ESTIMATED TRAVEL TIME

Take Highway 45 South to Melba Rd
then turn east and travel for $\frac{1}{4}$ mile to
Hill Rd. where you will turn south - travel for another
 $\frac{1}{2}$ mi or so and stop at a green stucco house
on west side of road.

MICROFILMED

JAN 09 1991

PICTURE # 1

This picture shows the well and the pipeline leading to the measurement device. The weir location is near the pickup. The P/U is the land beyond the pickup both to the left and right. This picture is looking northwest.

PICTURE # 2

This picture is looking northwest and shows the weir the weir pond and the discharge from the pipeline. This picture also shows part of the cement ditch system used to deliver water to the P/U which is the ground just beyond the pickup.

RECEIVED
JUN 19 1963

PICTURE # 3

This picture, also taken at the measurement site shows the east portion of the P/U. The ground irrigated from this well extends to the bottom of the draw labeled end. It does not irrigate the fields on the far hillside. This picture is looking east.

RECEIVED

JAN 09 1991

State law requires that this report be filed with the Director, Department of Water Resources, within 30 days after the completion or abandonment of the well.

NOTICE OF CHANGE OF WATER RIGHT OWNERSHIP

Please print or type. Attach pages with additional information. Instructions are on the back of this page.
Incomplete forms will be returned.

1. Water Right No(s).: 63-10435 init A 63-20555 domestic Stock
Adjudication Claim No(s).: WR 0749 AJ 0749 NP
2. The following REQUIRED information must be submitted with this form:
 - A. A copy of the most recent DEED, TITLE POLICY, CONTRACT OF SALE or other legal document indicating your ownership of the property and water rights or claims in question, WITH ATTACHED LEGAL DESCRIPTION.
AND
 - B. FLAT OF PROPERTY or SURVEY MAP for parcel of ten acres or less. (These are usually attached to your deed or on file with the county.)
OR
 - C. For water rights or adjudication claims involving ten or more irrigated acres, a USDA Farm Service Agency AERIAL PHOTO with irrigated acres outlined and point(s) of diversion clearly marked.
3. Name and Address of Former Owner/Claimant Richard L. Raines - Janice L. Raines
539 Hill Rd Melba, ID 83641
4. New Owner/Claimant(s) Byron and Shelley Thusek Kevin and Rebekah Thusek
New Mailing Address 4619 S. Can-Ada
City, State and ZIP Code Melba ID 83641
New Telephone Number (208) 495-2005
5. Date you acquired the property 12/19/96
6. If you have acquired only a portion of the former owner's property, IDWR may need to split the water right(s) or adjudication claim(s). If this applies, describe in detail your portion of each water right or adjudication claim in the spaces below. If necessary, attach additional pages.
Number of acres you irrigate 96 Number and type of stock 50 Cattle
Diversion rate in CFS Stock .02 Domestic .04 Irrigation .740 Number of homes 1 Other uses _____
- If a water right or adjudication claim is being split and you are not sure how to identify your portion of the original right or claim, please contact the nearest IDWR office for assistance.
7. Signature of New Owner or Claimant(s) Byron Thusek
- (Corporations or other organizations must submit a list of directors and/or officers demonstrating authority to sign form.)
8. For Snake River Basin Adjudication Claims: Please attach a Notice of Appearance completed by your attorney, if you wish IDWR to correspond with him or her for all matters related to your claims..

Department of Water Resources

WATER RIGHT LICENSE

WATER RIGHT NO. 63-10435

Priority: May 9, 1987

Maximum Diversion Rate: 0.74 CFS
Maximum Diversion Volume:¹ 306.0 AF

This is to certify, that RICHARD L. REINEKE
JANICE I. REINEKE

RT. 1 BOX 125
MELBA, ID 836410000

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated April 22, 1987; and has submitted Proof of Beneficial Use on July 18, 1988. An examination indicates that the works have a diversion capacity of .740 cfs of water from a **GROUNDWATER** source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	03/15 to 11/15	0.74 CFS	306.0 AF

LOCATION OF POINT(S) OF DIVERSION: NENW , Sec. 18, Township 01S, Range 01W
ADA County

PLACE OF USE: IRRIGATION

<u>TWN</u>	<u>RGE</u>	<u>SEC</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>TOTAL</u>
01S	01W	18	NWNE 4	NENW 34	LOT 1(NWNW) 30	68
Total number of acres irrigated:						68

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 4.5 afa per acre for the lands above.

