Source is a well about 120 ft. deep with 6" casing.
 Depth to water varies with season. A submersible pump with a 1 HP motor pumps water from the well to a pressure tank. Water is then distributed to the three households via 3/4" pipe. Water is used for domestic + lawn irrigation purposes at 4920 Collister + 4935 Shirley, while it is used for irrigation only at 4900 Collister which has city water for domestic residence at 4935 Shirley has a swimming pool. ☒ See Remarks on page 4 for continuation purposes.

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = 1 \text{ acre} \times 4.5 \text{ af/acre/season} = 4.50 \text{ af}$

$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = .03 \times 245 \text{ days} \times 1.9835 = 14.564 \text{ af}$

$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} = 4.5 \text{ a-f.}$

2. Volume Calculations for Other Uses:

~~Domestic: .06 cfs x 365 days x 1.9835 = 43.44 af~~

~~Recreation: .04 cfs x 365 days x 1.9835 = 28.96 af~~

Department of Water Resources

Dear Sirs;

Permit No. 63-10072

This examination fee is being paid under protest, because all required fees for the perfection of this license were paid June 15, 1983. This application was for a completed well development with application of water continuous since June 1970.

An application for proof of beneficial use was submitted June 15, 1983 and I was led to believe an examination would be made in short order and the license granted.

Now because of unexplained delays in completing the field examination an additional examination fee is required. It was understood that the fee paid with the application for permit met all requirements through issuance of the license. The examination delay was the fault of the Department and not the applicant. The present examination requirement for additional examination fees required by House Bill 671 appears to duplicate fees previously paid June 15, 1983.

Please consider a refund of this \$50 examination fee since all required fees were paid June 15, 1983, or at least a portion of the fees which are duplicated in the original application for permit and House Bill 671.

I request a prompt examination of this completed project before additional fees are assessed or other requirements made before issuance of the license.

Respectfully,

Kenneth E. Oliason

CERTIFIED MAIL

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information sheet showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the department to conduct the field examination, but you may change to another certified examiner.

Certified water right examiners are licensed engineers, geologists, or land surveyors certified by the department to conduct water right examinations. The procedure for certifying examiners results from the recently enacted HB 671 and is being developed at this time. A listing

JUL 07 1988

of certified water right examiners will be available from this department when examiners have been certified.

If your permitted use, in fact, has already been examined by the department and you have not asked to have the examination repeated, the fee requirement is not applicable to your permit. If you believe this is the case, please contact the department.

The license examination fee is to be based on the amount of water you indicate you have developed, as listed in item 6 on the examination fee information sheet. The amount of water on which the examination fee is based can be less than the permitted amount, if less water has been diverted and beneficially used. The licensed amount of water, however, will not exceed the amount you claim on the examination fee information sheet. The enclosed license examination fee schedule shows a listing of applicable fees.

FAILURE TO SUBMIT WITHIN THE SIXTY (60) DAY PERIOD, THE FEE OR THE STATEMENT THAT A CERTIFIED EXAMINER HAS BEEN RETAINED TO MAKE THE FIELD EXAMINATION, WILL BE CAUSE TO ADVANCE THE PRIORITY OF THE PERMIT ONE DAY FOR EACH DAY THAT THE FEE SUBMITTAL IS LATE.

FAILURE TO SUBMIT THE FEE OR THE COMPLETED FIELD EXAMINATION REPORT WITHIN A YEAR WILL BE CAUSE TO CONSIDER THE PROOF OF BENEFICIAL USE TO BE INCOMPLETE AND TO LAPSE THE PERMIT.

The attached examination fee information sheet and the fee may be submitted to the following department offices.

Dear Mr. and Mrs. Olason:

Re: Permit No. 63-10072

This office acknowledges receipt of the statement of beneficial use postcard submitted for this permit received on June 15, 1983.

Before a license can be issued, a field examination must be made by a representative of this department. We cannot tell just when this examination will be made, but our examiner will contact you to schedule the exam at a convenient time.

If you have any questions regarding the field examination, please contact our Western Regional office at 334-2190.

RE: PERMIT NO. 63-10072

DEAR PERMIT HOLDER:

ENCLOSED IS A COPY OF YOUR APPROVED APPLICATION FOR PERMIT. WE DIRECT YOUR ATTENTION TO THE CONDITIONS OF APPROVAL ON THE FOURTH PAGE.

PLEASE BE ADVISED THAT NUMEROUS PRIOR APPLICATIONS FOR PERMIT HAVE BEEN FILED TO APPROPRIATE WATER FROM YOUR SOURCE, TO BE USED ON DESERT LAND ENTRY AND/OR CAREY ACT LANDS. DEVELOPMENT OF THESE WATER RIGHTS IS CURRENTLY PREVENTED BY THE U.S. BUREAU OF LAND MANAGEMENT. HOWEVER, IF THE LANDS ARE RELEASED FOR DEVELOPMENT, THE ASSOCIATED WATER RIGHTS WILL RECEIVE WATER PRIOR TO YOUR WATER RIGHT ENCLOSED. THEREFORE BE SURE TO ANALYZE THE FUTURE IMPACT OF THESE RIGHTS BEFORE MAKING A MAJOR INVESTMENT IN A WATER SUPPLY SYSTEM.

