WATER RIGHT NO. 63-10253

Priority: July 7, 1984

Maximum Diversion Rate: 0.05 CFS
Maximum Diversion Volume: 13.5 AF

This is to certify, that JOHN W BROWNING
RUTH BROWNING

7020 HILL RD
BOISE ID 83703

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated June 25, 1984; and has submitted Proof of Beneficial Use on July 13, 1992. An examination indicates that the works have a diversion capacity of .050 cfs of water from a GROUNDWATER source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	03/15 to 11/15	0.05 CFS	13.5 AF

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount that can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 4.5 afa per acre for the lands above.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code, Witness the seal and signature of the Director, affixed at Boise, this 28TH day of MARCH, 1994.

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. Enclosed is an order advancing the priority of the permit since the proof was received after the proof due date. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise at (208)334-2190.

☒ Approved () Denied

The approval of this permit authorizes the construction of a well as described on this application subject to the conditions on this permit.

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from its date of issuance for the start of construction and is valid for one (1) year from the date of issuance for completion of the well unless an extension has been granted.
3. The permit holder or his representative shall notify the Department ten (10) days prior to the start of construction unless good cause for later notification can be shown.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Issuance of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.

LAPSE NOTICE

Dear Permit Holder:

Under the provisions of Section 42-218a of the Idaho Code, you are hereby notified that the above referenced permit has lapsed since the Department could not approve the request for extension of time you submitted.

You can file a new application within one year of the time you actually intend to develop a water right. Since Idaho is now under a mandatory permit procedure to develop a water right, the new application will provide an additional period of time for development, although the priority date will be later in time.

Should you wish to file a proof of beneficial use on that portion of the permit that you have developed, you must do so within 60 days of the date of this lapse notice. However, your priority date is being penalized one day for every day the proof is received late.

If you have any questions or if we can be of any further assistance, please feel free to contact our office.

Sincerely,

L. Glen Saxton
Chief, Water Allocation Bureau

Re: Permit No. 63-102-53

Dear Permit Holder:

Enclosed is a copy of the denied request for extension of time which you submitted to the department in connection with the above referenced permit. Section 42-204, Idaho Code, provides that the department can only grant one extension of time based on due diligence. Please note that the department has previously granted an extension of time in connection with this permit.

I suggest that you file the enclosed proof of beneficial use form for that portion of the development completed. If there has been no beneficial use of the water, I suggest you file a new application within one year of the time you actually intend to develop the water right. Since Idaho is now under a mandatory permit procedure to develop a water right, the new application will provide an additional period of time for development, although the priority date will be later in time.

If you have any questions or if we can be of any further assistance, please feel free to contact us or any of our regional offices.

Sincerely,

L. GLEN SAXTON

REQUEST FOR EXTENSION OF TIME

TO PROVIDE ADDITIONAL TIME IN WHICH TO SUBMIT PROOF OF
BENEFICIAL USE FOR A WATER RIGHT PERMIT

The Idaho Department of Water Resources will consider this form as a request that the permit holder(s) be granted an additional period of time in which to complete development of water right under the provisions of Section 42-204, Idaho Code.

Permit No. 63-10253

Name(s) of Permit Holder: John W. or Ruth Browning

Mailing Address: 7020 Hillroad, Boise, Id 83703

Date Proof is Due July 1, 1992 Telephone No. 853-0611

Describe what work has been completed toward the development of this water right:

(This must be filled out! If no work has been completed, show "none".)

20' willow windbreak trees, 8 peach trees, 3 cherry trees and various other trees including, maples, poplars, Quince, etc., Elms, locust, spruce, pine and Fir. also 100' pipe and drip hose system.

Costing \$ 3500.00

The permit holder(s) has been unable to complete the remainder of the work for the following reasons:

Trees and windbreak trees hard to be established before other plantings could be made due to hot dry winds and drought conditions.

Heart attacks and death in close family caused serious financial setback and slowed project down.

Permit holder(s) request an extension to December 31, 19 95.

PROOF DUE NOTICE

RE: PERMIT NO. 63-10253

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before July 1, 1992. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

John W. &/or Ruth Browning

Boise, ID 83703

Dear Permit Holder:

Enclosed is a copy of your approved Application for Permit. We direct your attention to the conditions of approval on the fourth page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

The 1982 Idaho Legislature added a requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permit was approved.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a license.

Sincerely,

DAVID R. TUTHILL, JR., P.E.
