AMENDED

WATER RIGHT NO. 63-10605

Priority: March 20, 1991

Maximum Diversion Rate:
Maximum Diversion Volume:¹

0.67 CFS
325.6 AF

This is to certify, that DAVE BEGGROW
605 N. EDGEWOOD LANE
EAGLE, ID 83616

has complied with the terms and conditions
of the permit, issued pursuant to Application for Permit dated March 31, 1988; and
has submitted Proof of Beneficial Use on March 20, 1991. An examination indicates
that the works have a diversion capacity of .670 cfs of water from a **GROUNDWATER**
source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	03/15 to 11/15	0.67 CFS	325.6 AF

LOCATION OF POINT(S) OF DIVERSION:

SENE , Sec. 9, Township 04N, Range 01E
ADA County

PLACE OF USE: IRRIGATION

<u>TWN</u>	<u>RGE</u>	<u>SEC</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>TOTAL</u>

			NESE 2	NWSE 4		
		10	SWNW 12	SENW 18	NESW 1	36
			NWSW 5			

Total number of acres irrigated: 80

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 4.5 afa per acre for the lands above.

BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE
STATE OF IDAHO

IN THE MATTER OF PERMIT	)	
	)	
NO. 63-10605 IN THE NAME OF	)	ORDER OF REINSTATEMENT
	)	
DAVE BEGGROW	)	

This matter having come before the Idaho Department of Water Resources (Department) the Department finds as follows:

FINDINGS OF FACT

1. On June 14, 1988 the Director of the Department of Water Resources issued Permit No. 63-10605 with a condition of approval that proof of construction of works and application of water to beneficial use be submitted on or before July 1, 1989. This proof due date was later extended to July 1, 1990. An amendment of the permit created permit no. 63-10605.

2. On April 30, 1990 the Department sent a proof due notice to the permit holder.

3. On July 11, 1990 the Department sent a lapse notice to the permit holders since neither proof of beneficial use nor a request for extension of time had been received from the permit holder.

4. On March 20, 1991 Proof of Beneficial Use and a beneficial use field report prepared by a certified examiner was received by the Department from the permit holder.

MICROFILMED
JUL 15 1991

5. Section 42-218a, Idaho Code, authorizes the Department to reinstate a lapsed permit, with the priority date advanced to the date that proof of beneficial use was received, upon submittal of evidence clearly establishing the extent of beneficial use prior to the proof due date and a showing of reasonable cause why the proof was submitted late.

6. The permit holder has submitted evidence to confirm that water has been put to beneficial use prior to the proof due date. Evidence includes a copy of a well driller's report showing that the second and newest well under the permit was completed in March of 1990. Also submitted as evidence is a statement from the certified field examiner attesting that he had made the groundwater well measurements in March of 1990.

7. The permit holder and certified field examiner have stated that proof and the certified exam were submitted late due to some confusion between the permit holder and the examiner as to when the materials had to be submitted to the Department.

CONCLUSIONS OF LAW

1. The permit holder has submitted proof of beneficial use along with supporting evidence which establishes that water was in fact beneficially used as identified on the permit.

2. The permit holder has shown sufficient cause why the proof of beneficial use was not submitted in a timely manner.

3. The permit can be reinstated with the date of priority advanced to the date proof of beneficial use was

MICROFILMED
JUL 15 1991

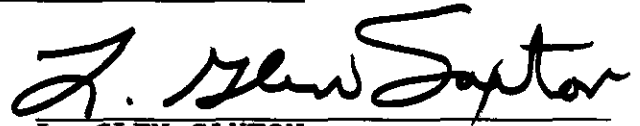

received by the Department.

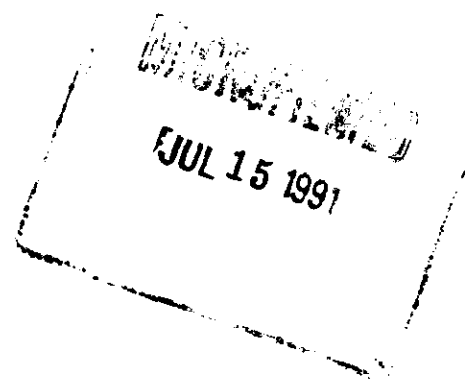

ORDER

IT IS HEREBY ORDERED that Permit No. 63-10605 is
reinstated.

