SUBJECT P/D Description

The source on this exam is spring(s) and since exam was conducted subsequent to the B/U Rules & Regulations (10/86), the p/d should have been described to nearest 10-acre tract. However, I spoke with Carter Fritschle (the examiner who handled this exam) and he stated that a 40-acre description was as close as he could get because this type of exam is written up from the permit and verified with USFS personnel. The 40-acre description is all FS personnel had also.

Therefore, the exam should be accepted and the license issued with the p/d identified to 40-acre tract. Returning the exam to the region would be of no value at this point.

Dear Permit Holder:

Enclosed are copies of your approved Applications for Permit. We direct your attention to the conditions of approval on the fourth page of each permit.

The 1982 Idaho Legislature added a requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue cards must be completed and returned to this office as soon as you commence constructions, no later than one year from the date the permits were approved.

We have enclosed instructions entitled "Making Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop these permits into licenses.
