CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right limited to the amount that can actually be beneficially use used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 4.5 afa per acre for the lands above.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 63-10400, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before June 1, 19 89.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.

e. Other: Permit holder shall commence the excavation or construction of diverting works within one year of the date this permit is issued and shall proceed diligently until the project is complete.

Prior to the diversion of water under this permit a flow measurement port or other device as specified by the Department shall be installed to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department.

Witness my hand this 19th day of May, 1987.

In helping with the Adj. claim for Pacific Press Publishing Assoc. I found the acres in Sec. 13 were added incorrectly. The acres should be 27 total w/26 in Sec. 13 rather than a 26 total + 25 in Sec. 13. The adj. claim reflects this correction in acres. Field examiner should be aware of this error also.

Re: Permit No. 63-10400

Dear Permit Holder:

Enclosed is a copy of the denied request for extension of time which you submitted to the department in connection with the above referenced permit. Section 42-204, Idaho Code, provides that the department can only grant one extension of time based on due diligence. Please note that the department has previously granted an extension of time in connection with this permit.

I suggest that you file the enclosed proof of beneficial use form for that portion of the development completed. If there has been no beneficial use of the water, I suggest you file a new application within one year of the time you actually intend to develop the water right. Since Idaho is now under a mandatory permit procedure to develop a water right, the new application will provide an additional period of time for development, although the priority date will be later in time.

If you have any questions or if we can be of any further assistance, please feel free to contact us or any of our regional offices.

Sincerely,

L. Glen Saxton

BENEFICIAL USE FOR A WATER RIGHT PERMIT

The Idaho Department of Water Resources will consider this form as a request that the permit holder(s) be granted an additional period of time in which to complete development of water right under the provisions of Section 42-204, Idaho Code.

Permit No. 63-10400

Name(s) of Permit Holder: Pacific Press Publishing Association

Mailing Address: PO Box 7000, Boise, ID 83707

Date Proof is Due June 1, 1992 Telephone No. 465-2500

Describe what work has been completed toward the development of this water right:
(This must be filled out! If no work has been completed, show "none".)

Well is in and working, lake level is being maintained year round, lake has been stocked,
irrigating approximately 13 acres, pipe laid around the lake

Costing \$ 29,660.00

The permit holder(s) has been unable to complete the remainder of the work for the following reasons:

More conservative budgeting for land improvements, reduction of personnel in the
grounds area. The drought in Idaho the past few years has made it appear more responsible
for us to delay further development until the water situation improves.

Permit holder(s) request an extension to June 1, 19 92.

FEE: \$15.00

PROOF DUE NOTICE

RE: PERMIT NO. 63-10400

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before June 1, 1992. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

Subject: Proof Due Notice on Permit #63-10400

Reference: Your letter dated March 31, 1989

Dear Rita,

Pacific Press has submitted two applications for permits to divert underground water. Application ID# 63-10400 was submitted on March 19, 1987 with a projected 5-year completion schedule. This is to include doubling of our irrigated land area. ~~Our installation program calls for completion of this work in early 1992.~~

Application ID# 63-10636 was a request for diversion to storage in our lake in order to compensate for seepage and evaporation. This application was submitted on May 25, 1987, with a 1-year completion deadline.

Please advise us if we are to submit a Proof of Beneficial use on application 63-10636. If not, what course do we take?

Thanks for your help.

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 63-10400

DEAR PERMIT HOLDER:

ENCLOSED IS A COPY OF YOUR APPROVED APPLICATION FOR PERMIT. WE DIRECT YOUR ATTENTION TO THE CONDITIONS OF APPROVAL ON THE FOURTH PAGE.

BE SURE TO NOTE THE SPECIAL CONDITION REQUIRING YOU TO INSTALL A MEASURING DEVICE, OR A FLOW MEASUREMENT PORT TO PROVIDE FOR THE INSTALLATION OF MEASURING EQUIPMENT BY THE DEPARTMENT. ENCLOSED PLEASE FIND A LIST OF MEASURING DEVICE OPTIONS, AND SPECIFICATIONS FOR THE INSTALLATION OF THE FLOW MEASUREMENT PORT.

