

NOTICE OF CORRECTION

Notice is hereby given that notice of Application for a Water Right Permit No. 63-10272 in the name of Robert C. Rhead was published in error on 11/14 and 11/21/84.

The water uses were listed as Irrigation for Storage (0.00 CFS), and Irrigation from Storage (380.0 AF).

WHEREAS, the actual uses are Irrigation for Storage (380.0 AF), and Irrigation from Storage (380.0 AF).

If issued, the permit will be subject to all prior water rights. Protests against the granting of any permit must be filed with the Director of the Department of Water Resources, Statehouse, 450 W. State Street, Boise, ID 83720 on or before December 24, 1984.

Ken Dunn, Director
Published in the Mountain Home News on 12/05 and 12/12/84.

APPLICATION FOR PERMIT

APPROVED

To appropriate the public waters of the State of Idaho

1. Name of applicant ROBERT C. RHEAD Phone 888-4153

Post office address 700 E. McMillan, Meridian, ID 83642

2. Source of water supply Little Camas Creek which is a tributary of S.E. Boise River

3. Location of point of diversion is NW $\frac{1}{4}$ of NW $\frac{1}{4}$ of Section 9 Township 1S

Range 9E B.M. Elmore County, additional points of diversion if any: _____

4. Water will be used for the following purposes:

Amount 380 for storage for irrigation purposes from 1/1 to 10/31 (both dates inclusive)
(cfs or acre-feet per annum)

Amount 380 for from storage purposes from 1/1 to 10/31 (both dates inclusive)
(cfs or acre-feet per annum)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)

5. Total quantity to be appropriated:

a. _____ cubic feet per second and/or b. 380 acre-feet per annum.

6. Proposed diverting works:

a. Description of ditches, flumes, pumps, headgates, etc. Irrig. dam - pumping plant
for water in reservoir

b. Height of storage dam 35 feet, active reservoir capacity 380 acre-feet; total reservoir capacity 380 acre-feet, materials used in storage dam: earth

Period of year when water will be diverted to storage _____ to _____ inclusive.
(Month/Day) (Month/Day)

c. Proposed well diameter is _____ inches; proposed depth of well is _____ feet.

7. Time required for the completion of the works and application of the water to the proposed beneficial use is 5 years (minimum 1 year — maximum 5 years).

8. Description of proposed uses:

a. If water is not for irrigation:

(1) Give the place of use of water: _____ $\frac{1}{4}$ of _____ $\frac{1}{4}$ of Section _____ Township _____
Range _____ B.M.

(2) Amount of power to be generated: _____ horsepower under _____ feet of head.

(3) List number of each kind of livestock to be watered _____

(4) Name of municipality to be served _____, or number of families to be supplied with domestic water _____.

(5) If water is to be used for other purposes describe: _____

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 63-10272, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before January 1, 19 90.
- c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.
- d. Other: Additional water cannot be stored after June 15 of each year without prior approval of the Boise River Watermaster.
Permanent measuring devices must be installed in such a manner that the amount of water entering the reservoir and the amount of water released from the reservoir can be measured.
The storage of water under this permit is contingent upon the certification of the dam and authorization of storage per the dam safety provisions of the Idaho Code.
Use of water under this permit is subject to control by the watermaster of State Water District No. 63, Boise River.

Witness my hand this 14th day of January, 1985.

RE: CL-547 on Permit Nos. 63-08067, 63-10272, 63-11513, & 63-11514

Dear Mr. Bernsen:

I recently received assignments on the above permits transferring ownership of these rights to your client, Big Sky Partnership. However, due to the requirements of Water Allocation Rule 035.03.b.i., I need a list of the names, titles, and addresses of all the officers and/or partners of Big Sky Partnership.

Also, as of July 1, 1994, each assignment of permit must be accompanied by a \$25.00 filing fee. Assignments of permits are not acceptable without filing fees. No fees were submitted with these assignments.

I am returning these assignments to you. Please resubmit the assignments and listing of partners along with the filing fees to my attention at the above address.

If you have any questions, please feel free to contact me at (208) 327-7944.

Sincerely,

Cindy Zimmerman

RE: Applications for Permit and Large Diversion Information Requirement

Dear Mr. Rhead:

Three Applications for Permit for new water rights and one Application for Amendment of Permit 63-08067 were recently received and reviewed. Several changes are needed before proceeding. Please review the following items and respond accordingly.

1. This office has tried to conduct a licensing field exam for Permit 63-08067 since 1986. The exam never occurred for a variety of reasons. The appropriate manner to amend the permit is through a field exam. The \$20 amendment fee paid on 3-15-91 will be applied to the licensing process. It is imperative that the field exam be conducted for this right during the 1991 irrigation season. Without the examination or without a valid reason for again delaying the exam, the permit will be recommended to be cancelled. An examiner will contact you early in the irrigation season to schedule a field appointment.

