ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 63-10324, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before December 1, 19 90.
- c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.
- d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.
- e. Other: Permit holder shall commence the excavation or construction of diverting works within one year of the date this permit is issued and shall proceed diligently until the project is complete.
A measuring device and lockable controlling works of a type acceptable to the Department shall be permanently installed and maintained as part of the diverting works.
In the event that water used under this permit should be discharged into a natural channel, settling ponds will be required which are capable of reducing the silt load to such a level that the quality of the water would not be impaired for other beneficial uses.
Water used under this permit if discharged into a natural channel or subsurface system shall meet Idaho Water Quality Standards.
Use of water under this permit shall be non-consumptive.
The issuance of this permit in no way grants any right-of-way or easement across the land of another.
Use of water under this permit is subject to control by the watermaster of State Water District No. 63, Boise River.

Witness my hand this 4th day of December, 1985.

PROOF OF BENEFICIAL USE

For Office Use Only
Amt. of Fee \$ 100.00
Date 10/29/90
Receipt No. 2018708
Received by C. Wong

The Idaho Department of Water Resources will consider this form as a statement that the permit holder(s) has/have completed all development that will occur under this permit and that water has been applied according to the provisions of the permit for the beneficial use(s) described below. This form must be accompanied by a license examination fee or a completed field examination report prepared by a certified water right examiner who has been appointed by the department.

1. Permit No. 63-10324 Telephone No. 839-8265

2. Name(s) of Permit Holder(s): Clarence D. McReynolds, et al

3. Post Office Address: Box 161, Whitebird, ID 83554

4. Source of Water: Fall Creek

a. If ground water, well driller's name: _____ Date drilled: _____

b. Pump horsepower: _____ Pressure (psi): _____ Dynamic pumping level (ft.): _____

5. Extent of Use:

Domestic _____ (No. of households) Irrigation _____ (No. of acres)
Stockwater _____ (No. and type of stock) Other mining

6. Total rate and/or volume for which proof is submitted 1.00 cfs _____ acre/feet

7. Refer to the approval conditions on your permit and respond accordingly:

Measuring device: Required? Yes No Installed? Yes No
OR
Flow Measurement Port: Required? Yes No Installed? Yes No

There is no way to install a meas. device. We have a natural pond in the creek and we pump out of that. I request removal of this condition.

8. Fee Enclosed: \$ 100 (See License Examination Fee Schedule)

9. Person to contact to accompany the Department representative during the field examination:

same as above

Name

Telephone No.

Address

10. The above information is my true statement of the extent to which the above numbered permit has been developed and I relinquish any undeveloped portion of the permit to the state of Idaho.

PROOF DUE NOTICE

RE: PERMIT NO. 63-10324

Dear Permit Holder:

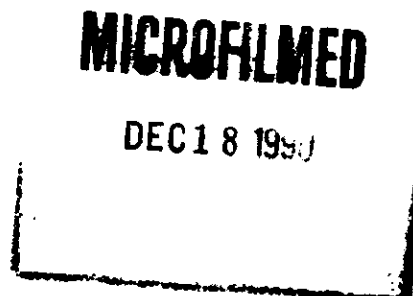

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before December 1, 1990. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 63-10324

DEAR PERMIT HOLDER:

ENCLOSED IS A COPY OF YOUR APPROVED APPLICATION FOR PERMIT. WE DIRECT YOUR ATTENTION TO THE CONDITIONS OF APPROVAL ON THE FOURTH PAGE.

BE SURE TO NOTE THE SPECIAL CONDITION REQUIRING YOU TO INSTALL A MEASURING DEVICE AND LOCKABLE CONTROLLING WORKS THAT WILL ENABLE THE WATERMASTER TO CONTROL YOUR RATE OF DIVERSION.

PLEASE NOTE THE REQUIREMENT THAT AS A PERMIT HOLDER YOU MUST COMMENCE THE EXCAVATION OR CONSTRUCTION OF DIVERTING WORKS WITHIN ONE YEAR OF THE DATE THE PERMIT WAS ISSUED, AND YOU MUST PROCEED DILIGENTLY UNTIL THE PROJECT IS COMPLETED. THE ENCLOSED BLUE CARD MUST BE COMPLETED AND RETURNED TO THIS OFFICE AS SOON AS YOU COMMENCE CONSTRUCTION, NO LATER THAN ONE YEAR FROM THE DATE THE PERMIT WAS APPROVED.

WE HAVE ENCLOSED A FORM ENTITLED "INSTRUCTIONS FOR PROOF OF BENEFICIAL USE". PLEASE READ THE INSTRUCTIONS CAREFULLY SINCE YOU MUST TAKE FURTHER ACTION TO DEVELOP THIS PERMIT INTO A LICENSE.

