EXHIBIT "A"

Reasons work not completed within allowed time:

1. Petitioner is involved in litigation involving right-of-way to the property, and hence right-of-way to the diversion site which litigation was filed by Fredrick L. Parker and Helen Parker on November 20, 1979, as Boise County Case No. B. C. 1082. That case disputed the permit holder's right-of-way and final judgment was not entered until May 29, 1985, the appeal time not running until 42 days thereafter.

2. The permit holder was heavily engaged timewise and economically in installing on his property a water conserving and efficient drip system to irrigate commercial Christmas trees and installing water transmission lines to service the drip system and pasture sprinkling.

3. The permit holder was not properly knowledgeable concerning the time demands for the installation of that portion of the system and when the existing litigation was not completed as early as anticipated, sufficient time was not available to complete the project.

RE: Water Right No. 63-10279

Dear Water Right Holder(s):

On June 8, 1992, the department sent you a letter which directed you to immediately cease diverting water under the above referenced water right, since the minimum stream flow of the Snake River in the amount of 4,750 cubic feet per second (cfs) measured near Weiser was not being satisfied.

The flow of the Snake River at Weiser is now above 4,750 cfs. You are, therefore, authorized to again divert water under your water right. If the minimum stream flow is not met later this year, however, the department will again notify you to temporarily cease diversion.

Thank you for your cooperation in this matter. Please feel free to contact L. Glen Saxton (phone: 208-327-7955) or Gary Spackman (phone: 208-327-7946) of my staff if you have questions.

RE: Water Right No. 63-10279

Dear Water Right Holder(s):

On May 19, 1992, the department sent you a letter advising that you might be required to temporarily cease diverting water from the Snake River or its tributaries if the established minimum stream flow of the Snake River in the amount of 4,750 cubic feet per second measured near Weiser is not satisfied or likely will not be satisfied.

The flow of the Snake River at Weiser is now less than 4,750 cfs. You are, therefore, directed to immediately cease diverting water under the above referenced water right and to not resume use until authorized by the department.

Past flow records show that the duration of seasonal low flow periods typically last several days to a week. Since your use of water is extremely important to you and since mail notification includes a delay associated with mail delivery time, feel free to call the toll-free telephone number 1-800-451-4129 to determine when you are again authorized to divert and use water under your water right. Please use this phone number only in connection with resumption of use.

You need to be aware that Section 42-351, Idaho Code, provides for penalties of up to \$100 per day for unauthorized diversion.

Thank you for your cooperation in this matter. Please feel free to contact L. Glen Saxton (phone: 208-327-7955) or Gary Spackman (phone: 208-327-7946) of my staff if you have questions.

RE: Water Right No. 63-10279

Dear Water Right Holder(s):

Department water right records show that you divert water from the Snake River or its tributaries under a water right that has a priority date later than December 29, 1976. This is the priority of the established minimum stream flow of the Snake River at the Weiser Gage (Weiser) in the amount of 4,750 cubic feet per second.

Because of the continuing drought conditions in the Snake River Basin, department hydrologists project that during 1992, there could be periods when the required minimum flow will not be satisfied due to low flows of the Snake River. The department urges you to not divert at a higher rate than authorized by your water right and to not use your right in any manner different than authorized. In addition, when the minimum flow will not be satisfied or is not being satisfied, you are required to cease diverting water under your water right, because your right is of later priority than the minimum stream flow at Weiser.

If the department determines the minimum flow will not be satisfied, the department will advise you and will provide as much lead time as possible in requiring that you temporarily cease your diversion of water. The greatest likelihood for this to occur is during a period from mid-June to late June.

While the department expects good cooperation from junior water right holders, water users should be aware that Section 42-352, Idaho Code, provides for penalties of up to \$100 per day for unauthorized diversions of water.

The department has contacted both the Idaho Power Company and the U.S. Bureau of Reclamation with respect to the timing of storage releases from upstream reservoirs for flow enhancement purposes. This type of coordination could minimize the impact on

existing water users and reduce the need to curtail diversions.

The department has scheduled public information meetings relative to this potential regulation as follows:

Mountain Home - June 4, 1992 - 10:00 a.m. - gymnasium at
North Elementary School, 290 E. 12th N.

Caldwell - June 4, 1992 - 7:00 p.m. - Ballroom in the
Student Union Building, Albertson College of Idaho,
2112 Cleveland

If you have questions concerning this letter or wish to provide the name of a different contact person or address to receive department correspondence, please contact the department.

