ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 63-10224, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before May 1, 19 89.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. Other:

A measuring device of a type approved by the Department shall be permanently installed and maintained as part of the diverting works.

Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which permit holder had no control.

This permit is subject to the provisions of Sections 42-205 through 42-210, Idaho Code, restricting the sale, transfer, assignment, or mortgage of this permit. Failure to comply with these provisions is cause for immediate cancellation of this permit.

Use of water under this permit for the purpose of power generation is subordinated to future diversion of water either upstream or downstream for irrigation or other consumptive beneficial uses.

This permit does not constitute Idaho Public Utilities Commission or Federal Energy Regulatory Commission approval that may be required.

Use of water under this permit is subject to control by the watermaster of State Water District No. 63, Boise River.

Witness my hand this 10th day of May, 1984.

RE: OWNERSHIP OF WATER RIGHTS 63-10224 & 63-10793

Dear New Water Right Holder:

We have received correspondence changing ownership of the above referenced water rights to you and we have modified our computer records to reflect this change.

Enclosed is a report listing you as current owner of the rights and other important information about your water rights. **Please review carefully the Conditions of Approval and Remarks.**

Also, please note that as of July 1, 1996, all water right owners are required to report any change in water right ownership and any change of mailing address to the department.

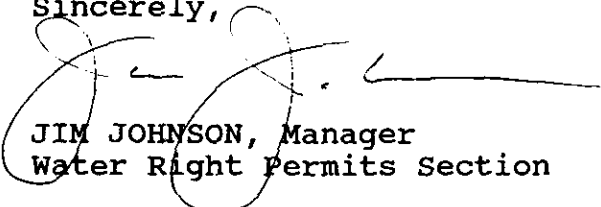

If you have acquired any other water right or have changed your mailing address **PRIOR TO** July 1, 1996, you have until July 30, 1998, to record the ownership and/or address change with the department.

If you acquired other water rights or changed your mailing address **AFTER** July 1, 1996, you must notify the department within 120 days of the change.

Failure to report these changes in a timely manner could result in a \$100 late filing fee.

You can contact any office of the department for more information. If you have any questions concerning your water right listed above you can contact me at (208)327-7947.

Sincerely,

JIM JOHNSON, Manager
Water Right Permits Section

MEMORANDUM

TO: File 63-10224 in the name of Jack D. Stone

FROM: Brenda Chapman

DATE: September 22, 1994

RE: Telephone Conversation

=====

Claudette Stevenson called today concerning the licensing amendment for the above referenced permit. The permit owner, Mr. Stone is deceased. Claudette (his daughter) owns the home now and wanted to know if the license could be issued in her name. I explained our assignment policy to her. I did tell her, however, that although the license would be issued in Mr. Stone's name, we could issue it in care of her. She said that would be fine and will be coming in the office today to sign the amendment form and pay the \$50.00 fee.

RE: WATER RIGHT NO. 63-10224

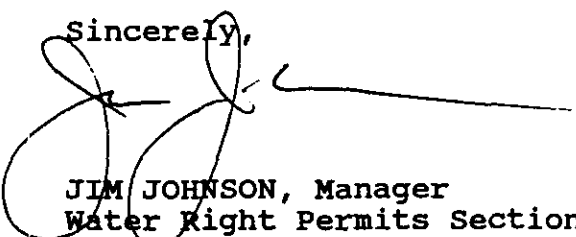

Dear Water Right Holder(s):

The above referenced water right is in the process of being licensed. However, before a license can be issued, your permit must be amended to correspond with the actual use of water found by a representative of our department at the time of the field examination. The enclosed Application for Amendment contains this information. Please review carefully and if you concur, sign the amendment and return with the \$50.00 filing fee within 14 days.

The last page of the Application for Amendment form contains a list of CONDITIONS/REMARKS proposed for the license when it is issued. These conditions/remarks may be modified upon further administrative review.

If you do not concur or have any questions with this information, please contact me as soon as possible. My telephone number is (208) 327-7947.

Sincerely,

JIM JOHNSON, Manager

1.

Measurement Equipment	Type	Make	Model No.	Serial No.	Size	Calib. Date

2. Measurements: Pond area $35 \times 60 \times 3'$ (avg) = $6300 \text{ ft}^3 / 43.5 \text{ ac ft} = .14 \text{ AF}$
 No meas. possible. Pond nearly empty. Inflow down to a trickle.

DI 14 1994

.2AF

E. NARRATIVE/REMARKS/COMMENTS

unnamed stream to pond - 6" outlet to 6" pipe to 3" pipe to 2" feed to Pelton wheel for power generation. Irrigation is from 1½ & 2" lines valved from 6" or 3" penstock.

Dam is steel plate reinforced w/ I-beams, approx 4' tall.
2nd 6" outlet acts as overflow.

Inflow estimated 2-3 gpm. No fees paid, limit to .04 cfs.

Irrigation is minor - lawn, garden, ~~some~~ isolated trees & grapes fed from single lines, estimated no more than ½ acre, (spread over about 3 acre area)

No mining use

Power generation - Pelton wheel (18 FS) to generator, 12V.
from: $P = \frac{QHe}{11.8} = \frac{3(.11)(30)(.5)}{11.8} = .14 \text{ KW}$

No fees paid - limit to .04 cfs.

