TO: File 63-10456

FROM: Rita I. Fleck 

Re: Reinstatement Order

The permit lapsed as of August 1, 1988. The lapse notice was sent on August 12, 1988. On September 2, 1988, a proof of beneficial use form was sent to the regional office. It was not acceptable because the licensing examination fee did not accompany the proof.

The proof sat in the region until it was sent to the state office on October 4, 1988. On October 17, 1988, Jodi sent a letter requesting the filing fee. The fee was received and receipted in the region on October 24, 1988.

There is one concern regarding this permit. The water right staff has noticed a defect in the lapse notice letter where a line of text is missing. The information missing discusses the need to return any action document within 60 days. For this reason, the permit should be reinstated with an advance in priority the number of days the proof is late, under the provisions of 42-218a, I.C.

RE: Permit No. 63-10456

Dear Ms. Fleck:

We have received your letter dated November 7, 1988 concerning water permit No. 63-10456. Review of the subject file indicates that the well was drilled from 05/27/87 to 06/12/87 and is prior to the July 1, 1987 date when well drilling permits were first required with the \$100 filing fee. You should also note that the priority date for the permit is 05/06/87.

As you have requested, we have enclosed is a copy of the well driller's report. Section 10 of the report verifies the dates of drilling.

We hope that the information is sufficient to reinstate our permit. If you have any questions, please contact Monte McClendon at 334-1582.

Sincerely yours,

Gene L. Schloemer  
Associate District Manager

RE: Permit No. 63-10456

Dear Permit Holder:

The department has reviewed the proof of beneficial use (proof) which you submitted in connection with the above referenced permit. A review of the file does not show that you applied for a drilling permit (which is a separate requirement from the water right permit).

A drilling permit is required for all wells drilled, deepened or enlarged after July 1, 1987 (Section 42-235, Idaho Code). As a condition of the water right permit, you need to submit a completed drilling permit form together with a drilling permit fee in the amount of \$100 made payable to the Idaho Department of Water Resources. Enclosed is a form for your use.

Also, the department does not have a copy of the well log. If you have a well driller's report, please send a copy to the department.

Please provide the appropriate information by December 7, 1988 to have your permit reinstated.

If you have any questions, feel free to contact this office.

Sincerely,

RITA I. FLECK  
Secretary/Records Manager

RE: PERMIT 63-10456 - LICENSE EXAMINATION FEE

Gentlemen:

The department has received the proof of beneficial use submitted in connection with the above referenced permit. As the proof was submitted, a license examination fee in the amount of \$50 needs to be submitted as explained below. (Re: Section 42-217 and 42-221, Idaho Code).

The submittal of a license examination fee is not required for the following:

- a) Single family domestic use for which a permit is not required.
- b) Stockwatering.
- c) Other small uses which do not exceed a rate of diversion of 0.04 cfs or 4 AF/year.

Most of the proof submittals of the BLM in the past are in connection with stockwater and do not require a license examination fee. The fee is applicable to this permit, however, unless the BLM wants to submit the proof for 0.04 cfs (18 gallons per minute) instead of for 0.05 cfs (22.4 gallons per minute).

Please either submit the \$50 license examination fee or advise the department you wish to submit the proof for 0.04 cfs instead of 0.05 cfs at your earliest convenience.

Sincerely,

JODI I. SCHULTZ  
Clerical Assistant

LAPSE NOTICE

RE: PERMIT NO. 63-10456

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced water permit has lapsed. This office did not receive either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time. You were provided the proper form in our proof due notice to you dated July 31, 1988.

Your permit cannot be reinstated unless you submit proof of beneficial use or submit an extension of time request showing reasonable cause for delay. Either the completed proof of beneficial use submittal (including the examination fee or a completed field examination report) or the extension request form together with the \$15 fee must be received by this lapse notice or the permit will no longer be of any force of effect.

A proof of beneficial use form and a request for extension of time form are again enclosed for your use. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a governmental agency or by litigation which might bring title to the water in question.

PROOF DUE NOTICE

RE: Permit No. 63-10456

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before August 1, 1988. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this Department on or before the above described proof due date, or the permit will no longer be of any force nor effect.

Sincerely,

RITA FLECK  
Secretary/Records Manager