RE: Permit Nos. 63-8384 and 63-10279

Dear Mr. Green:

The department has reviewed your proof of beneficial use forms and beneficial use field reports for the above referenced permits.

Enclosed is a copy of the Order reinstating permit No. 63-10279 and a copy of the Order advancing the date of priority for permit No. 63-8384.

The permits are being included in the inventory of permits waiting to be licensed. I cannot tell you when the files will be pulled for licensing, but the department will notify you of our proposed findings prior to actually issuing them.

If you have any questions or concerns, feel free to contact this office.

Sincerely,

RITA I. FLECK

RE: Mores Creek Fill

Dear Mr. Green:

The fill material you caused to be placed in Mores Creek is in violation of the State Stream Channel Protection Act and must be removed. The material in reference was inadvertently pushed into the channel during construction of the turn-around at the pumping site established under water right # 63-10457.

The fill extends waterward of the bank and cannot be left or stabilized in place. Therefore you shall within 30 days of the receipt of this letter remove the fill to an upland location where it cannot reenter the channel at high flows. We will be happy to meet with you on site to explain what must be done if you have any questions. Failure to remove the material may subject you to legal action by the Department of Water Resources as provided for under Section 42-3803 of the Idaho Code.

In addition to the unauthorized fill you have also constructed a permanent rock dam within the stream channel which may create some hazards to the highway embankment during high runoff periods. We also recommend that you remove the dam during the non-irrigation season.

Sincerely,

Ervin E. Ballou

LAPSE NOTICE

RE: Permit No. 63-10279

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218a, Idaho Code, the above referenced water permit has lapsed. This office did not receive either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time. You were provided the proper forms in our proof due notice to you dated March 31, 1988.

Your permit cannot be reinstated unless you submit proof of beneficial use or submit an extension of time request showing reasonable cause for delay. Either the completed proof of beneficial use submittal (including the examination fee or a completed field examination report) or the extension request form together with the \$15 fee must be received by this Department within sixty days of the date of mailing of this lapse notice.

A proof of beneficial use form and a request for extension of time form are again enclosed for your use. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a governmental agency or by litigation which might bring title to the water in question.

Sincerely,

L. GLEN SAXTON
Chief, Operations Bureau

PROOF DUE NOTICE

RE: Permit No. 63-10279

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before June 1, 1988. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this Department on or before the above described proof due date, or the permit will no longer be of any force nor effect.

Sincerely,

RITA FLECK

LAPSE NOTICE

RE: PERMIT NO. 63-10279

DEAR PERMIT HOLDER:

YOU ARE HEREBY NOTIFIED THAT UNDER THE PROVISIONS OF SECTION 42-218A, IDAHO CODE, THE ABOVE REFERENCED WATER PERMIT HAS LAPSED. THIS OFFICE DID NOT RECEIVE EITHER AN ACCEPTABLE PROOF OF BENEFICIAL USE SUBMITTAL OR AN ACCEPTABLE REQUEST FOR AN EXTENSION OF TIME. YOU WERE PROVIDED THE PROPER FORMS IN OUR PROOF DUE NOTICE TO YOU DATED MARCH 31, 1986.

YOUR PERMIT CANNOT BE REINSTATED UNLESS YOU SUBMIT PROOF OF BENEFICIAL USE OR SUBMIT AN EXTENSION OF TIME REQUEST SHOWING REASONABLE CAUSE FOR DELAY. EITHER THE COMPLETED PROOF OF BENEFICIAL USE SUBMITTAL (INCLUDING THE EXAMINATION FEE OR A COMPLETED FIELD EXAMINATION REPORT) OR THE EXTENSION REQUEST FORM TOGETHER WITH THE \$15 FEE MUST BE RECEIVED BY THIS DEPARTMENT WITHIN SIXTY DAYS OF THE DATE OF MAILING OF THIS LAPSE NOTICE OR THE PERMIT WILL NO LONGER BE OF ANY FORCE OR EFFECT.

A PROOF OF BENEFICIAL USE FORM AND A REQUEST FOR EXTENSION OF TIME FORM ARE AGAIN ENCLOSED FOR YOUR USE. PLEASE NOTE THAT ONLY ONE EXTENSION OF TIME CAN BE GRANTED UNLESS THE PROJECT HAS NOT BEEN COMPLETED BECAUSE OF LACK OF A NECESSARY APPROVAL BY A GOVERNMENTAL AGENCY OR BY LITIGATION WHICH MIGHT BRING TITLE TO THE WATER IN QUESTION.
