Department of Water Resources
Western Regional Office

AFFIDAVIT OF PUBLICATION
STATE OF IDAHO)

) ss.
County of Canyon)

Debra Martin del Campo

of Nampa, Canyon County, Idaho, being first duly sworn, deposes and says:

1. That I am a citizen of the United States of America, and at all times hereinafter mentioned was over the age of eighteen years, and not a party to the above entitled action.

2. That I am the Principal Clerk of the Idaho Press-Tribune, a daily, (except Saturday) newspaper published in the City of Nampa and Caldwell, in the County of Canyon, State of Idaho; that the said newspaper is in general circulation in the said County of Canyon, and in the vicinity of Nampa and Caldwell, and has been uninterruptedly published in said County during a period of seventy-eight consecutive weeks prior to the first publication of the notice, a copy of which is hereto attached.

3. That the notice, of which the annexed is a printed copy, was published in said newspaper

Two times

in the regular and entire issue of said paper, and was printed in the newspaper proper, and not in a supplement.

4. That said notice was published the following dates:

May 10, 17, 1984

Debra Martin del Campo

Subscribed and sworn to before me this 17th
day of May

WATER RIGHT LICENSE

WATER RIGHT NO. 63-10232

Priority: April 23, 1984 Amount: 3.00 CFS 675.0 AFA

This is to certify, that AMALGAMATED SUGAR CO.

ATTN: BASIL TUPYI

P.O. BOX 250

NAMPA, ID 83651

has complied with the terms and conditions of the permit issued pursuant to Application for Permit dated April 23, 1984, and has submitted proof to the Department of Water Resources on April 23, 1984, that water has been applied to a beneficial use; an examination by the Department indicates that the works have a diversion capacity of 3.06 cfs of water from a GROUNDWATER source and that a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>VOLUME</u>
Irrigation	03/15 to 11/15	3.00 cfs	675.0 afa

LOCATION OF POINT OF DIVERSION(S): SESE, Sec. 9, Township 3N, Range 2W
Canyon County

PLACE OF USE: Irrigation

<u>TWN</u>	<u>RGE</u>	<u>SEC</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>TOTAL</u>

		15	NWNW 24				24
		16	NENE 25	NWNE 25			50

Total number of acres irrigated: 150

CONDITIONS/REMARKS:

1. The right to the use of the water hereby confirmed is limited to the amount which can actually be beneficially used and is restricted and appurtenant to the lands or place of use and to the purpose herein described, as provided by the laws of Idaho.
2. This right is subject to all prior water rights and may be forfeited by five years of non-use.
3. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
4. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 4.5 afa per acre for the lands above.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. Witness the seal and signature of the Director, affixed at Boise, this 8TH day of MAY, 1987.

APPLICATION FOR PERMIT

To appropriate the public waters of the State of Idaho

APPROVED

1. Name of applicant Amalgamated Sugar Company Phone 466-3541

Post office address Box 250, Nampa, Idaho 83651 · ATTN: Basil Tupy

2. Source of water supply Groundwater well which is a tributary of N/A

3. Location of point of diversion is SE $\frac{1}{4}$ of SE $\frac{1}{4}$ of Section 9 Township 3 North

Range 2 West B.M. Canyon County, additional points of diversion if any: _____

4. Water will be used for the following purposes:

Amount 3.0 for irrigation purposes from May 1 to October 15 (both dates inclusive)
(cfs or acre-feet per annum)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)

5. Total quantity to be appropriated:

a. 3.0 CFS cubic feet per second and/or b. _____ acre-feet per annum.

6. Proposed diverting works:

a. Description of ditches, flumes, pumps, headgates, etc. _____

Groundwater well tied into existing irrigation piping.

b. Height of storage dam N/A feet, active reservoir capacity _____ acre-feet; total reservoir capacity _____ acre-feet, materials used in storage dam: _____

Period of year when water will be diverted to storage _____ to _____ inclusive.
(Month/Day) (Month/Day)

c. Proposed well diameter is 24 inches; proposed depth of well is 185 feet.
(Well has been developed)

7. Time required for the completion of the works and application of the water to the proposed beneficial use is 1 years (minimum 1 year — maximum 5 years).