IN THE MATTER OF WATER RIGHT)
)
PERMITS NOS. 63-10435 AND 63-10436)
)
IN THE NAME OF RICHARD L. AND/OR)
)
JANICE I. REINEKE)
_____)

ORDER REINSTATING PERMITS

This matter having come before the Department of Water Resources (Department) as a result of a request by the permit holders, the Department finds, concludes and orders as follows:

FINDINGS OF FACT

1. Water right Permit No. 63-10435 was issued by the Department on June 24, 1987, with a condition of approval that proof of construction of works and application of water to beneficial use was required to be submitted on or before July 1, 1988. The permit was mailed to the permit holders, Richard L. and/or Janice I. Reineke, on June 26, 1987.

2. Water right Permit No. 63-10436 was issued by the Department on July 20, 1987, with a condition of approval that proof of construction of works and application of water to beneficial use was required to be submitted on or before August 1, 1988. The permit was mailed to the permit holders, Richard L. and/or Janice I. Reineke, on July 24, 1988.

3. On April 30, 1988, the Department sent to the permit holders a proof due notice for Permit No. 63-10435. On May 31, 1988, the Department sent to the permit holders a proof due notice for Permit No. 63-10436.

4. On July 1, 1988, Permit No. 63-10435 began to lapse and on July 11, 1988, the Department sent a lapse notice to the permit holders.

5. On July 18, 1988, Richard L. Reineke visited the Western Regional Office of the Department and submitted Proof of Beneficial Use forms for both of the above-identified permits. Each of the forms indicated that the exams were intended to be conducted by Sherl Chapman, a certified water right examiner. The individual who assisted Mr. Reineke failed to mention that when the examination is to be made by a private certified examiner, the examination must accompany the proof when it is submitted.

6. On November 7, 1988, the Department sent a letter to the permit holders describing that the field examination should be completed and submitted as soon as possible and that the date of priority for Permit No. 63-10435 would be advanced one day for each day the report was submitted after July 1, 1988.

7. During November 1988, Richard Reineke visited the Western Regional office to express a concern about the potential loss of priority for his permits and indicated that if he had known about the timing requirements of the

ORDER REINSTATING PERMITS -- 1

MICROFILMED

AUG 29 1989

examination, he would have paid the examination fee to prevent these permits from lapsing.

8. The Department reviewed the Reineke matter and suggested to him that payment of the examination fees would result in reconsideration of the lapsing of priority dates. Consequently, on January 17, 1989, the Department received the examination fees for both of the permits from the permit holders.

CONCLUSIONS OF LAW

1. Section 42-217, Idaho Code, provides that a permit for which proof of beneficial use has not been submitted on or before the date set for such proof shall lapse, provided that upon a showing of reasonable cause the Department may reinstate the permit with the priority date advanced a time equal to the number of days that said showing is subsequent to the date set for proof.

2. The permit holders demonstrated sufficient showing of reasonable cause for reinstating Permit No. 63-10435 when visiting the offices of the Department on July 18, 1988.

3. The dates of priority of the permits should not be delayed due to failure of the Department to provide proper advice during a visit to the offices of the Department.

4. The permit holder has complied with all requirements for submittal of proof of beneficial use for Permits Nos. 63-10435 and 63-10436.

ORDER

IT IS HEREBY ORDERED that Permit No. 63-10435 is REINSTATED with date of priority advanced by 17 days, from April 22, 1987 to May 9, 1987.

IT IS FURTHER ORDERED that the proof of beneficial use for Permit No. 63-10436 is considered to have been timely submitted and that the priority should not be advanced.

Dated this 5th day of July, 1989.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 63-10435, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before July 1, 19 88.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.