MEMORANDUM

TO: Water Right File No. 63-10324

FROM: Dave Tuthill *Dra*

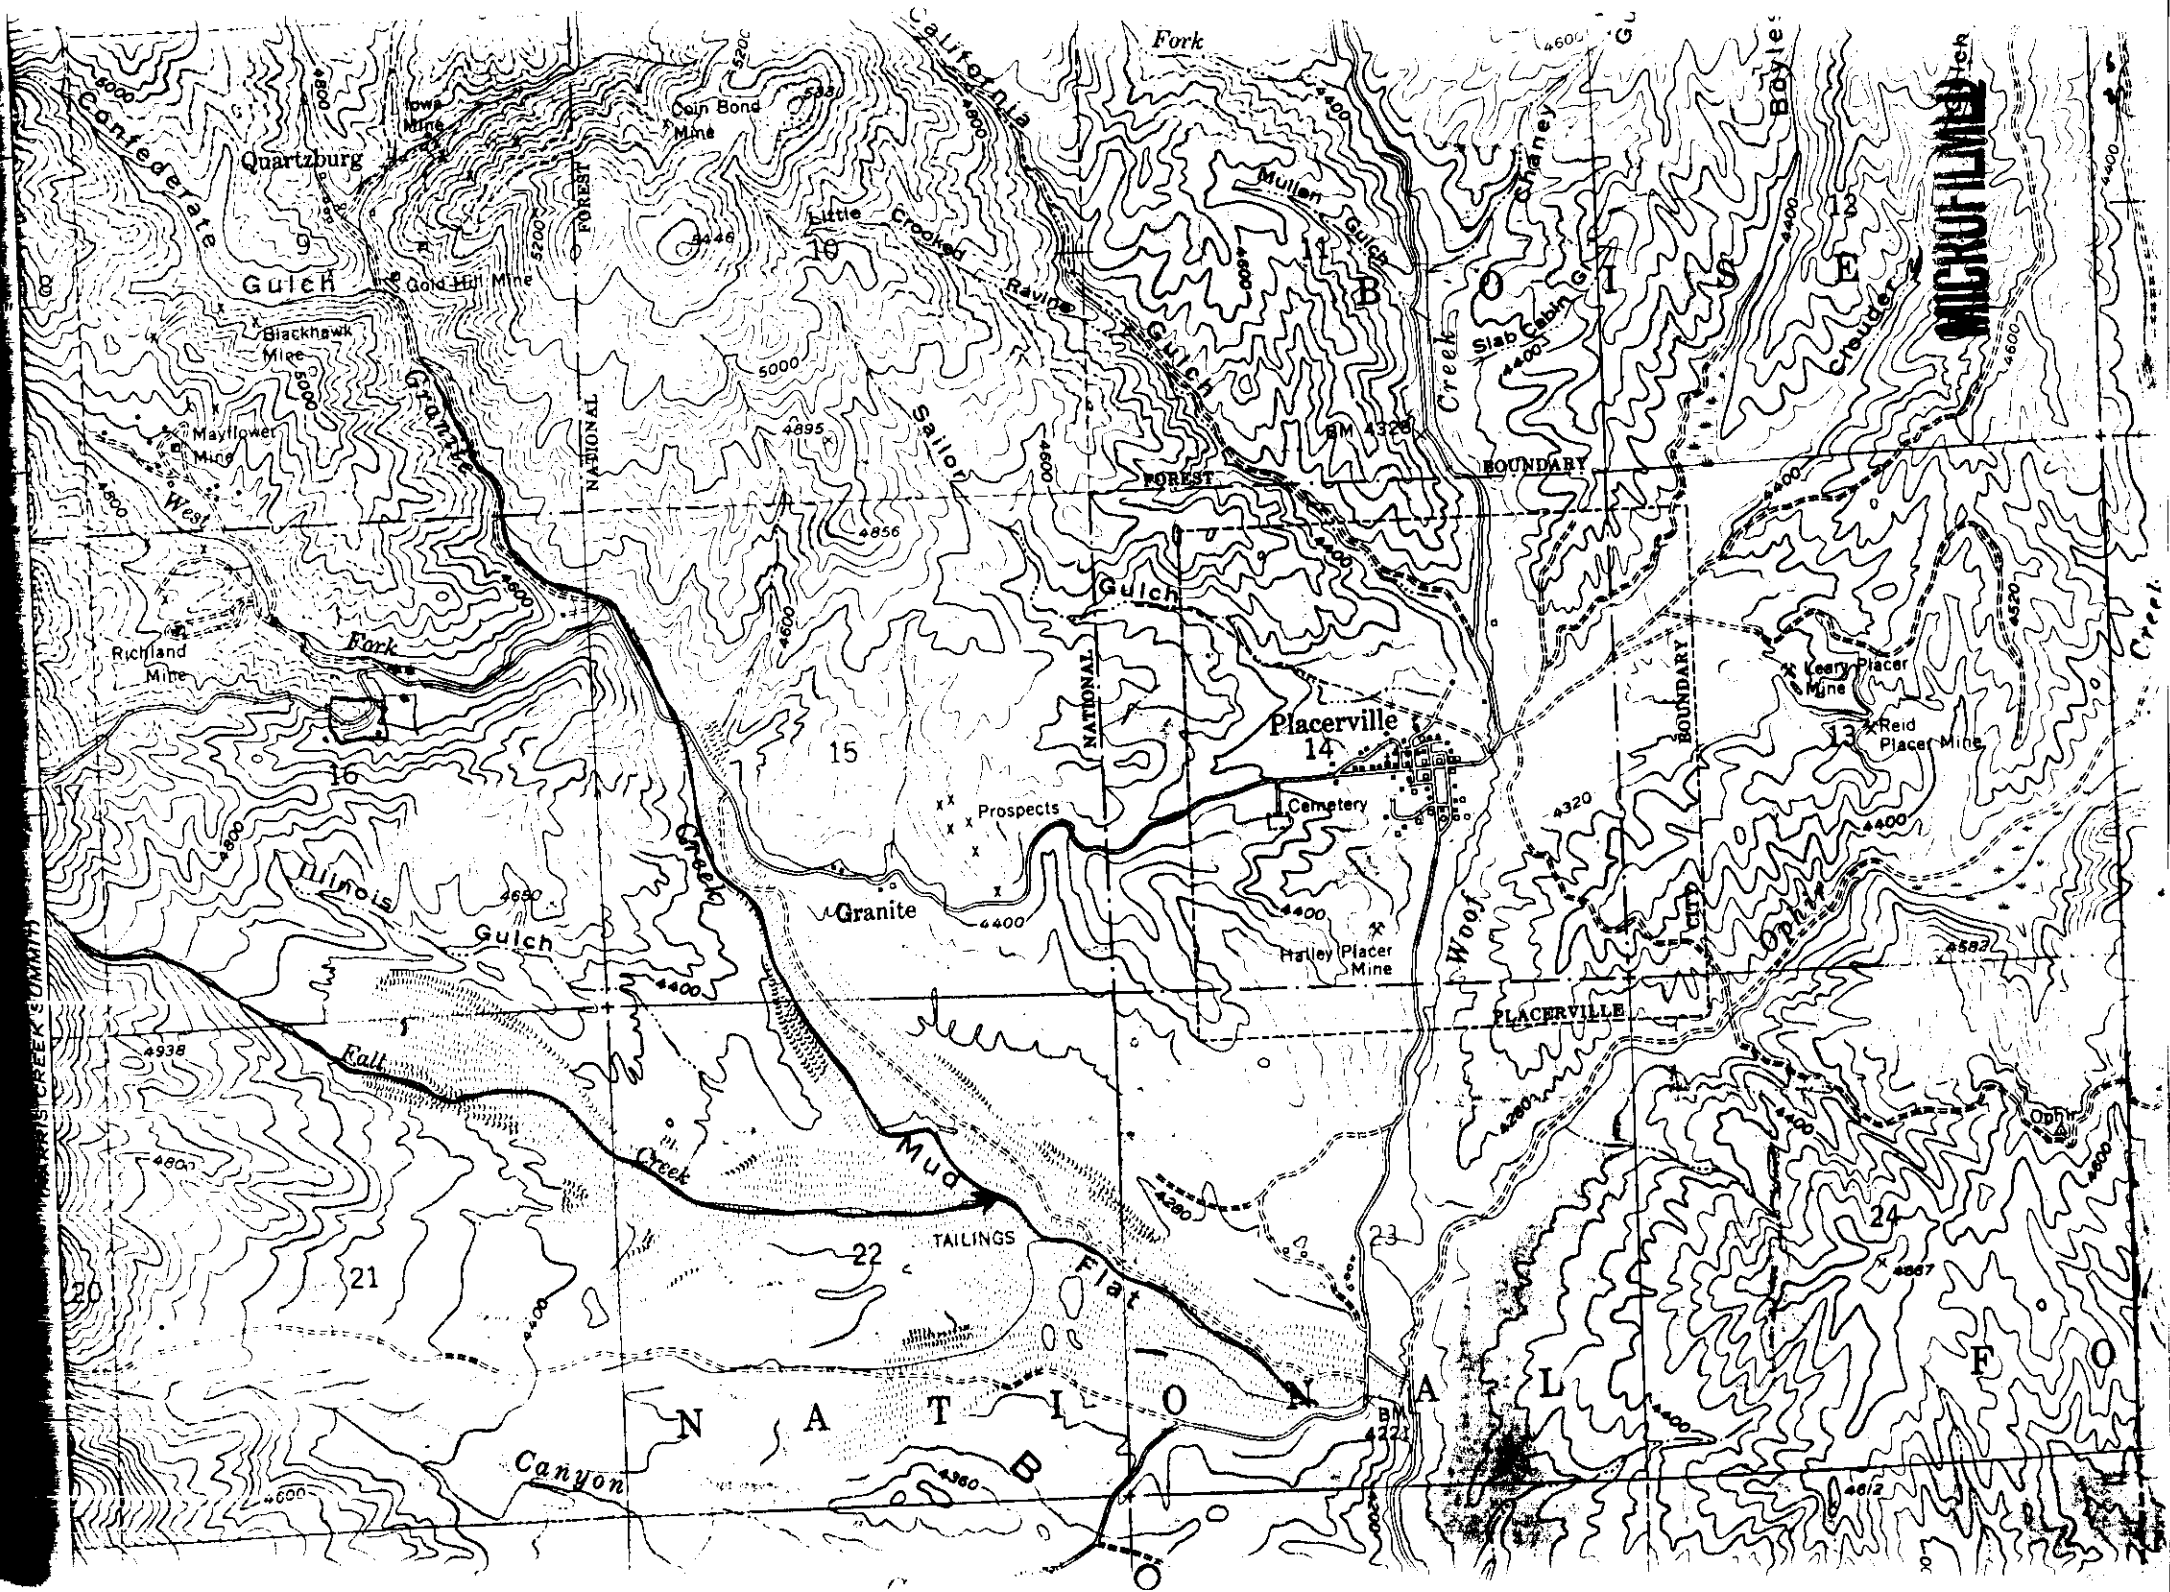

DATE: November 20, 1985

RE: Advertisement of Application for Permit

On this day, it was discovered that Fall Creek, identified as the source for the above referenced water right, is tributary to Granite Creek rather than Woof Creek.

Sec. 42-203A, IDAHO CODE, requires that the advertisement for an application for permit contain, among other items, "the source of water supply." Because Woof Creek and Granite Creek are both located in the vicinity of the proposed point of diversion, and because the IDAHO CODE does not specifically require the tributary to be advertised, my interpretation is that the application need not be readvertised to properly record this correction. Rather, a sufficient correction is to note the change on the application and on the advertisement shown within the file.

Dear Mr. Walker:

We have received the two applications for permit for mining purposes from Ophir and Fall Creeks. However, before processing can continue, more information is needed.