8. Description of proposed uses:

a. If water is not for irrigation:

(1) Give the place of use of water: _____ $\frac{1}{4}$ of _____ $\frac{1}{4}$ of Section _____ Township _____
Range _____ B.M.

(2) Amount of power to be generated: _____ horsepower under _____ feet of head.

(3) List number of each kind of livestock to be watered _____

(4) Name of municipality to be served _____, or number of families to be supplied with domestic water _____.

(5) If water is to be used for other purposes describe: _____

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 63-10232, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before July 1, 19 85.
- c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.
- d. Other: An access port or other device as specified by the Department shall be installed by the permit holder to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department.

Witness my hand this 13th day of June, 1984.

J. Glen Sayton

FROM Jim Johnson

DATE March 27, 1987

TO File 63-10232

SUBJECT Field Exam Review

A review of the motor serial numbers on well #6 (the source of water for this right) showed that the motor must have been changed after the exam was made on Right 63-2600. Therefore, the overlap review conditions that normally would be used are waived because the system has been changed. Also, based upon the examination system narrative, item #3, it appears that well #6 is only used for irrigation at the present time.

MEMO

To: State Office

From: Jan Shurte *JS* *Des*

Subject: Source of Water for Permit No. 63-10232

The wastewater source being designated on the exam along with groundwater is included not as a new source, only for clarification of the water right. All the groundwater sources flow through the factory and into the waste system, then into the ponds.

The well under this right has been licensed under 63-2600 for industrial use with a flow of 2,000 gpm. (See attached sheet from exam for 63-2600).

This permit is for 3.0 cfs or 1346.4 gallons per minute which at a loss of efficiency over the years is probably accurate. The pipe from well #6 goes up from the pump and is attached to the ceiling of the factory, then empties into the sewer pump pit making a measurement impossible. Carter measured the flow at the pumps from the wastewater ponds. These pump directly onto the irrigated grounds. I feel 3.0 cfs is an accurate rate of flow for Well #6 and the pumps from the wastewater source (which were actually flowing 3.06 cfs).

5. Water is used for: Processing sugar beets.
6. State whether or not water has been turned into works of diversion: Yes
7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):
Place of use: SE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 9;
Twp. 3 North, Range 2 West, B. M.
See the map

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach?

Remarks: The water is pumped into the tank, and system that is common for the whole of the plant, and used for all purposes necessary in the plant and some of the water is exhausted into Indian Creek and some into the Noble Drain.

See #19375 & 22030

Receipt by JMB
Sent to S.O. 7/7/86

1. Permit No. 63-06-10232

ONE OF THE FOLLOWING BOXES SHOULD BE MARKED TO DESIGNATE YOUR CHOICE:

☒ I choose to have the department make the field examination of this permit; attached is the examination fee. (If this box is marked, complete items 1 thru 8.)

2. Permit Holder: Amalgamated Sugar Company.

3. Post Office Address: BOX 250, Nampa, Idaho 83651

Telephone No. 466-3541

4. Source of Water: Groundwater

5. Extent of Use:
Domestic _____ (No. of households) Stockwater _____ (No. and type of stock)
Irrigation 150 (acres) Other/Remark Presently used as
industrial water supply source.

6. Total rate &/or volume for which proof is submitted 30 cfs _____ acre-feet

7. Show the date water was first diverted and beneficially used under this permit:

1960 industrial use. 1980 irrigation use.