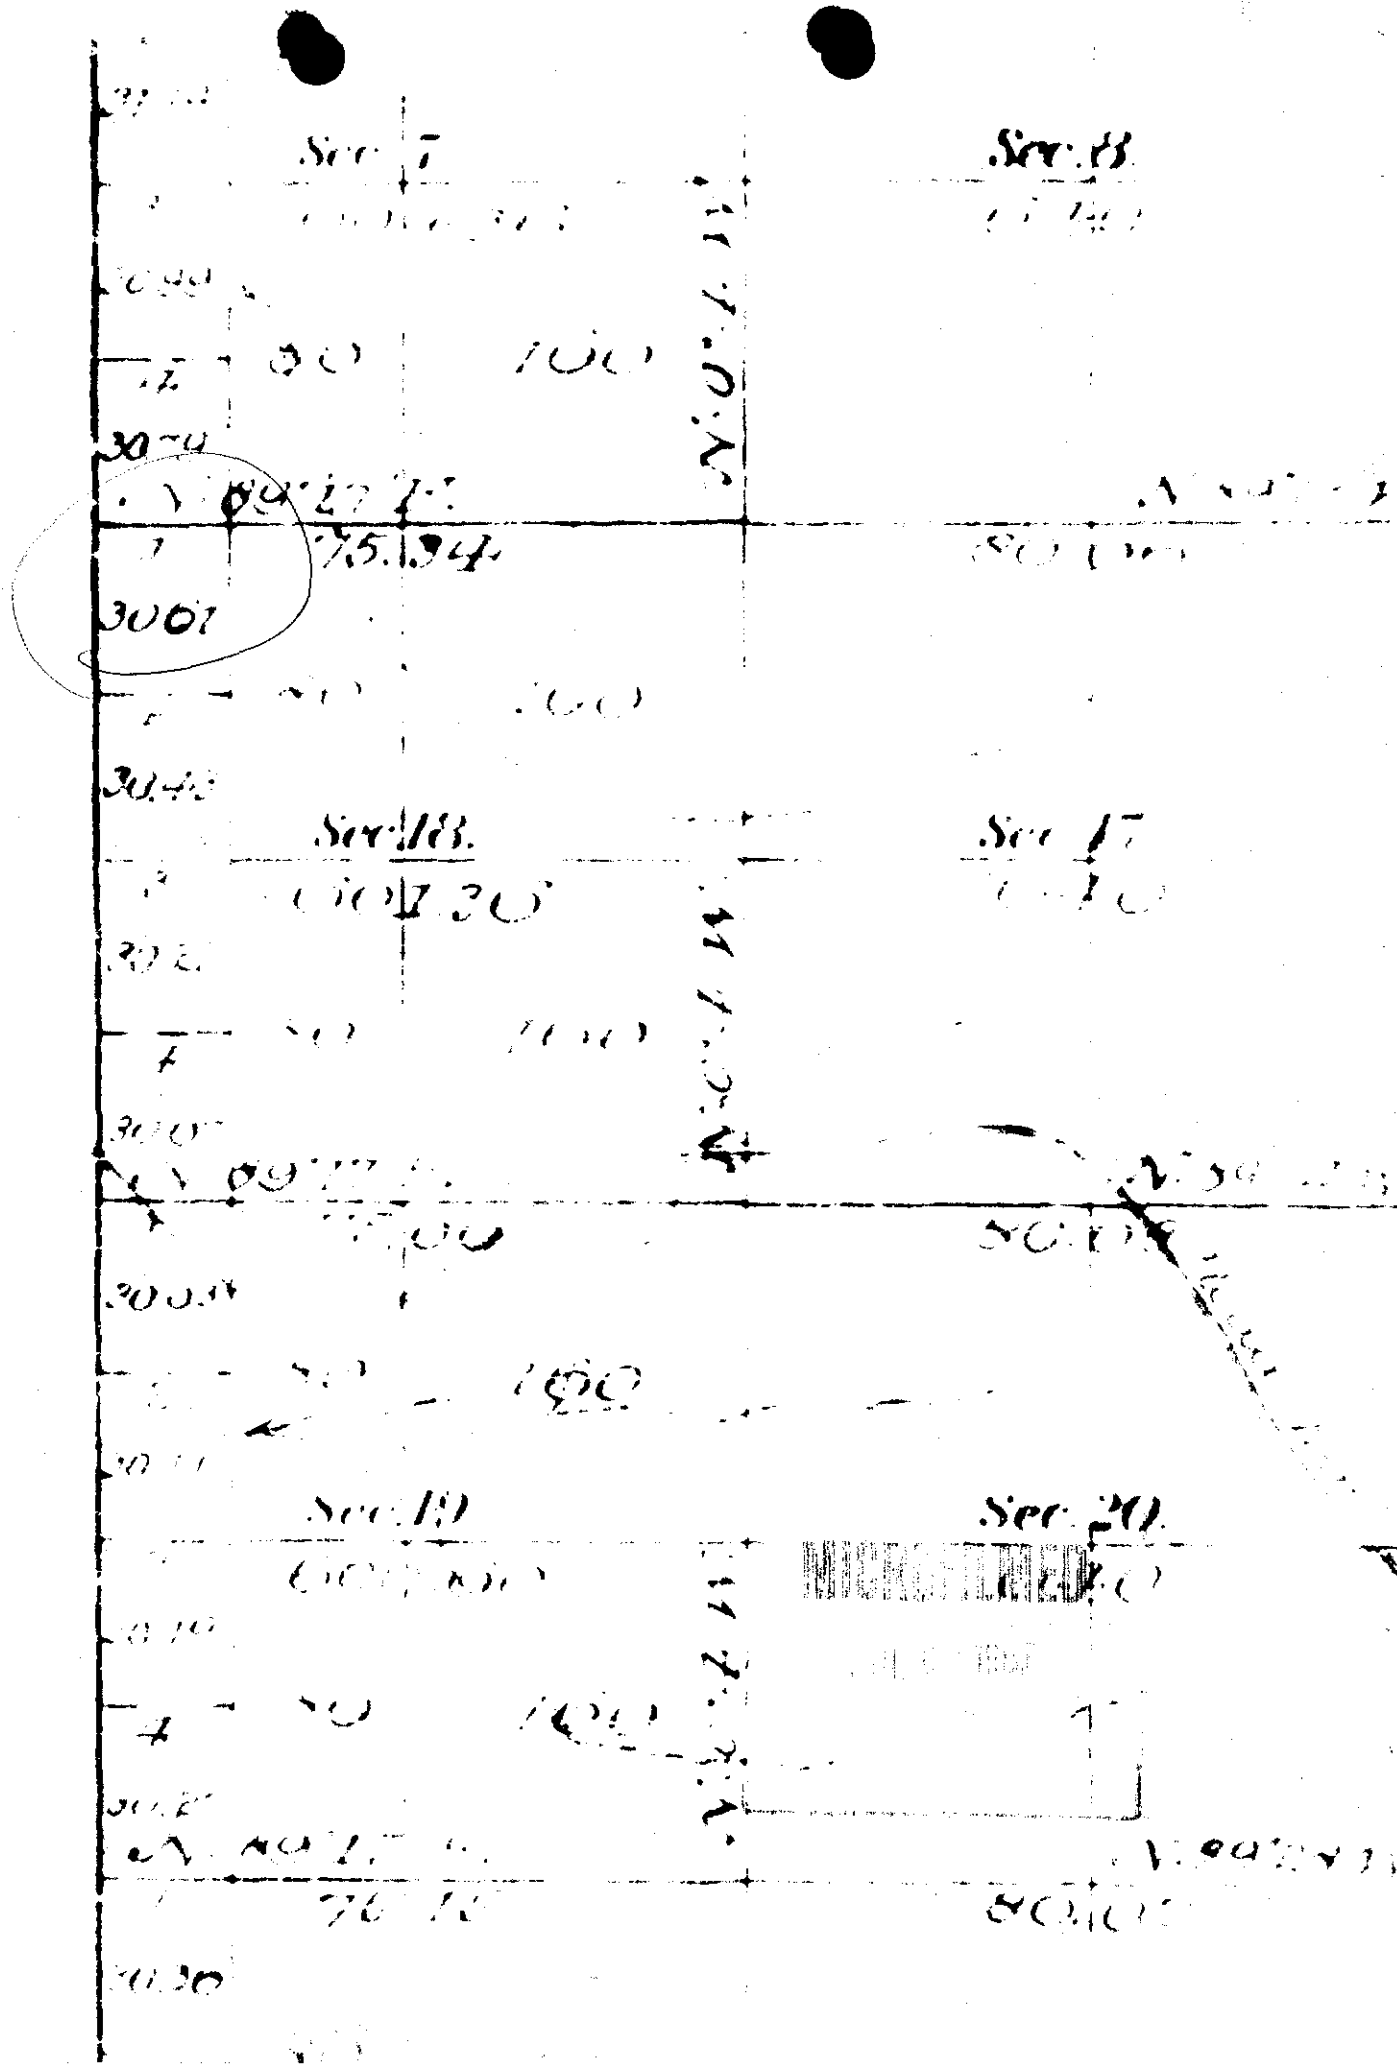

e. Other: Prior to the diversion of water under this permit a flow measurement port or other device as specified by the Department shall be installed to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department.

Witness my hand this 21st day of June, 1987.