2. The application for permit for 380 acre feet of storage involving Little Camas Creek to irrigate 1,178 acres is unnecessary. Permit 63-10272 for storing 380 acre feet in the Rhead Ranch Reservoir is a valid permit for up to 570 acres in Sections 4, 5, and 8. Under Idaho Code 42-222, the transfer statute, one may expand the number of acres for storage water without increasing the amount of storage water. Because the reservoir capacity is 380 acre feet already covered by Permit 63-10272, a license exam for the permit will accurately describe the acres eligible for stored water. Proof of beneficial use for the permit was filed on 11-3-89, and a field exam can be conducted for the reservoir water right along with Permit 63-08067. Additional lands using reservoir water can be included in licensing permit 63-10272 or additional lands can be added once the right is licensed. This will allow considerable flexibility in using Little Camas Creek water. The \$105 application fee for the unneeded application will be refunded. An examiner will arrange a field inspection for this right along with Permit 63-08067 during this irrigation season.

3. Two applications for wells serving different lands will be advertised and processed. For the application for two wells in Section 32, during what period of year will irrigation storage occur? Will water be pumped to the reservoir during the irrigation season or during other times? Also, in what year were the wells drilled, what is the diameter and depth of each well, and is the water temperature 90 degrees F. or less?

For the application for two existing wells and one proposed well in Sections 28 and 33, when were the two wells drilled? What diameters and depths are involved? Is the water temperature 90 degrees F. or less?

4. Based on Idaho Code 42-203A(5)(a-e), additional information is needed for applications for permit involving irrigation of more than 200 acres and/or diversions exceeding 5.00 cfs or 500 acre-feet of storage. Both applications for the different wells require additional information. Please provide information relating to the proposed water rights as outlined in the attached copy of Water Appropriation Rules 4,5,3,1 through 4,5,3,5,1. This covers the following items:

- a) effect on existing water rights,
- b) sufficiency of water supply,
- c) good faith, delay, or speculative purposes,
- d) financial resources,
- e) local public interest.

The applications can be advertised but not approved until the information in item 4 is provided.

Please provide the information in item 3 by 4-19-91. The information in item 4 should be submitted by 5-13-91. Let me know if I can offer any help in the process.

Sincerely,

Steve Lester
Sr. Water Resource Agent

Meridian, ID 83642

Dear Mr. Rhead:

Re: Permit No. 63-10272

This office acknowledges receipt of the proof of beneficial use form submitted to this office on November 3, 1989 along with a request for the department to remove the measuring device requirement. Enclosed is an order that conditionally removes the requirement.

Before a license can be issued, the department will conduct a field examination of your system to review and to confirm the extent of beneficial use being made of the water. The examiner will attempt to contact you to schedule a convenient time to conduct the examination.

If I can be of assistance, please contact this office.

Sincerely,

RITA I. FLECK
Secretary/Records Manager

PROOF OF BENEFICIAL USE

ANALYSIS SHEET

Permit No. 63-10272

Date: 1-25-90

General Considerations:

9 Name same as permit
7 Signature the same as permit holder
0 Address change _____ If yes, prepare a data entry
9 Proof received timely _____
_____ Reinstated

Source of Water:

9 Surface water
_____ Groundwater
_____ 1. well log in file
_____ 2. drilling permit
_____ A. amount of drilling fee paid for proposed uses

Extent of Use and Rate of Diversion:

9 Rate of diversion appropriate for uses
9 Is rate or volume and fee appropriate?
9 Has permit holder indicated when water was first put to a beneficial use?

Measuring Device:

_____ Is a measuring device or access port required?
_____ Has one been installed?
9 Waiver or modification of measuring device requested

Remarks:

*Request measuring device be removed
Proof acceptable*

November 3, 1989

TO THE DEPARTMENT OF WATER RESOURCES

I request that the Department waive the condition of approval requiring permanent measuring devices. We have no adequate method of installing measuring equipment. Most of the water is spring runoff. Only during years with heavy snowfall when the water flows over the overflow can we measure it.

Robert L. Ried

PROOF DUE NOTICE

RE: PERMIT NO. 63-10272

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before January 1, 1990. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
Secretary/Records Manager

RE: Permit No. 63-10272

Robert C. Rhead
700 E. McMillan
Meridian, ID 83642

Dear Permit Holder:

Enclosed is a copy of your approved Application for Permit. We direct your attention to the conditions of approval on the fourth page.

If the diversion dam is 10 feet or more in height, or has an impounding capacity of 50 acre-feet or more, certain dam safety requirements must be met. Please contact the regional office nearest you for details.

The 1982 Idaho Legislature added a requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permit was approved.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a license.

Sincerely,

DAVID R. TUTHILL, JR., P.E.
Supervisor, Water Allocation Section

NOTICE OF CORRECTION

Notice is hereby given that notice of Application for a Water Right Permit No. 63-10272 in the name of Robert C. Rhead was published in error on 11/14 and 11/21/84.

The water uses were listed as Irrigation for Storage (0.00 CFS), and Irrigation from Storage (380.0 AF).

WHEREAS, the actual uses are Irrigation for Storage (380.0 AF), and Irrigation from Storage (380.0 AF).

If issued, the permit will be subject to all prior water rights. Protests against the granting of any permit must be filed with the Director of the Department of Water Resources, Statehouse, 450 W. State Street, Boise, ID 83720 on or before December 24, 1984.
