NOS. 63-10576 & 63-10577 IN	)	ORDER OF REINSTATEMENT
	)	
THE NAME OF M & W FARMS	)	
_____	)	

This matter having come before the Idaho Department of Water Resources (Department) the Department finds as follows:

FINDINGS OF FACT

1. On April 25, 1988, the Director of the Department of Water Resources issued Permit Nos. 63-10576 & 63-10577 with a condition of approval that proof of construction of works and application of water to beneficial use be submitted on or before May 1, 1989.

2. On February 28, 1989, the Department sent proof due notices to the permit holders.

3. On May 9, 1989, the Department sent lapse notices to the permit holders since neither proof of beneficial use nor requests for extension of time had been received from the permit holders.

4. On January 25, 1990, Proof of Beneficial Use was received by the Department from the permit holder.

5. Section 42-218a, Idaho Code, authorizes the Department to reinstate lapsed permits, with the priority date advanced to the date that proof of beneficial use was received, upon submittal of evidence clearly establishing the extent of beneficial use prior to the proof due date and a

showing of reasonable cause why proof was submitted late.

6. The permit holders submitted evidence to confirm that water has been put to beneficial use. Evidence includes a well drillers report and receipts for well drilling and well equipment dated in 1977.

7. The permit holders have stated that proof was submitted late because they had overlooked the proof submittal requirement at the time proof was due.

CONCLUSIONS OF LAW

1. The permit holders have submitted proof of beneficial use along with supporting evidence which establishes that water was in fact beneficially used as identified on the permits.

2. The permit holders have shown sufficient cause why proof of beneficial use was not submitted in a timely manner.

3. The permits can be reinstated with the date of priority advanced to the date proof of beneficial use was received by the Department.

ORDER

IT IS HEREBY ORDERED that Permit Nos. 63-10576 & 63-10577 are reinstated.

IT IS FURTHER ORDERED that the date of priority of these permits is advanced to January 25, 1990.

Dated this 4th day of June, 1990.

IRRIGATION RIGHT FROM A GROUND WATER SOURCE

A theoretical calculation is necessary to determine if a measurement is required for irrigation from a groundwater source.

=====

1. Using the found acres (or an estimate by the permit holder) calculate the acre-foot per annum limit. This is the volume that the system must be able to theoretically produce to exclude a rate of flow measurement.
2. Next, given the pump hp and the estimated dynamic water level, calculate the theoretical rate of flow that the system can produce.
3. Using the rate found in step 2 and the days in the permitted irrigation season, calculate the theoretical AFA that the system could produce. This volume is then compared to the first AFA calculation. If the theoretical volume (step 3) is greater than the irrigation requirement volume (step 1) then no measurement is necessary. If it is less, then you must make a diversion rate measurement during the field examination.

1.
$$\frac{202}{\text{Found Acres}} * \frac{4.5}{\text{Irr. Req.}} = \frac{909}{810} \text{ AFA}$$
2.
$$\frac{(75) \text{ HP} * 8.8 * (.6) \text{ EFF}}{(70) \text{ Dyn Level} + (2.3 * \{0\} \text{ PSI})} = \frac{396}{5.4} \text{ CFS}$$

Theor. Div. Rate
3.
$$\frac{5.4}{\text{Theoretical Div. Rate}} * \frac{246}{\text{Days in season}} * 1.9835 = 2634.9 \text{ AFA}$$

Note: for electrical motors
EFF = 0.70
for diesel motors
EFF = 0.60

RE: PERMIT NO. 63-10576

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced water permit has lapsed. This office did not receive either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time. You were provided the proper form in our proof due notice to you dated February 28, 1989.

Your permit cannot be reinstated unless you submit proof of beneficial use or submit an extension of time request showing reasonable cause for delay. Either the completed proof of beneficial use submittal (including the examination fee or a completed field examination report) or the extension request form together with the \$15 fee must be received by this department within sixty days of the date of mailing of this lapse notice or the permit will no longer be of any force or effect.

A proof of beneficial use form and a request for extension of time form are again enclosed for your use. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a governmental agency or by litigation which might bring title to the water in question.

RE: PERMIT NO. 63-10576

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before May 1, 1989. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

RE: PERMIT NO. 63-10576

DEAR PERMIT HOLDER:

ENCLOSED IS A COPY OF YOUR APPROVED APPLICATION FOR PERMIT. WE DIRECT YOUR ATTENTION TO THE CONDITIONS OF APPROVAL ON THE FOURTH PAGE.

BE SURE TO NOTE THE SPECIAL CONDITION REQUIRING YOU TO INSTALL A MEASURING DEVICE, OR A FLOW MEASUREMENT PORT TO PROVIDE FOR THE INSTALLATION OF MEASURING EQUIPMENT BY THE DEPARTMENT. ENCLOSED PLEASE FIND A LIST OF MEASURING DEVICE OPTIONS, AND SPECIFICATIONS FOR THE INSTALLATION OF THE FLOW MEASUREMENT PORT.

YOU SHOULD BE AWARE THAT THE GROUNDWATER YOU PROPOSE TO DIVERT IS LOCATED WITHIN A DRAINAGE BASIN WHERE SURFACE WATERS ARE REGULATED DURING THE MONTHS OF LOW FLOW. IT IS POSSIBLE THAT DIVERSION OF GROUNDWATER MAY HAVE AN ADVERSE IMPACT ON THESE SURFACE WATER FLOWS. INFORMATION AVAILABLE TO US AT THIS TIME DOES NOT WARRANT REFUSING TO ISSUE PERMITS IN YOUR AREA, BUT WE DO CAUTION THAT DIVERSIONS OF GROUNDWATER ARE NOT ALLOWED TO DEplete FLOWS AVAILABLE FOR SURFACE WATER USERS WITH EARLIER PRIORITY DATES. SITING YOUR WELL AS FAR FROM SURFACE SOURCES AS POSSIBLE AND CASING OUT UPPER WATER PRODUCING ZONES MAY REDUCE THE POTENTIAL OF INTERFERENCE.

SECTION 42-235, IDAHO CODE, REQUIRES THAT A "DRILLING PERMIT" MUST BE OBTAINED FROM THE DEPARTMENT FOR ALL WELLS CONSTRUCTED AFTER JULY 1, 1987. A DRILLING PERMIT IS A SEPARATE PERMIT THAT MUST BE ISSUED IN ADDITION TO YOUR PERMIT TO APPROPRIATE WATER. Re: Applications for Permit Nos. 63-10576 and 63-10577

Dear Mr. Truesdell:

We recently received two water right applications for permit from your office to appropriate groundwater for irrigation use. The review process for these applications has been initiated, and they were recently submitted for advertising.

Before we can complete our review process, however, it will be necessary for you to submit a list of officers for M & V Farms, Inc. Department regulations require that such information be provided with water right applications from corporations. In addition, the title of the signator is required when a water right applicant is a corporation.

Please provide this information as soon as possible so that the processing of your applications is not delayed. Feel free to contact this office if you have any questions.

Sincerely,

See info on app.
