WATER RIGHT LICENSE

WATER RIGHT NO. 63-10436

Priority: April 22, 1987

Maximum Diversion Rate: 1.10 CFS
Maximum Diversion Volume:¹ 247.5 AF

This is to certify, that RICHARD L. REINEKE
JANICE I. REINEKE

RT. 1 BOX 125

MELBA, ID 836410000

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated April 22, 1987; and has submitted Proof of Beneficial Use on July 18, 1988. An examination indicates that the works have a diversion capacity of 1.250 cfs of water from a GROUNDWATER source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	03/15 to 11/15	1.10 CFS	247.5 AF

LOCATION OF POINT(S) OF DIVERSION:

SWNW , Sec. 34, Township 01N, Range 02W
CANYON County

PLACE OF USE: IRRIGATION

<u>TWN</u>	<u>RGE</u>	<u>SEC</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>TOTAL</u>
01N	02W	34	SWNW 27	SESW 26	NWSW 2	55
Total number of acres irrigated:						55

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 4.5 afa per acre for the lands above.

WATER RIGHT LICENSE

WATER RIGHT NO. 63-10436

This license is issued pursuant to the provisions of Section 42-219, Idaho Code.
Witness the seal and signature of the Director, affixed at Boise, this 12TH
day of DECEMBER, 1990.

R. Keith Higginson, Director

BEFORE THE DEPARTMENT OF WATER RESOURCES

STATE OF IDAHO

IN THE MATTER OF WATER RIGHT	)	
PERMITS NOS. 63-10435 AND 63-10436	)	
IN THE NAME OF RICHARD L. AND/OR	)	ORDER REINSTATING PERMITS
JANICE I. REINEKE	)	

This matter having come before the Department of Water Resources (Department) as a result of a request by the permit holders, the Department finds, concludes and orders as follows:

FINDINGS OF FACT

1. Water right Permit No. 63-10435 was issued by the Department on June 24, 1987, with a condition of approval that proof of construction of works and application of water to beneficial use was required to be submitted on or before July 1, 1988. The permit was mailed to the permit holders, Richard L. and/or Janice I. Reineke, on June 26, 1987.

2. Water right Permit No. 63-10436 was issued by the Department on July 20, 1987, with a condition of approval that proof of construction of works and application of water to beneficial use was required to be submitted on or before August 1, 1988. The permit was mailed to the permit holders, Richard L. and/or Janice I. Reineke, on July 24, 1988.

3. On April 30, 1988, the Department sent to the permit holders a proof due notice for Permit No. 63-10435. On May 31, 1988, the Department sent to the permit holders a proof due notice for Permit No. 63-10436.

4. On July 1, 1988, Permit No. 63-10435 began to lapse and on July 11, 1988, the Department sent a lapse notice to the permit holders.

5. On July 18, 1988, Richard L. Reineke visited the Western Regional Office of the Department and submitted Proof of Beneficial Use forms for both of the above-identified permits. Each of the forms indicated that the exams were intended to be conducted by Sherl Chapman, a certified water right examiner. The individual who assisted Mr. Reineke failed to mention that when the examination is to be made by a private certified examiner, the examination must accompany the proof when it is submitted.

6. On November 7, 1988, the Department sent a letter to the permit holders describing that the field examination should be completed and submitted as soon as possible and that the date of priority for Permit No. 63-10435 would be advanced one day for each day the report was submitted after July 1, 1988.

7. During November 1988, Richard Reineke visited the Western Regional office to express a concern about the potential loss of priority for his permits and indicated that if he had known about the timing requirement for the

ORDER REINSTATING PERMITS -- 1

MICROFILMED

AUG 29 1990

examination, he would have paid the examination fee to prevent these permits from lapsing.

8. The Department reviewed the Reineke matter and suggested to him that payment of the examination fees would result in reconsideration of the lapsing of priority dates. Consequently, on January 17, 1989, the Department received the examination fees for both of the permits from the permit holders.

CONCLUSIONS OF LAW

1. Section 42-217, Idaho Code, provides that a permit for which proof of beneficial use has not been submitted on or before the date set for such proof shall lapse, provided that upon a showing of reasonable cause the Department may reinstate the permit with the priority date advanced a time equal to the number of days that said showing is subsequent to the date set for proof.