It appears from the amount of water listed on Item No. 4 (100 af) and the reservoir capacity listed on Item No. 6b (1 af), that the reservoir will be emptied and refilled several times. If this is the case, then a rate of diversion should be listed rather than a storage amount. When a small reservoir can fill and refill several times a year, it is then considered a part of your diversion system rather than a storage reservoir. You have listed 1.0 cfs as a diversion rate under Item No. 5. We can change the amount of water from 100 acre feet to 1.0 cfs which would allow you to divert 450 gallons per minute into your reservoir and out again.

We also have a question with the legal description for the point of diversion and place of use as compared to the points shown on the map. The map for Ophir Creek shows the point of diversion correctly, but the place of use is outlined as the NW $\frac{1}{4}$ SW $\frac{1}{4}$ and SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 7. Under Item No. 9, only the SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 7 is listed. On the map for Fall Creek, the point of diversion is shown right on the line between the NW $\frac{1}{4}$ SW $\frac{1}{4}$ and SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 16, but only the SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 16 is listed as the point of diversion on Item No. 3. In order to be sure the diversion point is accurately described, both points should be listed. The place of use for the Fall Creek claim outlines all of the SW $\frac{1}{4}$, Sec. 16, but the legal description listed under Item No. 9 shows only the NW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 16. Please clarify these points of diversion and places of use. I am enclosing a copy of the topographic map for this area to assist you in locating the correct legal descriptions.

Please correct the amount of water along with the legals and return the applications to this office. Once we receive the corrected forms, processing will continue. Any changes on the applications will need your initials and date beside them.

If you have any questions, do not hesitate to contact me.

Sincerely,

A handwritten signature in cursive script, appearing to read "Jan Shurte".
