WATER RIGHT LICENSE

WATER RIGHT NO. 63-10422

Priority: April 15, 1987

Maximum Diversion Rate: 0.45 CFS
Maximum Diversion Volume:¹ 153.0 AF

This is to certify, that WESLEY SCHOBBER

422 W. LOCUST

NAMPA, ID 836510000

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated April 15, 1987; and has submitted Proof of Beneficial Use on August 1, 1988. An examination indicates that the works have a diversion capacity of .450 cfs of water from a **GROUNDWATER** source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	03/15 to 11/15	0.45 CFS	153.0 AF

LOCATION OF POINT(S) OF DIVERSION:

SWSE , Sec. 4, Township 02N, Range 02W
CANYON County

PLACE OF USE: IRRIGATION

<u>TWN</u>	<u>RGE</u>	<u>SEC</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>TOTAL</u>
02N	02W	4	SWSE 3	SESE 31		34
Total number of acres irrigated:						34

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 4.5 afa per acre for the lands above.

BEFORE THE DEPARTMENT OF WATER RESOURCES

OF THE

STATE OF IDAHO

IN THE MATTER OF PERMIT NO. 63-10422)
IN THE NAME OF WESLEY SCHOBOR)
_____)

ORDER

WHEREAS, on July 23, 1987, the Department of Water Resources issued Permit No. 63-10422 with a condition of approval which states:

Prior to the diversion of water under this permit a flow measurement port or other device as specified by the Department shall be installed to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department;

and,

WHEREAS, the Department of Water Resources has determined that the installation of a flow measurement port is not required at this time;

NOW, THEREFORE, IT IS ORDERED that the condition of approval requiring installation of a flow measurement port on Permit No. 63-10422 be REMOVED.

Dated this 10th day of August, 1988.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 63-10422, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before August 1, 19 88.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.

e. Other: If construction of the well under this permit was not initiated prior to July 1, 1987, commencement of well construction or diversion of water under this permit is prohibited unless a drilling permit is obtained from the Department.

Prior to the diversion of water under this permit a flow measurement port or other device as specified by the Department shall be installed to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department.

Witness my hand this 23rd day of July, 1987.

PROOF DUE NOTICE

RE: Permit No. 63-10422

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before August 1, 1988. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this Department on or before the above described proof due date, or the permit will no longer be of any force nor effect.

Sincerely,

RITA FLECK
Secretary/Records Manager

ACTION OF IDWR

(☒) Approved () Denied

63-88-2-31

The approval of this permit authorizes the construction of a well as described on this application subject to the conditions on this permit.

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from its date of issuance for the start of construction and is valid for one (1) year from the date of issuance for completion of the well unless an extension has been granted.
3. The permit holder or his representative shall notify the Department ten (10) days prior to the start of construction unless good cause for later notification can be shown.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Issuance of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.

SPECIFIC CONDITIONS:

Dated this 31st day of March, 1988.

WELL DRILLER'S REPORT

State law requires that this report be filed with the Director, Department of Water Resources within 30 days after the completion or abandonment of the well.

FEB 26 1988

[illegible]

legislature deems it essential, therefore, that water projects designed to advance this policy be given maximum support. The legislature finds that the pilot project to recharge ground water basins in the vicinity of St. Anthony and Rexburg, Idaho, has enhanced the full realization of our water resource potential by furthering water conservation and increasing the water available for beneficial use. In view of the demonstrated feasibility of the project and in recognition of the benefits to be derived from its continuation and expansion, the legislature deems it in the public interest that this project be continued and expansions of this project be encouraged.

The legislature hereby declares that the appropriation and underground storage of water for purposes of ground water recharge in the vicinity of St. Anthony and Rexburg, Idaho shall constitute a beneficial use and hereby authorizes the department of water resources to issue to the authorities responsible for the implementation and expansion of this recharge project a permit for the appropriation and underground storage of unappropriated waters in the area of recharge. Any right so granted shall be subject to depletion for surface storage or direct uses after a period of years sufficient to amortize the investment of the appropriator. [I.C., § 42-234, as added by 1978, ch. 366, § 1, p. 955.]

