WATER RIGHT LICENSE

WATER RIGHT NO. 63-10250

Priority: June 8, 1984

Maximum Diversion Rate:

0.09 CFS

Maximum Diversion Volume:

8.3 AF

This is to certify, that LOUANN ETCHECHOURY
ERNEST ETCHECHOURY

3105 BARR
BOISE ID 83703

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated June 8, 1984; and has submitted Proof of Beneficial Use on May 3, 1989. An examination indicates that the works have a diversion capacity of .230 cfs of water from a **GROUNDWATER** source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	03/15 to 11/15	0.05 CFS	7.7 AF
DOMESTIC	01/01 to 12/31	0.04 CFS	0.6 AF
	Totals	0.09 CFS	8.3 AF

LOCATION OF POINT(S) OF DIVERSION:

SESE , Sec. 25, Township 03N, Range 02W
CANYON County

PLACE OF USE: IRRIGATION

<u>TWN</u>	<u>RGE</u>	<u>SEC</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>TOTAL</u>
03N	02W	25	SESE	1.7		1.7

Total number of acres irrigated: 1.7

PLACE OF USE: DOMESTIC, same as IRRIGATION use

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.

2. Source of water supply groundwater which is a tributary of _____

3. Location of point of diversion is SE $\frac{1}{4}$ of SE $\frac{1}{4}$ of Section 25 Township 3N

Range 2W B.M. _____ Canyon _____ County, additional points of diversion if any: _____

4. Water will be used for the following purposes:

Amount .04 for domestic purposes from 1/1 to 12/31 (both dates inclusive)
(cfs or acre-feet per annum)

Amount .06 for irrigation purposes from 3/15 to 11/15 (both dates inclusive)
(cfs or acre-feet per annum)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)

5. Total quantity to be appropriated:

a. .10 cubic feet per second and/or b. _____ acre-feet per annum.

6. Proposed diverting works:

a. Description of ditches, flumes, pumps, headgates, etc. Pumping plant and sprinkler
system

b. Height of storage dam _____ feet, active reservoir capacity _____ acre-feet; total reservoir capacity _____ acre-feet, materials used in storage dam: _____

Period of year when water will be diverted to storage _____ to _____ inclusive.
(Month/Day) (Month/Day)

c. Proposed well diameter is 6 inches; proposed depth of well is 129 feet.

7. Time required for the completion of the works and application of the water to the proposed beneficial use is 5 years (minimum 1 year — maximum 5 years).

8. Description of proposed uses:

a. If water is **not** for irrigation:

(1) Give the place of use of water: SE $\frac{1}{4}$ of SE $\frac{1}{4}$ of Section 25 Township 3N
Range 2W B.M. _____

(2) Amount of power to be generated: _____ horsepower under _____ feet of head.

(3) List number of each kind of livestock to be watered _____

(4) Name of municipality to be served _____, or number of families to be supplied with domestic water 1.

(5) If water is to be used for other purposes describe: _____

MAINTAINED

b. If water is for irrigation, indicate acreage in each subdivision in the tabulation below:

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 63-10250, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before July 1, 1989.
- c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.
- d. Other: Permit holder shall commence the excavation or construction of diverting works within one year of the date this permit is issued and shall proceed diligently until the project is complete.

Witness my hand this 30 day of July, 1984.

RE: WATER RIGHT NO. 63-10250

Dear Water Right Holder(s):

The above referenced water right is in the process of being licensed. However, before a license can be issued, your permit must be amended to correspond with the findings of the Department's field examiner.

The enclosed application for amendment contains information that will be included on the license when it is issued. Please review carefully and if you concur, sign the amendment and return with the \$20.00 filing fee within 15 days.

If you do not concur with these findings or if you have any questions, please contact us within the 15-day period.

