CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 63-10263, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before October 1, 19 89.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. Other: Permit holder shall commence the excavation or construction of diverting works within one year of the date this permit is issued and shall proceed diligently until the project is complete.

RE: Domestic Use

Although the field examiner found only domestic use under this right and the permit was for domestic and irrigation, pre-license correspondence is not needed to reflect the reduction. I have spoken with Mrs. Moore and explained what the examiner found. Because they are very anxious to have the license issued for this permit, they are willing to have the license printed as the examiner found without having pre-license correspondence sent to them.

Dear Mr. & Mrs. Moore:

This letter is to acknowledge receipt of the proof of beneficial use forms submitted for Permit No.'s 63-10263 and 63-10441 on April 1, 1988.

Since the field exams were completed by me on April 1, 1988, there is nothing further required from you. The recommended licenses will be forwarded to the State office and the final license issued at a later date. The backlog of licenses to be issued is quite lengthy at the state office, however, your permits will remain in good standing with no loss in priority date(date of first filing) in the meantime.

I have been informed that you were concerned about this acknowledgement letter and hope this helps to resolve this concern. Due to the Snake River Adjudication Program(refiling on all water rights), we have been extremely busy here. Before you become concerned about this program, please be advised that we are joining water users into this refiling program on a county by county basis. The proposed joining of Canyon County is not until November 17, 1989, and notice of this will be sent to you at that time. Enclosed is a pamphlet which explains why this has come about and what will be required of you at the time Canyon County is joined.

If you have any questions or problems concerning your water rights in the future, please feel free to contact me at anytime.

Sincerely,

JAN SHURTE

Dear Mr. & Mrs. Moore:

This letter is to acknowledge receipt of the proof of beneficial use forms submitted for Permit No.'s 63-10263 and 63-10441 on April 1, 1988.

Since the field exams were completed by me on April 1, 1988, there is nothing further required from you. The recommended licenses will be forwarded to the State office and the final license issued at a later date. The backlog of licenses to be issued is quite lengthy at the state office, however, your permits will remain in good standing with no loss in priority date(date of first filing) in the meantime.

I have been informed that you were concerned about this acknowledgement letter and hope this helps to resolve this concern. Due to the Snake River Adjudication Program(refiling on all water rights), we have been extremely busy here. Before you become concerned about this program, please be advised that we are joining water users into this refiling program on a county by county basis. The proposed joining of Canyon County is not until November 17, 1989, and notice of this will be sent to you at that time. Enclosed is a pamphlet which explains why this has come about and what will be required of you at the time Canyon County is joined.

If you have any questions or problems concerning your water rights in the future, please feel free to contact me at anytime.

Sincerely,

JAN SHURTE
Water Rights Supervisor

Dear Permit Holder:

Enclosed is a copy of your approved Application for Permit. We direct your attention to the conditions of approval on the fourth page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

The 1982 Idaho Legislature added a requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permit was approved.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a license.

Sincerely,

DAVID R. TUTHILL, JR., P.E.