8. Person to contact to accompany the department representative during the field examination:

IT IS MUTUALLY UNDERSTOOD AND AGREED THAT THE CONTRACTOR IS TO CARRY WORKMEN'S COMPENSATION INSURANCE, PUBLIC LIABILITY, PROPERTY DAMAGE, AND IN ADDITION ALL OTHER INSURANCE REQUIRED BY THE LAWS OF THE STATE OF IDAHO, AND TO MAKE TAX DEDUCTIONS ON PAYROLL AS PROVIDED BY FEDERAL AND STATE LAWS. A CERTIFICATE OF INSURANCE FOR PUBLIC LIABILITY, PROPERTY DAMAGE AND WORKMEN'S COMPENSATION COVERAGE SHALL BE FURNISHED TO THE AMALGAMATED SUGAR COMPANY. SUCH LIMITS SHALL NOT BE LESS THAN \$100,000 PUBLIC LIABILITY PER PERSON, \$300,000 PUBLIC LIABILITY PER ACCIDENT, \$50,000 PROPERTY DAMAGE PER ACCIDENT AND APPROPRIATE STATUTORY WORKMEN'S COMPENSATION LIMITS. CONTRACTOR AGREES TO INDEMNIFY AND HOLD THE AMALGAMATED SUGAR COMPANY HARMLESS FROM ANY AND ALL CLAIMS FOR LOSS OR DAMAGE TO PROPERTY OR PERSONAL INJURY THAT MAY ARISE OUT OF THE PERFORMANCE OF THIS AGREEMENT.

CERTIFIED MAIL

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information sheet showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the department to conduct the field examination, but you may change to another certified examiner.

JUL 07 1987

Certified water right examiners are licensed engineers, geologists, or land surveyors certified by the department to conduct water right examinations. The procedure for certifying examiners results from the recently enacted HB 671 and is being developed at this time. A listing

of certified water right examiners will be available from this department when examiners have been certified.

If your permitted use, in fact, has already been examined by the department and you have not asked to have the examination repeated, the fee requirement is not applicable to your permit. If you believe this is the case, please contact the department.

The license examination fee is to be based on the amount of water you indicate you have developed, as listed in item 6 on the examination fee information sheet. The amount of water on which the examination fee is based can be less than the permitted amount, if less water has been diverted and beneficially used. The licensed amount of water, however, will not exceed the amount you claim on the examination fee information sheet. The enclosed license examination fee schedule shows a listing of applicable fees.

FAILURE TO SUBMIT WITHIN THE SIXTY (60) DAY PERIOD, THE FEE OR THE STATEMENT THAT A CERTIFIED EXAMINER HAS BEEN RETAINED TO MAKE THE FIELD EXAMINATION, WILL BE CAUSE TO ADVANCE THE PRIORITY OF THE PERMIT ONE DAY FOR EACH DAY THAT THE FEE SUBMITTAL IS LATE.

FAILURE TO SUBMIT THE FEE OR THE COMPLETED FIELD EXAMINATION REPORT WITHIN A YEAR WILL BE CAUSE TO CONSIDER THE PROOF OF BENEFICIAL USE TO BE INCOMPLETE AND TO LAPSE THE PERMIT.

The attached examination fee information sheet and the fee may be submitted to the following department offices.

RE: Permit No. 63-10232

Dear Permit Holder:

We acknowledge receipt of your statement submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this department.

A field examiner will contact you to arrange to examine your system.

If you have any questions regarding the field examination, please contact this office by phone at 334-2190 or in person in the third floor State Towers Building, 450 West State Street, Boise.

Sincerely,
s/Judy Pense
Secretary

RE: Permit No. 63-10232

Amalgamated Sugar Co.
Box 250
Nampa, ID 83651

Dear Permit Holder:

Enclosed is a copy of your approved Application for Permit. We direct your attention to the conditions of approval on the fourth page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Be sure to note the special condition requiring you to install a measuring device, or a flow measurement port to provide for the installation of measuring equipment by the Department. Enclosed please find a list of measuring device options, and specifications for the installation of the flow measurement port.

Sincerely,

DAVID R. TUTHILL, JR., P.E.
Supervisor, Water Allocation Section