2. The permit holders demonstrated sufficient showing of reasonable cause for reinstating Permit No. 63-10435 when visiting the offices of the Department on July 18, 1988.

3. The dates of priority of the permits should not be delayed due to failure of the Department to provide proper advice during a visit to the offices of the Department.

4. The permit holder has complied with all requirements for submittal of proof of beneficial use for Permits Nos. 63-10435 and 63-10436.

ORDER

IT IS HEREBY ORDERED that Permit No. 63-10435 is REINSTATED with date of priority advanced by 17 days, from April 22, 1987 to May 9, 1987.

IT IS FURTHER ORDERED that the proof of beneficial use for Permit No. 63-10436 is considered to have been timely submitted and that the priority should not be advanced.

Dated this 5th day of July, 1989.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 63-10436, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before August 1, 19 88.
- c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.
- d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.
- e. Other: Prior to the diversion of water under this permit a flow measurement port or other device as specified by the Department shall be installed to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department.

If construction of the well under this permit was not initiated prior to July 1, 1987, commencement of well construction or diversion of water under this permit is prohibited unless a drilling permit is obtained from the Department.

Witness my hand this 20th day of July, 1987.

Dear Mr. and Mrs. Reineke:

Re: Permit No. 63-10435 and 63-10436

Enclosed is a copy of the order reinstating the above referenced permits.

The next step is for the department to conduct the field inspection and determine the extent of beneficial use. I cannot tell you just when this inspection will take place, but the field examiner will contact you to schedule a convenient time.

If you have any questions concerning this matter, please feel free to contact this office.

Sincerely,

RITA I. FLECK

MEMORANDUM

To: File 63-10435 and 63-10436 ✓
From: L. Glen Saxton
RE: PROOF SUBMITTAL CONSIDERATION
Date: January 3, 1989

Dave Tuthill called me today in connection with the proof submittal for the above referenced permits. Dave had recently visited with the permit holder who was concerned about loss of priority.

Dave advised me that when personnel in his office received the proofs, the permit holder was not advised that either the license examination fee or the completed field exam had to accompany the proof affidavits.

I reviewed the contents of the two files and determined that state office correspondence was not as timely as it could have been and would appear to unfairly contribute to the number of days the priority would be advanced.

If the permit holder will soon submit the license examination fee, it appears equitable that the department should issue an order advancing the priority of permit 63-10435 only from July 1, 1988 to July 18, 1988. The priority of permit 63-10436 would not be advanced.

Dave will contact the permit holder in connection with the license examination fees and will draft the suggested orders upon receipt of the license examination fees.

RE: Permit No. 63-10436

Dear Permit Holder:

The department has reviewed the proof of beneficial use (proof) which you submitted in connection with the above referenced permit. A review of the file does not show that you applied for a drilling permit (which is a separate requirement from the water right permit).

A drilling permit is required for all wells drilled, deepened or enlarged after July 1, 1987 (Section 42-235, Idaho Code). As a condition of the water right permit, you need to submit a completed drilling permit form together with a drilling permit fee in the amount of \$100 made payable to the Idaho Department of Water Resources. Enclosed is a form for your use.

Also, the department does not have a copy of the well log. If you have a well driller's report, please send a copy to the department.

Please provide the appropriate information by November 27, 1988 to keep your permit in good standing.

If you have any questions, feel free to contact this office.

Sincerely,

RITA I. FLECK
Secretary/Records Manager

PROOF DUE NOTICE

RE: Permit No. 63-10436

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before August 1, 1988. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this Department on or before the above described proof due date, or the permit will no longer be of any force nor effect.

Sincerely,

RITA FLECK
Secretary/Records Manager

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 63-10436

DEAR PERMIT HOLDER:

ENCLOSED IS A COPY OF YOUR APPROVED APPLICATION FOR PERMIT. WE DIRECT YOUR ATTENTION TO THE CONDITIONS OF APPROVAL ON THE FOURTH PAGE.

BE SURE TO NOTE THE SPECIAL CONDITION REQUIRING YOU TO INSTALL A MEASURING DEVICE, OR A FLOW MEASUREMENT PORT TO PROVIDE FOR THE INSTALLATION OF MEASURING EQUIPMENT BY THE DEPARTMENT. ENCLOSED PLEASE FIND A LIST OF MEASURING DEVICE OPTIONS, AND SPECIFICATIONS FOR THE INSTALLATION OF THE FLOW MEASUREMENT PORT.

