Dear Mr. and Mrs. Best:

RE: Permit No. 63-10430

Enclosed is a copy of the denied request for extension of time which you submitted to the department in connection with the above referenced permit. Section 42-204, Idaho Code, provides that the department can only grant one extension of time. Please note that the department has previously granted an extension of time in connection with this permit.

I suggest that you file the enclosed proof of beneficial use form for that portion of the development completed. Then, you can file a new application within one year of the time you actually intend to develop the remainder of the water right. Since Idaho is now under a mandatory permit procedure to develop a water right, the new application will provide an additional period of time for development, although the priority date will be later in time.

Please feel free to contact any of our regional offices if you wish assistance in completion of the new application.

Sincerely,

L. GLEN SAXTON
Chief, Water Allocation Bureau

PROOF DUE NOTICE

RE: PERMIT NO. 63-10430

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before September 1, 1991. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

Dear Sharon:

Enclosed is a copy of the original notice for the above-referenced applications and the affidavit of publication received by our office. Note that there is a discrepancy in the two notices.

Also, 63-10412 was listed as a total of 125 acres, whereas, the actual acres irrigated was 129. On 63-10425, one point of diversion was left off. It should read as NWSE, NESE, Sec. 28, T 03N., R 01N. The protest date on this list should read July 20, 1987.

So sorry to have to bother you with this and bring it to your attention after all your good service to us!