Compiler's notes. Section 2 of S.L. 1978, ch. 366 is compiled as § 42-233a.

42-235. Drilling permits. — Prior to constructing or drilling any well, an owner shall obtain a permit from the director of the department of water resources, to protect the public health, safety and welfare and the environment and to prevent the waste or mixture of any water from a well. There shall be a ten dollar (\$10.00) charge for the permit if the well is to be used for domestic or monitoring purposes. If the well is to be used for other than domestic or monitoring purposes, the charge for the permit shall be one hundred dollars (\$100). All moneys received pursuant to this section shall be credited to the water administration account. The director may provide a blanket drilling permit for site specific monitoring programs which will determine the quality, quantity, temperature, pressure or other attributes of aquifers. The application for a blanket permit shall be submitted by a licensed engineer or licensed geologist and shall describe the overall drilling program and all relevant technical features of the wells to the satisfaction of the director. Progress reports, completion and other data may be required as provided by rule and regulation. The fee for the blanket permit shall be fifty dollars (\$50.00). A person violating any provision of this section shall be guilty of a misdemeanor. [I.C., § 42-235, as added by 1987, ch. 347, § 4, p. 741.]

Compiler's notes. Section 3 of S.L. 1987, ch. 347 is compiled as § 42-233, and § 5 is compiled as § 42-237a.

RE: Drilling Permit for 63-10422

Dear Mr. Schober:

Mr. Charles Davis has submitted a well driller report for a well drilled for you in October 1987. Certain legal requirements must be met before this report is filed.

Beginning July of 1987, Section 42-235 of Idaho Code requires that a drilling permit and fee be submitted to the Department for all wells drilled. The fee for irrigation wells is \$100. Enclosed is a partially completed drilling permit application. Please complete and sign the form and return it to me with the appropriate fee.

Your water right permit indicates a point of diversion in the SW $\frac{1}{4}$ SE $\frac{1}{4}$ whereas the drillers report indicates the SE $\frac{1}{4}$ SE $\frac{1}{4}$. Which is correct? If the well is in the SE $\frac{1}{4}$ SE $\frac{1}{4}$, an amendment to 63-10422 is required.

If you have any questions or comments, please contact me.

Sincerely,

John E. Beal

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 63-10422

DEAR PERMIT HOLDER:

ENCLOSED IS A COPY OF YOUR APPROVED APPLICATION FOR PERMIT. WE DIRECT YOUR ATTENTION TO THE CONDITIONS OF APPROVAL ON THE FOURTH PAGE.

BE SURE TO NOTE THE SPECIAL CONDITION REQUIRING YOU TO INSTALL A MEASURING DEVICE, OR A FLOW MEASUREMENT PORT TO PROVIDE FOR THE INSTALLATION OF MEASURING EQUIPMENT BY THE DEPARTMENT. ENCLOSED PLEASE FIND A LIST OF MEASURING DEVICE OPTIONS, AND SPECIFICATIONS FOR THE INSTALLATION OF THE FLOW MEASUREMENT PORT.

YOU SHOULD BE AWARE THAT THE GROUNDWATER YOU PROPOSE TO DIVERT IS LOCATED WITHIN A DRAINAGE BASIN WHERE SURFACE WATERS ARE REGULATED DURING THE MONTHS OF LOW FLOW. IT IS POSSIBLE THAT DIVERSION OF GROUNDWATER MAY HAVE AN ADVERSE IMPACT ON THESE SURFACE WATER FLOWS. INFORMATION AVAILABLE TO US AT THIS TIME DOES NOT WARRANT REFUSING TO ISSUE PERMITS IN YOUR AREA, BUT WE DO CAUTION THAT DIVERSIONS OF GROUNDWATER ARE NOT ALLOWED TO DEplete FLOWS AVAILABLE FOR SURFACE WATER USERS WITH EARLIER PRIORITY DATES. SITING YOUR WELL AS FAR FROM SURFACE SOURCES AS POSSIBLE AND CASING OUT UPPER WATER PRODUCING ZONES MAY REDUCE THE POTENTIAL OF INTERFERENCE.