AGREEMENT TO SHARE WATER FROM WELL

THIS AGREEMENT, Made and entered into by and between LARRY G. FINE and SALLY L. FINE, husband and wife, hereinafter called Grantors, and **ALFRED H. LUNA and JEWEL F. LUNA**, husband and wife, hereinafter called Grantees,

WITNESSETH:

WHEREAS, Grantees are the owners of that certain real property in Ada County, Idaho, described as follows, to-wit:

**The Southerly 70 feet of Lot 6, Block 2,
of the amended Plat of WATTLES SUBDIVISION,
recorded in Book 11 of Plats at Page 591,
records of Ada County, Idaho,**

and

WHEREAS, Grantors have purchased from Alfred H. Luna and Jewel F. Luna, husband and wife, that certain adjacent real property in Ada County, Idaho, described as follows, to-wit:

**The Southerly 70 feet of Lot 10, Block 2
of the amended Plat of WATTLES SUBDIVISION,
recorded in Book 11 of Plats at Page 591,
records of Ada County, Idaho,**

on which property there is located a completed water well which was developed and equipped by the aforesaid Alfred H. Luna and Jewel F. Luna for the purpose of supplying water for domestic use to the two parcels situate on Lot 10, Block 2, and to the two adjacent parcels situate on Lot 6, Block 2, of the aforesaid subdivision, and

WHEREAS, Grantors have heretofore agreed with the aforesaid Lunas that they, the said Grantors, will enter into agreements to share Water from the aforesaid well on their property with the other three parcels,

NOW, THEREFORE, in consideration of the mutual covenants

herein contained, it is agreed by and between the parties as follows:

1. Grantees are hereby granted the right to use water from the aforesaid well for domestic purposes, and are further granted an easement over and upon the above described property on which the aforesaid well is located for the purpose of maintaining, repairing and replacing necessary water lines to supply Grantees' above described property with water from said well for domestic purposes.

2. Grantees shall maintain, repair and replace said water lines at their own expense, and hereby agree that all costs of maintenance and operation of said well and the pump thereon shall be shared equally with the owners of the aforementioned three adjacent parcels, respectively.

3. It is mutually understood and agreed that the electric power for the operation of the pump on said well is, and will continue to be, charged to the owners of the property on which said well is located (currently the Grantors herein), and that such owners shall have the right to demand and receive of the owners of the three adjacent properties, respectively, a pro-rata share of the reasonably estimated additional costs of power each month as a result of the operation of the well pump.

Should any three of the four owners of the properties concerned agree that a separate meter for said pump should be installed (it being understood that such separate meter would probably be of the "demand" type and result in higher monthly costs for said power), then and in that event a separate meter shall be requested of the power company and the four owners shall share the same equally, the three owners of the adjacent parcels pay-

ing to the owners of the property on which said well is located their pro-rata share of said separate meter charges each month, promptly upon receipt of the statement from the power company. The owners of the property on which said well is located shall have the right to cut off the water supply to any property the owners of which do not comply with this provision to pay their fair share of the power bill for such pump, whether on a separate meter or otherwise.

4. So long as any of the four parcels is using water from said well, the respective owners agree to share on a pro-rata basis the costs of repairs and maintenance of the well and the costs of repairs, maintenance, and replacement (if necessary) of the pump thereon.

5. Any of the owners of the three properties adjacent to the property on which said well is located may withdraw from this agreement at any time and for any reason, it being understood that some or all of said owners may wish to develop their own water supply, or that a public water supply may subsequently become available to them.

6. Grantors shall, concurrently herewith, enter into an agreement similar in all intents and purposes to this agreement, with each of the owners of the two other parcels of the aforesaid Lot 6 or Lot 10, Block 2; and, upon the sale by Grantors of the parcel on which said water well is located, hereinabove described, Grantors shall forthwith have said agreements ratified by the new owners.

7. It is specifically understood and agreed that neither the Grantors herein nor their successors in interest to the parcel on which said water well is located do nor shall guar-

antee a continued adequate water supply to the aforesaid adjacent properties; PROVIDED, HOWEVER, that Grantors do agree, and their said successors shall agree, that such adequate supply will continue to be made available to said adjacent properties for so long as said well will produce such supply.

8. The rights herein granted and the liabilities herein assumed shall run with the land, and shall extend to, be binding upon, and inure to the benefit of the respective successors in interest to said parcels of land.

IN WITNESS WHEREOF, The parties have hereunto set their hands this 24th day of February, 1971.