A "DRILLING PERMIT" MUST BE OBTAINED FROM THE DEPARTMENT FOR ALL WELLS CONSTRUCTED AFTER JULY 1, 1987. A DRILLING PERMIT IS A SEPARATE PERMIT THAT MUST BE ISSUED IN ADDITION TO YOUR PERMIT TO APPROPRIATE WATER. COMMENCEMENT OF WELL CONSTRUCTION OR DIVERSION OF WATER UNDER YOUR PERMIT TO APPROPRIATE WATER IS PROHIBITED UNLESS A DRILLING PERMIT IS OBTAINED.

WE HAVE ENCLOSED A FORM ENTITLED "INSTRUCTIONS FOR PROOF OF BENEFICIAL USE". PLEASE READ THE INSTRUCTIONS CAREFULLY SINCE YOU MUST TAKE FURTHER ACTION TO DEVELOP THIS PERMIT. ALSO ENCLOSED FOR YOUR CONVENIENCE IS THE STATEMENT OF BENEFICIAL USE FORM THAT MUST BE SUBMITTED WHEN YOUR PROJECT IS COMPLETED.

Re: Water Right No. 63-10436

Dear Water Right Applicant:

Enclosed is a temporary approval for diversion of groundwater during the 1987 irrigation season.

The copy of the application for permit to appropriate water attached to the interim approval defines the various components of your temporary approval. The inclusion of the copy of the application is only for the purpose of definition, and any terms contained therein are limited by the conditions of the temporary approval.

As described in condition of approval (k), this office will continue to process the original application for permit, pursuant to Chapter 2, Title 42, Idaho Code, unless directed otherwise by you. This processing will include advertisement for two weeks in the county where the point of diversion is located, and the result may be issuance of a water right permit.

Sincerely,

DAVID R. TUTHILL, JR., P. E.
Manager, Western Regional Office

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES
WITH RESPECT TO TEMPORARY APPROVAL OF
APPLICATION FOR PERMIT NO. 63-10436

This is to certify that I have examined Application for Permit to
Appropriate the public waters of the State of Idaho No. 63-10436 and a
temporary approval to divert groundwater is granted until August 20, 1987,
subject to the following limitations and conditions:

- a. The water use approved herein is subject to all prior water rights.
- b. The water user acknowledges that the temporary approval does not convey a continuing right to divert water and does not convey any right to divert water except as specifically provided in the temporary approval.
- c. The water user assumes all risk that he or she will be successful in obtaining a permanent water right permit when the application is processed under the provisions of Chapter 2, Title 42, Idaho Code and the water Appropriation Rules and Regulations.
- d. Violation of temporary approval conditions, provisions of the Idaho Code, or the Water Appropriation Rules and Regulations is cause for cancellation of the temporary approval and denial of future requests.
- e. By commencing diversion of water under this temporary approval, the water user acknowledges and agrees that the Director of IDWR is authorized to disconnect the power supply from the pump motor used to divert water under the temporary approval or to take other reasonable steps to insure that water is not diverted during any period the temporary approval is suspended or revoked.
- f. The Director may impose additional conditions not a part of the original temporary approval conditions.
- g. The temporary approval applies only to uses and lands which normally have an adequate supply of water from surface water sources but are temporarily water short because of drought conditions.
- h. The temporary approval granted under the expedited procedure shall not be effective for more than the 1987 irrigation season and will expire upon termination of the declared drought emergency, or on the expiration of the term of the approval set herein, whichever is earlier.
- i. The Director will retain jurisdiction of any temporary approval given.
- j. By acceptance of the temporary approval and diversion of water under the temporary approval, the water user assumes all risk relative to interference with other water rights and acknowledges and agrees that the Director is authorized to take reasonable steps to insure that water is not diverted under the approval at any time the Director determines there is not water available for diversion.

- k. Temporary approval granted will be of no force nor effect from and after the 1987 irrigation season. The application for permit, however, will be processed by the Department under the provisions of Chapter 2, Title 42, Idaho Code, unless directed otherwise by the applicant.

Witness my hand this 23rd day of April, 1987.

David R. Tuthill