Pond would fill in ~~12~~ hrs @ .04 cfs, however, this flow is likely to be rarely attainable in this drainage; also, intent is to begin accumulation in fall & store through winter.

Implied permit limit is 10x 4.5 AFA = 45 AFA. Only .5 ac irrigation found. Storage of additional .2 AF is well within permit limits. Recommend redefining portion of permit to reflect minor storage.

Overlap is groundwater right for irrig of same acres, plus domestic use (63-10793). Use restrictive condition.

~~* No fees due~~ - Device requirement waived.

Have conditions of permit approval been met? yes ~~no~~ *

DEC 14 1994

F. FLOW CALCULATIONS

Measured Method:

☒ Additional Computation Sheets Attached

System capacity = .11 cfs limited to .04 -
proof filing

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

allow .03 cfs for irrig.
allow .04 cfs for power

$$V_{IR} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = .5 \times 4.5 \text{ AFA} = 2.25 = 2.3 \text{ AF}$$

$$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = .03 \text{ cfs} \times 1.9835 \times 240 = 14.6 \text{ AF}$$

$$V = \text{Smaller of } V_{IR} \text{ and } V_{D.R.} = 2.3 \text{ AF}$$

2. Volume Calculations for Other Uses:

POWER: 2.5 AF

Note: power generation only occurs during those times when there are sufficient flows to irrigate.

Limit power Vol to irrigation volume combined w/ residual storage, if any.

H. RECOMMENDATIONS

1. Recommended Amounts

Beneficial Use	Period of Use		Rate of Diversion Q (cfs)	Annual Volume V (afa)
	From	To		
IRR.	3/15	11/15	.03	2.3
IRR STORAGE	1/1	12/31		.2
IRR FR. STORAGE	1/1	12/31		.2
POWER	1/1	12/31	.04	2.5
Totals:			.04	2.5

2. Recommended Amendments

☐ Change P.D. as reflected above ☐ Add P.D. as reflected above ☒ None
☐ Change P.U. as reflected above ☐ Add P.U. as reflected above ☐ Other

BOISE ID 83706

RE: Water Right No. 63-10224

Dear Water Right Holder(s):

Department water right records show that you divert water from the Snake River or its tributaries under a water right that has a priority date later than December 29, 1976. This is the priority of the established minimum stream flow of the Snake River at the Weiser Gage (Weiser) in the amount of 4,750 cubic feet per second.

Because of the continuing drought conditions in the Snake River Basin, department hydrologists project that during 1992, there could be periods when the required minimum flow will not be satisfied due to low flows of the Snake River. The department urges you to not divert at a higher rate than authorized by your water right and to not use your right in any manner different than authorized. In addition, when the minimum flow will not be satisfied or is not being satisfied, you are required to cease diverting water under your water right, because your right is of later priority than the minimum stream flow at Weiser.

If the department determines the minimum flow will not be satisfied, the department will advise you and will provide as much lead time as possible in requiring that you temporarily cease your diversion of water. The greatest likelihood for this to occur is during a period from mid-June to late June.

While the department expects good cooperation from junior water right holders, water users should be aware that Section 42-352, Idaho Code, provides for penalties of up to \$100 per day for unauthorized diversions of water.

The department has contacted both the Idaho Power Company and the U.S. Bureau of Reclamation with respect to the timing of storage releases from upstream reservoirs for flow enhancement purposes. This type of coordination could minimize the impact on

existing water users and reduce the need to curtail diversions.

The department has scheduled public information meetings relative to this potential regulation as follows:

Mountain Home - June 4, 1992 - 10:00 a.m. - gymnasium at
North Elementary School, 290 E. 12th N.

Caldwell - June 4, 1992 - 7:00 p.m. - Ballroom in the
Student Union Building, Albertson College of Idaho,
2112 Cleveland

If you have questions concerning this letter or wish to provide the name of a different contact person or address to receive department correspondence, please contact the department.

Sincerely,

L. GLEN SAXTON
Chief, Water Allocation Bureau

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 63-10224

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise at (208)334-2190.

Sincerely,

Rita Fleck

PROOF DUE NOTICE

RE: PERMIT NO. 63-10224

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before May 1, 1991. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
Secretary/Records Manager

RE: Permit No. 63-10224

Jack D. Stone
7590 Highland Valley Rd.
Boise, ID 83706

Dear Permit Holder:

Enclosed is a copy of your approved Application for Permit. We direct your attention to the conditions of approval on the fourth page.

Please be advised that your application for permit has been approved because we no longer wait for approval from the Federal Energy Regulatory Commission (FERC) or the Idaho Public Utilities Commission (PUC) when the flow is less than 25 cfs and the power to be generated is less than 500 HP. However, you may still need to obtain approval from FERC and/or PUC.

Be sure to note the special condition requiring you to install and maintain a measuring device at your point of diversion. We have enclosed a description of the different types of measuring devices accepted by this office.

Please be advised that prior applications for permit have been filed to appropriate water from your source which may impact the availability of water to be used under this permit. Therefore, you should be sure to analyze the impact of these rights before making a major investment into your water use project.

The 1982 Idaho Legislature added a requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permit was approved.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a license.

Sincerely,

DAVID R. TUTHILL, JR., P.E.
Supervisor, Water Allocation Section
