SUBJECT P/D Description

The source on this exam is spring(s) and since exam was conducted subsequent to the B/U Rules & Regulations (10/86), the p/d should have been described to nearest 10-acre tract. However, I spoke with Carter Fritschle (the examiner who handled this exam) and he stated that a 40-acre description was as close as he could get because this type of exam is written up from the permit and verified with USFS personnel. The 40-acre description is all FS personnel had also.

Therefore, the exam should be accepted and the license issued with the p/d identified to 40-acre tract. Returning the exam to the region would be of no value at this point.