YOU SHOULD BE AWARE THAT THE GROUNDWATER YOU PROPOSE TO DIVERT IS LOCATED WITHIN A DRAINAGE BASIN WHERE SURFACE WATERS ARE REGULATED DURING THE MONTHS OF LOW FLOW. IT IS POSSIBLE THAT DIVERSION OF GROUNDWATER MAY HAVE AN ADVERSE IMPACT ON THESE SURFACE WATER FLOWS. INFORMATION AVAILABLE TO US AT THIS TIME DOES NOT WARRANT REFUSING TO ISSUE PERMITS IN YOUR AREA, BUT WE DO CAUTION THAT DIVERSIONS OF GROUNDWATER ARE NOT ALLOWED TO DEplete FLOWS AVAILABLE FOR SURFACE WATER USERS WITH EARLIER PRIORITY DATES. SITING YOUR WELL AS FAR FROM SURFACE SOURCES AS POSSIBLE AND CASING OUT UPPER WATER PRODUCING ZONES MAY REDUCE THE POTENTIAL OF INTERFERENCE.

PLEASE NOTE THE REQUIREMENT THAT AS A PERMIT HOLDER YOU MUST COMMENCE THE EXCAVATION OR CONSTRUCTION OF DIVERTING WORKS WITHIN ONE YEAR OF THE DATE THE PERMIT WAS ISSUED, AND YOU MUST PROCEED DILIGENTLY UNTIL THE PROJECT IS COMPLETED. THE ENCLOSED BLUE CARD MUST BE COMPLETED AND RETURNED TO THIS OFFICE AS SOON AS YOU COMMENCE CONSTRUCTION, NO LATER THAN ONE YEAR FROM THE DATE THE PERMIT WAS APPROVED.

Re: Water Right No. 63-10400

Dear Water Right Applicant:

Enclosed is a temporary approval for diversion of groundwater during the 1987 irrigation season.

The copy of the application for permit to appropriate water attached to the interim approval defines the various components of your temporary approval. The inclusion of the copy of the application is only for the purpose of definition, and any terms contained therein are limited by the conditions of the temporary approval.

As described in condition of approval (k), this office will continue to process the original application for permit, pursuant to Chapter 2, Title 42, Idaho Code, unless directed otherwise by you. This processing will include advertisement for two weeks in the county where the point of diversion is located, and the result may be issuance of a water right permit.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES
WITH RESPECT TO TEMPORARY APPROVAL OF
APPLICATION FOR PERMIT NO. 63-10400

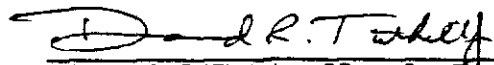

This is to certify that I have examined Application for Permit to
Appropriate the public waters of the State of Idaho No. 63-10400 and a
temporary approval to divert groundwater is granted until September 2, 1987,
subject to the following limitations and conditions:

- a. The water use approved herein is subject to all prior water rights.
- b. The water user acknowledges that the temporary approval does not convey a continuing right to divert water and does not convey any right to divert water except as specifically provided in the temporary approval.
- c. The water user assumes all risk that he or she will be successful in obtaining a permanent water right permit when the application is processed under the provisions of Chapter 2, Title 42, Idaho Code and the water Appropriation Rules and Regulations.
- d. Violation of temporary approval conditions, provisions of the Idaho Code, or the Water Appropriation Rules and Regulations is cause for cancellation of the temporary approval and denial of future requests.
- e. By commencing diversion of water under this temporary approval, the water user acknowledges and agrees that the Director of IDWR is authorized to disconnect the power supply from the pump motor used to divert water under the temporary approval or to take other reasonable steps to insure that water is not diverted during any period the temporary approval is suspended or revoked.
- f. The Director may impose additional conditions not a part of the original temporary approval conditions.
- g. The temporary approval applies only to uses and lands which normally have an adequate supply of water from surface water sources but are temporarily water short because of drought conditions.
- h. The temporary approval granted under the expedited procedure shall not be effective for more than the 1987 irrigation season and will expire upon termination of the declared drought emergency, or on the expiration of the term of the approval set herein, whichever is earlier.
- i. The Director will retain jurisdiction of any temporary approval given.
- j. By acceptance of the temporary approval and diversion of water under the temporary approval, the water user assumes all risk relative to interference with other water rights and acknowledges and agrees that the Director is authorized to take reasonable steps to insure that water is not diverted under the approval at any time the Director determines there is not water available for diversion.

JUL 07 1987

- k. Temporary approval granted will be of no force nor effect from and after the 1987 irrigation season. The application for permit, however, will be processed by the Department under the provisions of Chapter 2, Title 42, Idaho Code, unless directed otherwise by the applicant.

Witness my hand this 5th day of May, 1987.