IT IS FURTHER ORDERED that the date of priority of this
permit is advanced to March 20, 1991.

Dated this 24th day of June, 1991.

L. GLEN SAXTON
Chief, Water Allocation Bureau

- Remarks: Drilling Permit 63-88-W-041 issued on 3/25/88 with condition that water may not be diverted until this W.R. App. is approved.

SEP 30 1988

This is a detailed topographic map of the Boise, Idaho area. The map features several key roads, including Union Road, Feather Road, and Horsehoe Road. A canal is also visible, running through the upper portion of the map. The Boise River is shown in the lower left, with a bridge crossing it. The Floating Feather Airport is located on the right side of the map. Various landmarks and features are labeled, such as the Pump, Siphon, Well, Trailer Park, Gravel Pit, and Spoil Banks. The map includes contour lines indicating elevation, with markers for 2600, 2620, 2640, 2660, 2680, 2700, 2720, 2740, 2760, 2780, 2800, 2820, 2840, 2860, 2880, 2900, 2920, 2940, 2960, 2980, 3000, 3020, 3040, 3060, 3080, 3100, 3120, 3140, 3160, 3180, 3200, 3220, 3240, 3260, 3280, 3300, 3320, 3340, 3360, 3380, 3400, 3420, 3440, 3460, 3480, 3500, 3520, 3540, 3560, 3580, 3600, 3620, 3640, 3660, 3680, 3700, 3720, 3740, 3760, 3780, 3800, 3820, 3840, 3860, 3880, 3900, 3920, 3940, 3960, 3980, 4000. Handwritten annotations include 'T. 4N R. 1E' in the center-right, '1316' in a circle in the lower left, and '14' in a circle in the lower right. The map also shows various other features like the Eagle Bridge, Eagle, and Boise.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 63-10605, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before July 1, 19 89.
- c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.
- d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.
- e. Other:
Permit holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.
Prior to the diversion of water under this permit a flow measurement port or other device as specified by the Department shall be installed to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department.

Witness my hand this 14th day of June, 1988.

RE: WATER RIGHT NO. 63-10605

Dear Water Right Holder(s):

Enclosed herewith is a copy of the amended Water Right License issued on the above referenced permit.

The license issued on July 8, 1991 inadvertently listed the wrong priority date. The date had been advanced because of the late submittal of the proof of beneficial use; however, the date listed on the approved license was the original priority date. The amended license reflects the correct date of June 24, 1991.

Should you have any questions regarding this document, please feel free to contact our office.

Sincerely,

SHARLA CURTIS

MEMORANDUM

TO: File 63-10605
FROM: Sharla
DATE: October 3, 1991
RE: Amended License

[Handwritten signature]

The license issued on 7/8/91 listed a priority date of 1/26/89. The priority date was advanced on 6/24/91 due to late submittal of the proof of beneficial use.

A copy of the order of reinstatement was sent to the holder when the pre-license correspondence was sent. However, the new date of priority was inadvertently left off the license issued in July. An amended license will be prepared to reflect the correct date of priority.

RE: WATER RIGHT NO. 63-10605

Dear Water Right Holder(s):

The above referenced water right is in the process of being licensed. However, before a license can be issued, your permit must be amended to correspond with the findings of the Department's field examiner.

The enclosed application for amendment contains information that will be included on the license when it is issued. Please review carefully and if you concur, sign the amendment and return with the \$20.00 filing fee within 15 days.

If you do not concur with these findings or if you have any questions, please contact us within the 15-day period.

Also enclosed is an ORDER OF REINSTATEMENT of the above referenced permit in order that we can continue the processing.