Sincerely,

PAMELA SKAGGS

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = 7.4 \times 1.7 \times 4.5 = 7.7$$

$$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = 91.5 \times 246 \times 1.9835 = 29.7$$

$$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} = 7.4 \times 7.7$$

2. Volume Calculations for Other Uses:

1 Domestic without irr. = 0.6 afa.

RECEIVED MED
AUG 20 1992

H. REMARKS AND OVERLAP REVIEW ANALYSIS

limit to 0.04 for domestic @ 0.6 afa & 0.05^{OK} for irrigation @ ~~0.7~~ afa. because total acres was found to be 2.002 acres from the deed less 0.352 for driveway, trailer & road which leaves 1.65 acres irrigated see calculation sheet for more information. $((0.03 \text{ cfs/acre}) \times (1.65 \text{ acres})) \approx 0.05 \text{ cfs}$ (separate well)
 overlap! This permit is part of the 40 acres in license 63-02461. However because of more than 5 years of non-use, the water right for this two acres has been forfeited on license 63-02461 and that is the reason this permit was applied for.

I. RECOMMENDATIONS

1. Recommended Amounts

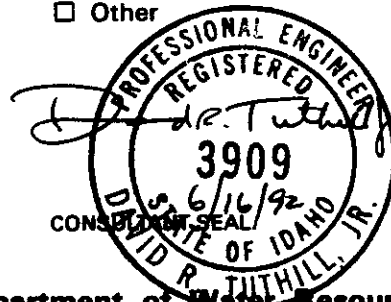

Beneficial Use	Period of Use		Rate of Diversion Q (cfs)	Annual Volume V (afa)
	From	To		
Domestic	1-1	12-31	0.04	0.6
Irrigation	3-15	11-15	0.05	7.7
Totals:			0.09	8.3

2. Recommended Amendments

- ☐ Change P.D. as reflected above ☐ Add P.D. as reflected above ☒ None
☐ Change P.U. as reflected above ☐ Add P.U. as reflected above ☐ Other

Permit No. 63-10250

IRRIGATION RIGHT FROM A GROUND WATER SOURCE

A theoretical calculation is necessary to determine if a measurement is required for irrigation from a groundwater source.

=====

1. Using the found acres (or an estimate by the permit holder) calculate the acre-foot per annum limit. This is the volume that the system must be able to theoretically produce to exclude a rate of flow measurement.

2. Next, given the pump hp and the estimated dynamic water level, calculate the theoretical rate of flow that the system can produce.

3. Using the rate found in step 2 and the days in the permitted irrigation season, calculate the theoretical AFA that the system could produce. This volume is then compared to the first AFA calculation. If the theoretical volume (step 3) is greater than the irrigation requirement volume (step 1) then no measurement is necessary. If it is less, then you must make a diversion rate measurement during the field examination.

$$\begin{array}{lcl}
 1. & \frac{1.7}{1.65} * \frac{4.5}{4.5} & = \frac{7.7}{7.48} \\
 & \text{Found Acres} * \text{Irr. Req.} & = \text{AFA} \\
 2. & \frac{(3) \text{ HP} * 8.8 * (.7) \text{ EFF}}{(18) \text{ Dyn Level} + (2.3 * \{35\} \text{ PSI})} & = \frac{0.19}{\text{Theor. Div. Rate}} \text{ CFS} \\
 3. & \frac{0.19}{\text{Theoretical Div. Rate}} * \frac{246}{\text{Days in season}} * 1.9835 & = \frac{91.54}{24.4} \text{ AFA}
 \end{array}$$

