PERMIT APPROVAL NOTICE

RE: PERMIT NO. 63-10503

DEAR PERMIT HOLDER:

ENCLOSED IS A COPY OF YOUR APPROVED APPLICATION FOR PERMIT. WE DIRECT YOUR ATTENTION TO THE CONDITIONS OF APPROVAL ON THE FOURTH PAGE.

YOU SHOULD BE AWARE THAT THE GROUNDWATER YOU PROPOSE TO DIVERT IS LOCATED WITHIN A DRAINAGE BASIN WHERE SURFACE WATERS ARE REGULATED DURING THE MONTHS OF LOW FLOW. IT IS POSSIBLE THAT DIVERSION OF GROUNDWATER MAY HAVE AN ADVERSE IMPACT ON THESE SURFACE WATER FLOWS. INFORMATION AVAILABLE TO US AT THIS TIME DOES NOT WARRANT REFUSING TO ISSUE PERMITS IN YOUR AREA, BUT WE DO CAUTION THAT DIVERSIONS OF GROUNDWATER ARE NOT ALLOWED TO DEplete FLOWS AVAILABLE FOR SURFACE WATER USERS WITH EARLIER PRIORITY DATES. SITING YOUR WELL AS FAR FROM SURFACE SOURCES AS POSSIBLE AND CASING OUT UPPER WATER PRODUCING ZONES MAY REDUCE THE POTENTIAL OF INTERFERENCE.

A "DRILLING PERMIT" MUST BE OBTAINED FROM THE DEPARTMENT FOR ALL WELLS CONSTRUCTED AFTER JULY 1, 1987. A DRILLING PERMIT IS A SEPARATE PERMIT THAT MUST BE ISSUED IN ADDITION TO YOUR PERMIT TO APPROPRIATE WATER. COMMENCEMENT OF WELL CONSTRUCTION OR DIVERSION OF WATER UNDER YOUR PERMIT TO APPROPRIATE WATER IS PROHIBITED UNLESS A DRILLING PERMIT IS OBTAINED.

WE HAVE ENCLOSED A FORM ENTITLED "INSTRUCTIONS FOR PROOF OF BENEFICIAL USE". PLEASE READ THE INSTRUCTIONS CAREFULLY SINCE YOU MUST TAKE FURTHER ACTION TO DEVELOP THIS PERMIT. ALSO ENCLOSED FOR YOUR CONVENIENCE IS THE STATEMENT OF BENEFICIAL USE FORM THAT MUST BE SUBMITTED WHEN YOUR PROJECT IS COMPLETED.

SINCERELY,

Re: Water Right No. 63-10503

Dear Water Right Applicant:

Enclosed is a temporary approval for diversion of groundwater during the 1987 irrigation season.

The copy of the application for permit to appropriate water attached to the interim approval defines the various components of your temporary approval. The inclusion of the copy of the application is only for the purpose of definition, and any terms contained therein are limited by the conditions of the temporary approval.

As described in condition of approval (k), this office will continue to process the original application for permit, pursuant to Chapter 2, Title 42, Idaho Code, unless directed otherwise by you. This processing will include advertisement for two weeks in the county where the point of diversion is located, and the result may be issuance of a water right permit.

Sincerely,

DAVID R. TUTHILL, JR., P. E.
Manager, Western Regional Office

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES
WITH RESPECT TO TEMPORARY APPROVAL OF
APPLICATION FOR PERMIT NO. 63-10503

This is to certify that I have examined Application for Permit to
Appropriate the public waters of the State of Idaho No. 63-10503 and a
temporary approval to divert groundwater is granted until November 23, 1987
subject to the following limitations and conditions:

- a. The water use approved herein is subject to all prior water rights.
- b. The water user acknowledges that the temporary approval does not convey a continuing right to divert water and does not convey any right to divert water except as specifically provided in the temporary approval.
- c. The water user assumes all risk that he or she will be successful in obtaining a permanent water right permit when the application is processed under the provisions of Chapter 2, Title 42, Idaho Code and the water Appropriation Rules and Regulations.
- d. Violation of temporary approval conditions, provisions of the Idaho Code, or the Water Appropriation Rules and Regulations is cause for cancellation of the temporary approval and denial of future requests.
- e. By commencing diversion of water under this temporary approval, the water user acknowledges and agrees that the Director of IDWR is authorized to disconnect the power supply from the pump motor used to divert water under the temporary approval or to take other reasonable steps to insure that water is not diverted during any period the temporary approval is suspended or revoked.
- f. The Director may impose additional conditions not a part of the original temporary approval conditions.
- g. The temporary approval applies only to uses and lands which normally have an adequate supply of water from surface water sources but are temporarily water short because of drought conditions.
- h. The temporary approval granted under the expedited procedure shall not be effective for more than the 1987 irrigation season and will terminate upon termination of the declared drought emergency, or on the expiration of the term of the approval set herein, whichever is earlier. **RECEIVED**
OCT 09 1987
- i. The Director will retain jurisdiction of any temporary approval given.
- j. By acceptance of the temporary approval and diversion of water under the temporary approval, the water user assumes all risk relative to interference with other water rights and acknowledges and agrees that the Director is authorized to take reasonable steps to insure that water is not diverted under the approval at any time the Director determines there is not water available for diversion.

- k. Temporary approval granted will be of no force nor effect from and after the 1987 irrigation season. The application for permit, however, will be processed by the Department under the provisions of Chapter 2, Title 42, Idaho Code, unless directed otherwise by the applicant.

Witness my hand this 27th day of July, 1987.

Dear Mr. Aarland:

I would like to apologize for my delay in corresponding with you. Due to the onset of our summer field season I've been quite busy, and I've finally found time to address Rodco's water right situation.

After discussing this matter with Dave Tuthill (Western Region Supervisor), we contacted the Canyon County Assessor's office and determined that Rodco, Inc. has owned portions of the SWSE and SESE of Sec. 20 since 1970, and Greenleaf Farms, Inc. has owned portions of the SWSW and SESW of Sec. 21 since 1955. However, examination of the Canyon County Irrigated Cropland map prepared by the Idaho Department of Water Resources indicates that in 1975 the SWSE of Sec. 20 was not irrigated by groundwater. This information corresponds with Water Right Claim No. 63-4460 submitted by Greenleaf Farms, Inc. in 1977. I have enclosed a photocopy of this map indicating the lands under consideration.

Based on this information, there are two options available. These are:

1. Submit an amended Claim No. 63-4460 to include the SESE Sec. 20, showing a priority date of September, 1951. Then, a transfer of this claim could be applied for to include the proposed second well. However, based on the information presented above, the Department would carefully review such a transfer application, and Rodco, Inc. would be required to present evidence that the SESE of Sec. 20 has been irrigated with groundwater since 1951.

2. Submit an Application for Permit for the SESE Sec. 20 showing both the proposed new well and the old well as points of diversion. This, when combined with a transfer of Claim No. 63-4460 to add the new well as a point of diversion, would enable both wells to be used to irrigate the lands owned by Greenleaf Farms and Rodco.

If sufficient evidence can be presented, Option 1 would of course be the preferred choice since the 1951 priority date would be maintained for all of the lands.

I have enclosed forms as well as a photocopy of your original application for permit. Please feel free to contact this office if you have any questions.

Sincerely,

Brad E. Dingee