Department of Water Resources

Dear Tim:

Subsequent to your inquiry about the proof of beneficial use exam for permit #63-10605 in the name of Eagle Hills Golf Course, I am providing the following information in the hope that it answers your questions.

The proof of beneficial use was originally due July 1, 1990, but because of confusion between Dave Beggrow and myself, the exam was not submitted to you until December 5, 1990. Water under this right is produced by two wells very close to one another, one of which has been in place for some time and the other was drilled over a period of approximately 15 months beginning in January, 1989, with completion in March, 1990, due to significant problems incurred by the well driller. Flow from the more recently completed well was measured by me on March 29, 1990, under gravity discharge conditions which is the way it is operated for the golf course. The acreage description provided on the exam was completed during June and July of 1990 but the materials were not provided to Mr. Beggrow for his signature until December of 1990. This accounts for the differing dates found on the beneficial use field report and submission to the Department. The land obviously has been utilized as a golf course for some time prior to the proof due date and both wells were in operation before July 1, 1990. Again, the primary problem with the late submission was confusion between the owner, Mr. Dave Beggrow, and me.

If you have any other questions, please don't hesitate to call.

Sincerely yours,

Sherl L. Chapman

Address 7015 McGlocklin

Date 3/22/88 Applicant's signature David Phipps

Title. Co-Owner - Drilling Business

* After other pre-requisite approvals have been obtained.

ACTION OF IDWR

(X) Approved () Denied

The approval of this permit authorizes the construction of a well as described on this application subject to the conditions on this permit.

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from its date of issuance for the start of construction and is valid for one (1) year from the date of issuance for completion of the well unless an extension has been granted.
3. The permit holder or his representative shall notify the Department ten (10) days prior to the start of construction unless good cause for later notification can be shown.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Issuance of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.

SPECIFIC CONDITIONS:

7. Water may not be diverted from this well until an approved water right permit is obtained.

Dated this 25 day of March, 19 88.

Mr. Tim Luke
Idaho Department of Water Resources
1301 N. Orchard
Boise, Idaho 83706

Dear Tim:

Enclosed you will find the proof of beneficial use exam for permit #63-10605 in behalf of Mr. Dave Beggrow. I've enclosed the measurement sheet made during my previous work with Mr. Beggrow and other pertinent data that I believe are necessary as well as information demonstrating that the well was completed in the spring of 1990 in advance of the proof due date.

If you have any questions, please don't hesitate to call me and I appreciate your assistance in this matter.

Sincerely yours,

Sherl L. Chapman

LAPSE NOTICE

RE: PERMIT NO. 63-10605

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. The department provided the proper forms to you in our proof due notice dated April 30, 1990. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable proof of beneficial use or an acceptable request for extension of time to the department within sixty (60) days of the mailing of this lapse notice. An acceptable proof of beneficial use submittal must include the examination fee or a completed field examination report. A request for extension of time must be accompanied by a fifteen dollar (\$15) fee.

Enclosed again for your use are a proof of beneficial use form and a request for extension of time form. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation which may bring title to the water in question.

PROOF DUE NOTICE

RE: PERMIT NO. 63-10605

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before July 1, 1990.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck

Dear Mr. Beggrow:

Re: Permit No. 63-10605

Enclosed is a copy of the approved request for extension of time. The time within which to submit proof of beneficial use is extended to July 1, 1990. Note that the permit has been reinstated with an advance in priority the number of days the extension request was late.

Note that the department has granted this extension based on due diligence. It is important that you work diligently toward the completion of this project during the construction period allowed. The department may not be able to grant additional requests.

If you have any questions, please feel free to contact this office.

Sincerely,

RITA I. FLECK

RE: PERMIT NO. 63-10605

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct you attention to the conditions of approval on the final page.

Be sure to note the special condition requiring you to install a measuring device, or a flow measurement port to provide for the installation of measuring equipment by the Department. Enclosed please find a list of measuring device options, and specifications for the installation of the flow measurement port.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

MAILED

1988

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is the statement of beneficial use that must be submitted when your project is completed.

Sincerely,

Gary Spackman
Supervisor, Water Allocation Section