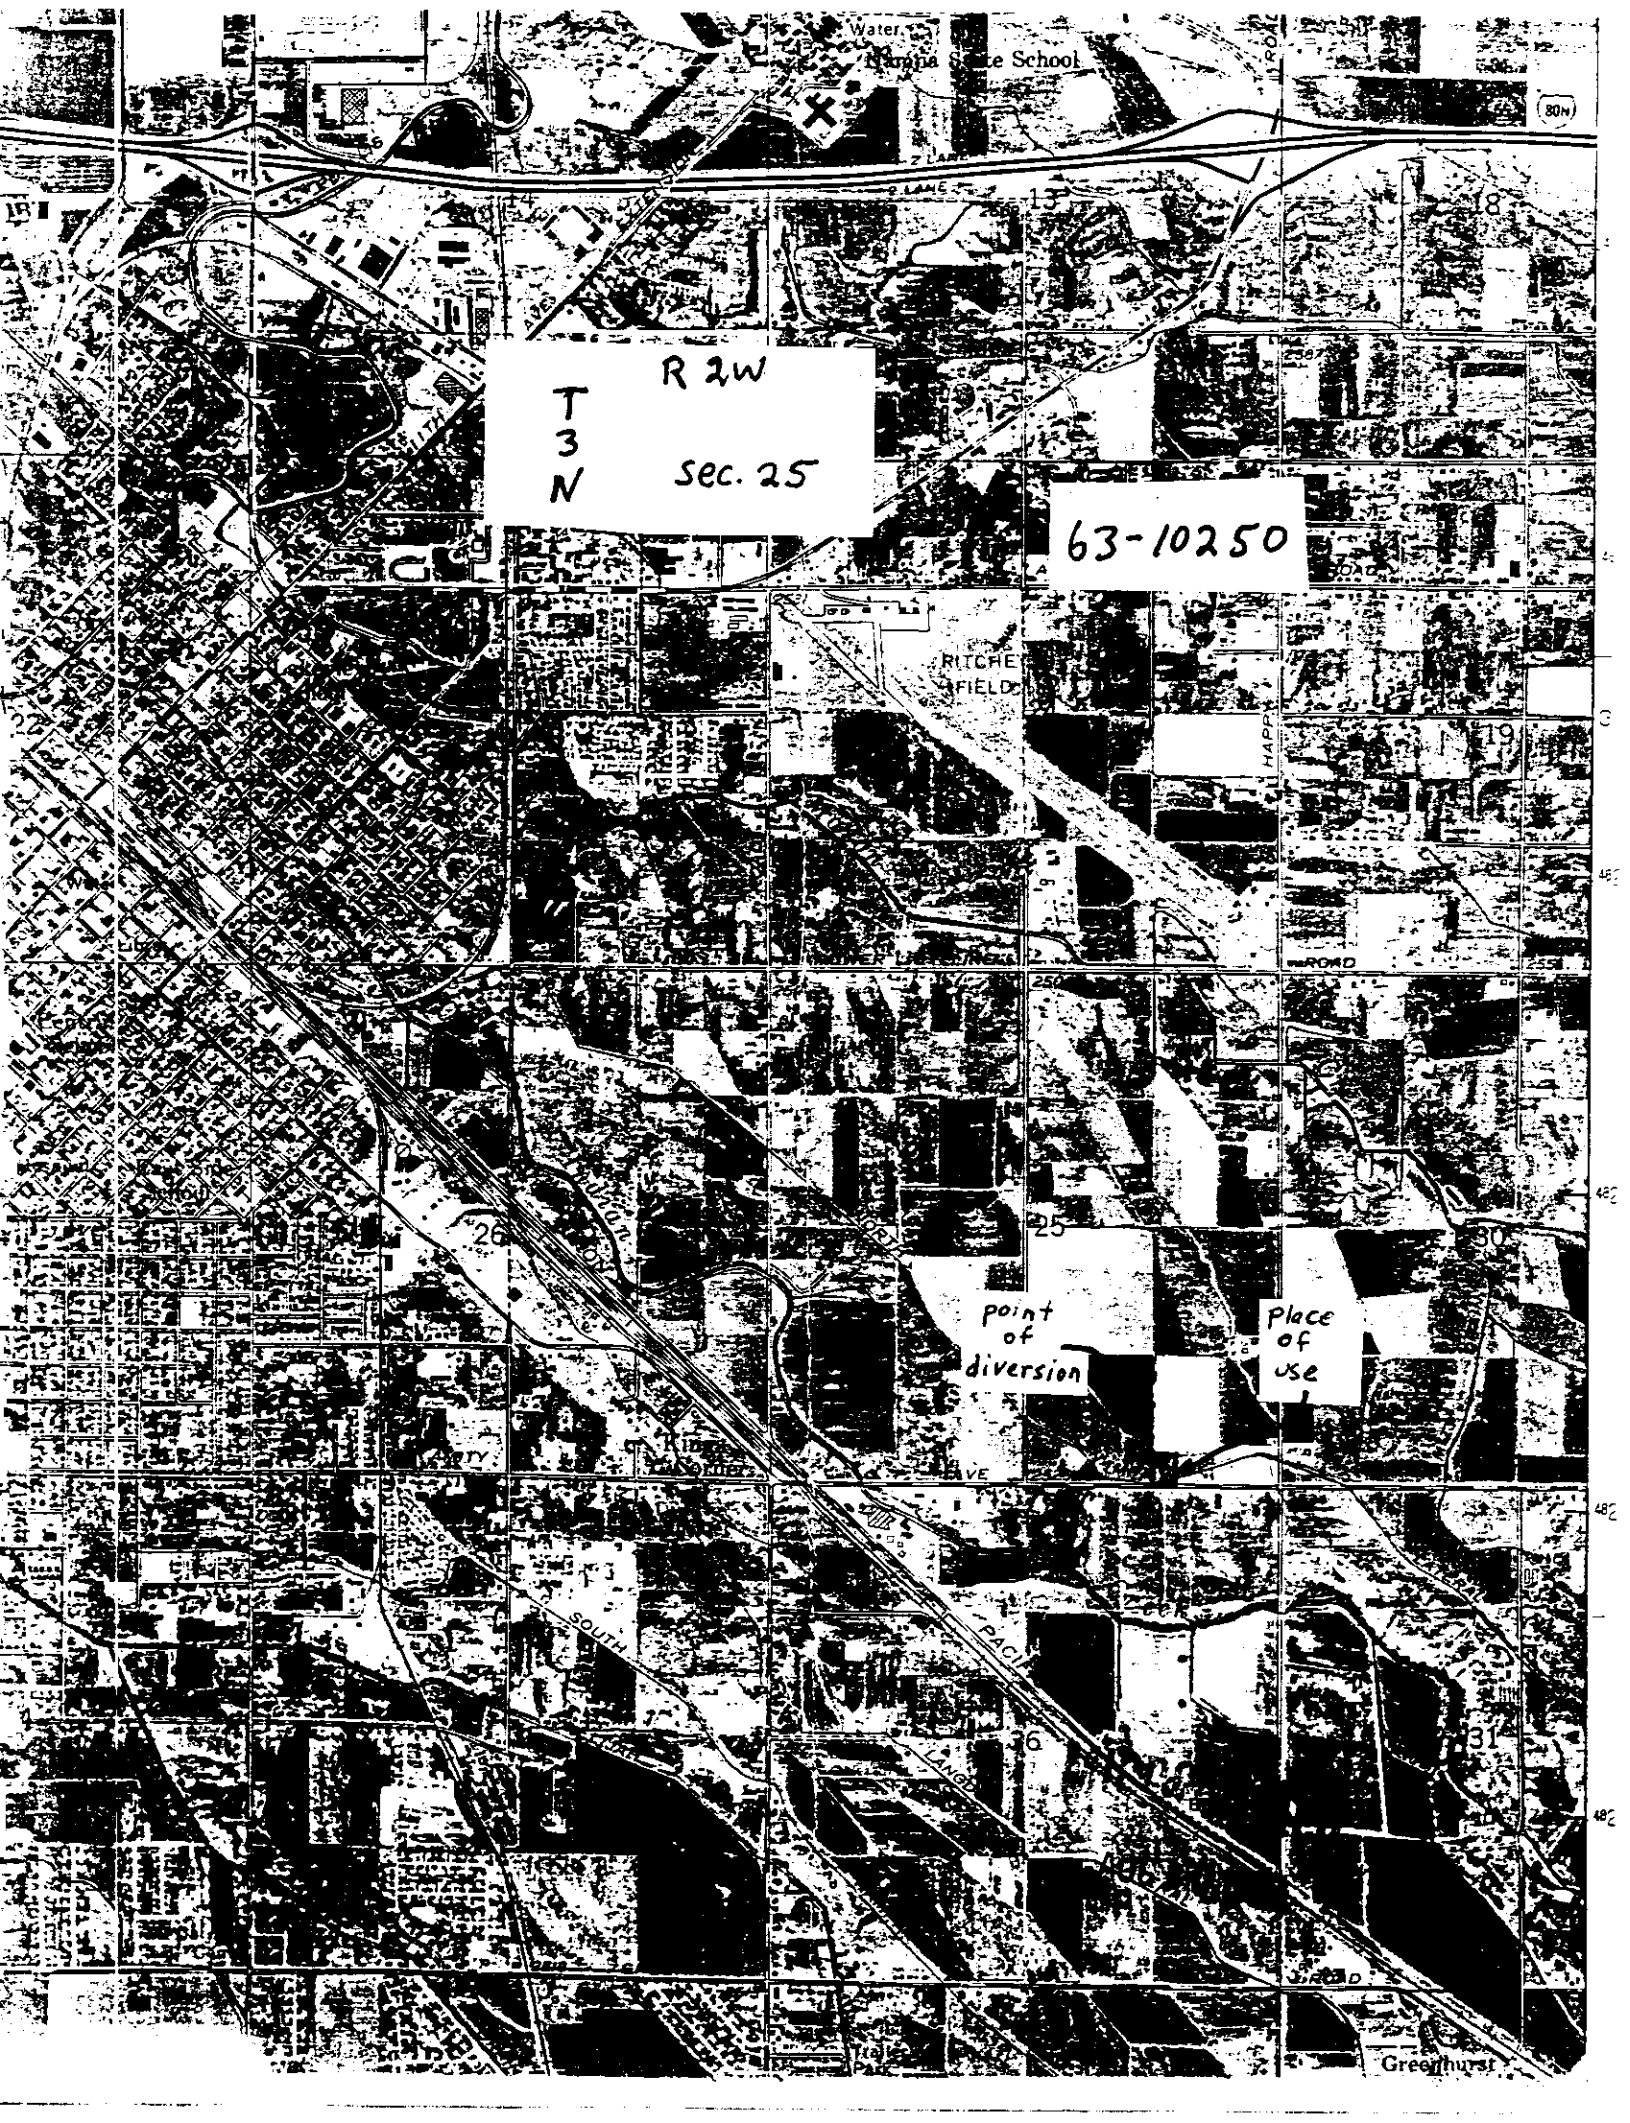

Note: for electrical motors
EFF = 0.70
for diesel motors
EFF = 0.60

Data Requires Verification ☐
Measurement Required -- ☐
Measurement Not Required ☒

Calculation data sources:

Found acres = 1.65
HP = 3 and 1
Dyn Level = 18 from well log
PSI = 35 from gage on pressure tanks

Theoretical for domestic $\frac{(1 \text{ hp})(8.8)(.7)}{(18) + 2.3(35)}$ 0.19 CFS

PROOF DUE NOTICE

RE: PERMIT NO. 63-10250

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before July 1, 1989. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
Secretary/Records Manager

RE: Permit No. 63-10250

Ernest &/or Louann Eptchechoury
3618 Forsythia
Boise, ID 83703

Dear Permit Holder:

Enclosed is a copy of your approved Application for Permit. We direct your attention to the conditions of approval on the fourth page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

The 1982 Idaho Legislature added a requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permit was approved.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a license.

Sincerely,

DAVID R. TUTHILL, JR., P.E.
Supervisor, Water Allocation Section
