have enclosed a form entitled "Instructions for Proof of

Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a license.

(☒) Approved () Denied

The approval of this permit authorizes the construction of a well as described on this application subject to the conditions on this permit.

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from its date of issuance for the start of construction and is valid for one (1) year from the date of issuance for completion of the well unless an extension has been granted.
3. This permit does not constitute the approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Issuance of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.

SPECIFIC CONDITIONS:

~~This permit is not the approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.~~ 124

Dear Ms. Shurte,

Enclosed is a completed Well Drilling Permit No.
63-88-W-046 (Amended) and a check to cover the
additional \$90.00 in fees.

Also enclosed is a water right application for
permit and the \$65.00 fee for that application.

Thank you for the assistance you have given me
and I urge you now to expedite this matter as
quickly as possible. As you know the irrigation
season is here and the water situation for
farmers is critical.

Dear Mr. Symms:

Enclosed is amended Well Drilling Permit No. 63-88-W-046 which amends the domestic use previously approved to irrigation use. Please complete Item No.'s 7 and 8, check the legal description for the proposed irrigation well under Item No. 3, and return the form to this office with the additional \$90 now needed to satisfy the \$100 filing fee on irrigation well drilling permits. Please note that the approval given under this number for your domestic well does not automatically give approval to the irrigation well drilling permit.

On irrigation wells, an approved application for permit to divert the water is required before the well drilling permit can be approved. However, in an emergency basis, such as this year, early approvals of the well drilling permit can be given with the condition that no diversion of water from the well will occur until the water right application for permit to divert is approved. If you need this early approval, please include a note stating this with these forms.

Also enclosed is a water right application for permit which must be completed and returned to our office with the well drilling permit. Item No.'s 9b, 10 and 13 still need to be completed, the application signed, and a fee of \$65 covering the 2.0 cfs returned with the application.

I'm sorry this has taken so long, but the Snake River Adjudication claims taking has tripled our workload. I hope this did not cause you an inconvenience. If you have any questions, please feel free to contact me.