RE: Water Right 63-10435

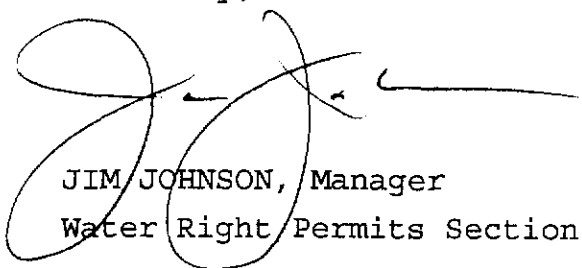

Dear Water Right Holder(s):

The Department is in receipt of the correspondence changing the ownership of the above referenced water right to you. We have modified our records to reflect this change in ownership and computer generated report is enclosed.

Just a reminder, because of a law that went into effect July 1, 1996, all water right owners are required to report change of address or ownership to the department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee to the water right owner. If you have other water rights that haven't had the ownership updated please contact the department as soon as possible.

If you have any questions regarding this matter, please feel free to contact me at (208) 327-7947.

Sincerely,

JIM JOHNSON, Manager
Water Right Permits Section

Permit Number 63-10435
 Fees Paid For 2.0 CFS Maximum
 Callers Name Richard Reinike
 Callers Phone 495-2463
 Employee Name K. Christensen

I. Determine all water uses:

A. Irrigation, determine size of system:

1. Number of acres ----- 1/0
 2. Or diversion rate ----- 1.30
 3. Source (ground water or surface) ----- GND

B. If a pumping system:

1. Does it require a measurement device? ----- YES
 2. If so is the system pressurized or open discharge -----
 3. Identify pipe diameter -----
 4. If pressurized:
 a. Identify approximate pressure. -----
 b. Identify measurement port location -----
 also size -----

5. If open discharge or surface water:

Is a weir available ----- WEIR
 or orifice plate and sight tube -----
 other type of measuring device -----

6. If timed volume is possible,
and if bucket or barrel measurement

5 gal in 1.5 sec. = 200 GPM, 0.45 CFS, 22.3 inches
 3 sec. = 100 GPM, 0.22 CFS, 11.1 inches
 30 gal in 3 sec. = 600 GPM, 1.34 CFS, 66.8 inches
 10 sec. = 180 GPM, 0.40 CFS, 20.1 inches
 55 gal in 10 sec. = 330 GPM, 0.74 CFS, 36.8 inches

Container size required -----

7. To section off an area of ditch

Can you determine ditch cross section
 area (generally only if ditch is cement)? -----
 is the ditch fairly level -----

C. What other uses are included?

1. Domestic use. NONE
 a. Indicate number of homes on system -----
 b. Size of yard -----
 2. Subdivision.
 a. Is the subdivision fully developed and/or
 the water system stubbed in to the lots? -----
 b. What is the subdivision name -----
 c. Is a plat available? -----

MEMORANDUM

To: File 63-10435 and 63-10436
From: L. Glen Saxton
RE: PROOF SUBMITTAL CONSIDERATION
Date: January 3, 1989

Dave Tuthill called me today in connection with the proof submittal for the above referenced permits. Dave had recently visited with the permit holder who was concerned about loss of priority.

Dave advised me that when personnel in his office received the proofs, the permit holder was not advised that either the license examination fee or the completed field exam had to accompany the proof affidavits.

I reviewed the contents of the two files and determined that state office correspondence was not as timely as it could have been and would appear to unfairly contribute to the number of days the priority would be advanced.

If the permit holder will soon submit the license examination fee, it appears equitable that the department should issue an order advancing the priority of permit 63-10435 only from July 1, 1988 to July 18, 1988. The priority of permit 63-10436 would not be advanced.

Dave will contact the permit holder in connection with the license examination fees and will draft the suggested orders upon receipt of the license examination fees.

MICROFILMED

November 7, 1988

Richard L. and/or Janice I. Reinke
Rt. 1 Box 125
Melba, ID 83641

Dear Mr. and Mrs. Reinke:

Re: Permit No. 63-10435

On July 14, 1988, the department sent you a lapse notice. The lapse notice stated that the permit would lapse if a proof of beneficial use form and fee or the proof of beneficial use form and completed field report were not received. The lapse notice did not inform you that your choice must be submitted within sixty days. That was an error of the notice.

In response to the notice, you returned the proof of beneficial use form without a fee and stated that Sherl Chapman would be completing the field report. As part of the department's review, a letter requesting additional information was sent concerning the well construction and well driller's report. Our letter did not address the necessity to submit the field report as part of the proof of beneficial use requirement in a timely manner. (The proof submittal is not complete unless the proof and field report are submitted together).