A "DRILLING PERMIT" MUST BE OBTAINED FROM THE DEPARTMENT FOR ALL WELLS CONSTRUCTED AFTER JULY 1, 1987. A DRILLING PERMIT IS A SEPARATE PERMIT THAT MUST BE ISSUED IN ADDITION TO YOUR PERMIT TO APPROPRIATE WATER. COMMENCEMENT OF WELL CONSTRUCTION OR DIVERSION OF WATER UNDER YOUR PERMIT TO APPROPRIATE WATER IS PROHIBITED UNLESS A DRILLING PERMIT IS OBTAINED.

MICROFILMED

AUG 21 1987

WE HAVE ENCLOSED A FORM ENTITLED "INSTRUCTIONS FOR PROOF OF BENEFICIAL USE". PLEASE READ THE INSTRUCTIONS CAREFULLY SINCE YOU MUST TAKE FURTHER ACTION TO DEVELOP THIS PERMIT. ALSO ENCLOSED FOR YOUR CONVENIENCE IS THE STATEMENT OF BENEFICIAL USE FORM THAT MUST BE SUBMITTED WHEN YOUR PROJECT IS COMPLETED.

Re: Water Right No. 63-10422

Dear Water Right Applicant:

Enclosed is a temporary approval for diversion of groundwater during the 1987 irrigation season.

The copy of the application for permit to appropriate water attached to the interim approval defines the various components of your temporary approval. The inclusion of the copy of the application is only for the purpose of definition, and any terms contained therein are limited by the conditions of the temporary approval.

As described in condition of approval (k), this office will continue to process the original application for permit, pursuant to Chapter 2, Title 42, Idaho Code, unless directed otherwise by you. This processing will include advertisement for two weeks in the county where the point of diversion is located, and the result may be issuance of a water right permit.

Sincerely,

DAVID R. TUTHILL, JR., P. E.
Manager, Western Regional Office

Enclosures: Temporary Approval
Copy of Application for Permit

MAILED

AUG 21 1987

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES
WITH RESPECT TO TEMPORARY APPROVAL OF
APPLICATION FOR PERMIT NO. 63-10422

This is to certify that I have examined Application for Permit to Appropriate the public waters of the State of Idaho No. 63-10422; and a temporary approval to divert groundwater is granted until August 20, 1987, subject to the following limitations and conditions:

- a. The water use approved herein is subject to all prior water rights.
- b. The water user acknowledges that the temporary approval does not convey a continuing right to divert water and does not convey any right to divert water except as specifically provided in the temporary approval.
- c. The water user assumes all risk that he or she will be successful in obtaining a permanent water right permit when the application is processed under the provisions of Chapter 2, Title 42, Idaho Code and the water Appropriation Rules and Regulations.
- d. Violation of temporary approval conditions, provisions of the Idaho Code, or the Water Appropriation Rules and Regulations is cause for cancellation of the temporary approval and denial of future requests.
- e. By commencing diversion of water under this temporary approval, the water user acknowledges and agrees that the Director of IDWR is authorized to disconnect the power supply from the pump motor used to divert water under the temporary approval or to take other reasonable steps to insure that water is not diverted during any period the temporary approval is suspended or revoked.
- f. The Director may impose additional conditions not a part of the original temporary approval conditions.
- g. The temporary approval applies only to uses and lands which normally have an adequate supply of water from surface water sources but are temporarily water short because of drought conditions.
- h. The temporary approval granted under the expedited procedure shall not be effective for more than the 1987 irrigation season and will expire upon termination of the declared drought emergency, or on the expiration of the term of the approval set herein, whichever is earlier.
- i. The Director will retain jurisdiction of any temporary approval given.
- j. By acceptance of the temporary approval and diversion of water under the temporary approval, the water user assumes all risk relative to interference with other water rights and acknowledges and agrees that the Director is authorized to take reasonable steps to insure that water is not diverted under the approval at any time the Director determines that is not water available for diversion.

AUG 21 1987

- k. Temporary approval granted will be of no force nor effect from and after the 1987 irrigation season. The application for permit, however, will be processed by the Department under the provisions of Chapter 2, Title 42, Idaho Code, unless directed otherwise by the applicant.

Witness my hand this 22nd day of April, 1987.