In the review process, this file has now been brought to my attention. The lapse notice of July 11, 1988 is in error. It did not give you all of the information needed. The proof submittal is not complete and will not be complete until a field report is submitted, yet it is now the winter season. Department correspondence following the submittal of the proof of beneficial use form failed to notify you of the deficiency of the proof requirement. As a solution, the department will wait until April 1989 to send another lapse notice. At that point, you will have sixty days to submit the completed field report. However, the permit lapsed as of July 1, 1988 and will lose a day of priority for every day the proof and field report is late after that date. Returned is the proof form which should be resubmitted with the field report.

If you have any questions concerning this matter, please feel free to contact this office.

Sincerely,

RITA I. FLECK
Secretary/Records Manager

LAPSE NOTICE

RE: PERMIT NO. 63-10435

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced water permit has lapsed. This office did not receive either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time. You were provided the proper form in our proof due notice to you dated April 30, 1988.

Your permit cannot be reinstated unless you submit proof of beneficial use or submit an extension of time request showing reasonable cause for delay. Either the completed proof of beneficial use submittal (including the examination fee or a completed field examination report) or the extension request form together with the \$15 fee must be received by this lapse notice or the permit will no longer be of any force of effect.

*missing
some text.*

A proof of beneficial use form and a request for extension of time form are again enclosed for your use. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a governmental agency or by litigation which might bring title to the water in question.

PROOF DUE NOTICE

RE: Permit No. 63-10435

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before July 1, 1988. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this Department on or before the above described proof due date, or the permit will no longer be of any force nor effect.

Sincerely,

RITA FLECK
Secretary/Records Manager

Re: Water Right No. 63-10435

Dear Water Right Applicant:

Enclosed is a temporary approval for diversion of groundwater during the 1987 irrigation season.

The copy of the application for permit to appropriate water attached to the interim approval defines the various components of your temporary approval. The inclusion of the copy of the application is only for the purpose of definition, and any terms contained therein are limited by the conditions of the temporary approval.

As described in condition of approval (k), this office will continue to process the original application for permit, pursuant to Chapter 2, Title 42, Idaho Code, unless directed otherwise by you. This processing will include advertisement for two weeks in the county where the point of diversion is located, and the result may be issuance of a water right permit.

Sincerely,

DAVID R. TUTHILL, JR., P. E.
Manager, Western Regional Office

JUL 07 1987

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES
WITH RESPECT TO TEMPORARY APPROVAL OF
APPLICATION FOR PERMIT NO. 63-10435

This is to certify that I have examined Application for Permit to
Appropriate the public waters of the State of Idaho No. 63-10435 and a
temporary approval to divert groundwater is granted until August 20, 1987,
subject to the following limitations and conditions:

- a. The water use approved herein is subject to all prior water rights.
- b. The water user acknowledges that the temporary approval does not convey a continuing right to divert water and does not convey any right to divert water except as specifically provided in the temporary approval.
- c. The water user assumes all risk that he or she will be successful in obtaining a permanent water right permit when the application is processed under the provisions of Chapter 2, Title 42, Idaho Code and the water Appropriation Rules and Regulations.
- d. Violation of temporary approval conditions, provisions of the Idaho Code, or the Water Appropriation Rules and Regulations is cause for cancellation of the temporary approval and denial of future requests.
- e. By commencing diversion of water under this temporary approval, the water user acknowledges and agrees that the Director of IDWR is authorized to disconnect the power supply from the pump motor used to divert water under the temporary approval or to take other reasonable steps to insure that water is not diverted during any period the temporary approval is suspended or revoked.
- f. The Director may impose additional conditions not a part of the original temporary approval conditions.
- g. The temporary approval applies only to uses and lands which normally have an adequate supply of water from surface water sources but are temporarily water short because of drought conditions.
- h. The temporary approval granted under the expedited procedure shall not be effective for more than the 1987 irrigation season and will expire upon termination of the declared drought emergency, or on the expiration of the term of the approval set herein, whichever is earlier.
- i. The Director will retain jurisdiction of any temporary approval given.
- j. By acceptance of the temporary approval and diversion of water under the temporary approval, the water user assumes all risk relative to interference with other water rights and acknowledges and agrees that the Director is authorized to take reasonable steps to insure that water is not diverted under the approval at any time the Director determines there is not water available for diversion.

MICROFILMED

JUL 07 1987

- k. Temporary approval granted will be of no force nor effect from and after the 1987 irrigation season. The application for permit, however, will be processed by the Department under the provisions of Chapter 2, Title 42, Idaho Code, unless directed otherwise by the applicant.

Witness my hand this 23rd day of April, 1987.
