ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 63-10034, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before November 1, 19 84.
- c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.
- d. Other: An access port or other device as specified by the Department shall be installed by the permit holder to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department.

Witness my hand this 17th day of October, 1983.

Chief, Operations Bureau

**NOTICE OF
AMENDED APPLICATION
FOR PERMIT**

Notice is hereby given that application No. 83-18034 in the name of J.R. Simplot Co. was filed on March 16, 1983 for the diversion of 9.8 cfs from a groundwater source with a point diversion within the NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 19, NW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 20, Twp. 4N, Rge. 3W, B.M. to be used for Industrial & Irrigation purposes from January 1 to December 31 and March 15 to November 15 within portions of the SW $\frac{1}{4}$, Sec 17, E $\frac{1}{2}$ NE $\frac{1}{4}$, NW $\frac{1}{4}$, NENE, SESE, Sec 18, NENE, NW $\frac{1}{4}$, Sec 19, NW $\frac{1}{4}$, Sec 20, Twp 4N, Rge 3W; and the SESE, Sec 12, NE $\frac{1}{4}$, S $\frac{1}{2}$ SE $\frac{1}{4}$, Sec 13, NE $\frac{1}{4}$, Sec 24; Twp 4N, Rge 4W, B.M. for a total of 959 acres.

The applicant now proposes to amend the application by changing the place of use to the W $\frac{1}{2}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$, Sec 17; N $\frac{1}{2}$, NENE, SESE, Sec 18; NENE, NW $\frac{1}{4}$, Sec 19; NW $\frac{1}{4}$, Sec 20; Twp 4N, Rge 3W; & the SESE, Sec 12, NE $\frac{1}{4}$, S $\frac{1}{2}$ SE $\frac{1}{4}$, Sec 13; NE $\frac{1}{4}$, Sec 24; Twp 4N, Rge 4W, B.M., for a total of 999 acres.

Any protest against the approval of the proposed amendment must be filed with the Department of Water Resources, Statehouse, 450 W. State St., Boise, Idaho 83720 on or before August 15, 1983.

TO: FILE 63-10034

FROM: DANIEL A. NELSON

DATE: 10/23/01

SUBJECT: RESOLUTION OF CONVERSATION MEMORANDUM DATED
3/19/1990

Over the past few months I have been working with Vic Conrad of JR Simplot in order to resolve the questions he raised with Steve Lester in a memo dated 3/19/1990. In our discussions I mentioned the 11/20/1986 memo from Don Martin of JR Simplot outlining their water rights included with the field exam and the Supplemental Information submitted by the field examiner, Carter Fritschle. All of the information provided in the field exam suggested that the Ethanol Plant use was covered under previous rights.

After discussing this information with Mr. Conrad, we agreed that the Ethanol Plant was covered under the other rights since the entire system is tied together. The industrial use has shifted from one use to another through conservation efforts of JR Simplot, but the amount of water use has not changed. All of the uses including the Ethanol Plant deal with potato processing, and should not be considered different than the original potato processing uses listed on the original licenses. The Ethanol Plant was in place prior to 1987, which would also qualify it for an accomplished transfer through the adjudication process.

Therefore, my review of the field exam for this permit is that it should be licensed as Mr. Fritschle recommended during his field exam and not include the industrial use under this permit.

Respectfully,

Daniel A. Nelson
Sr. Water Right Agent

Supplemental Information

Simplot has five active wells that are the sources for water rights 63-2731, 63-3107, 63-4968, 63-5036, 63-5037, 63-5039, 63-7244, and this water right. All seven of these water rights overlap this right either for the point of diversion or the place of use or both. However, the actual amount of water being used does not appear to exceed the amount of water licensed for water rights 63-2731 and 63-3107. These two water rights have a combined diversion rate of 12.748 cfs (5721 gpm). The maximum industrial usage appears to be 12.48 cfs (5600 gpm). This makes the industrial portion of the four claims and license 63-7244 superfluous. Also, the extent of the irrigation claimed on 63-5036, 63-5037, and 63-5039 seems unlikely since much of the land claimed has not yet been incorporated into their wastewater reuse system. The following information on the wells was obtained 7-1-87 and 7-8-87. The estimated flow rates were supplied by Don Martin.

Well # 4: Located in the SE 1/4 of the NE 1/4 of Section 19. It has a Fairbanks Morse 60 HP motor (SN 269460) and a Pomona turbine pump with an estimated flow of 400 gpm.

Well # 6: Located in the NW 1/4 of the SE 1/4 of Section 19. It has a General Electric 100 HP motor (SN SVJ 519117) and a Peerless turbine pump with an estimated flow of 1000 gpm.

Well # 8: Located in the NE 1/4 of the SW 1/4 of Section 20. It has a U.S. Motors 125 HP motor (SN C-2949-01-272) and a Peerless turbine pump with an estimated flow of 2700 gpm. This estimate may be too high, since the field exam for 63-7244 shows a flow of 2350 gpm from what appears to be Well # 8.

Well # 9: Located in the NE 1/4 of the SE 1/4 of Section 19. It has a U.S. Motors 125 HP motor (SN R-9982-03-826) and a Peerless turbine pump with a measured flow of 1500 gpm.

Well # 10: Located in the NW 1/4 of the SW 1/4 of Section 20. It has a U.S. Motors 125 HP motor (SN R-9982-05-953) and a Peerless turbine pump with a measured flow of 2700 gpm.

Wells # 1, # 2, # 3, # 5, and # 7 are no longer in service.

The water from Wells # 8 or # 10 supply Plant II. The water from Well # 9 supplies Plant I and can be piped to either of two storage tanks. A 250,000 gallon storage tank is west of the well, and a 100,000 gallon storage tank is east of the well. Two 75 HP centrifugal pumps located in the building on the south side of the 100,000 gallon storage tank pump water from the storage tank to Plant I. A 10 HP centrifugal pump is used to supply domestic water when the plant is not in production.

Supplemental Information (continued)

The waste water from the processing plants is collected on the south side of State Highway 19, and it is piped through a 20" concrete tile to the recovery plant on the north side of State Highway 19. The five 75 HP Fairbanks Morse centrifugal pumps ("potato pumps") pump the water into an 18" PVC underground pipe with seven discharge points (the lagoon and open ditches). Approximately 75 % of the irrigation water required for these lands can be supplied by the wastewater from the plant. Three relift pumps recirculate the tailwater from the fields back into the irrigation system so none of the wastewater from the processing plants leaves the land as surface runoff. The crops being grown are corn, grass for green chop hay, barley, and a research plot with 12 acres of trees.

I was not shown the well described in water right 63-7678 that is licensed for stockwater use at the feedlot.

Simplot

Approximate locations of Simplot's active wells (used for industrial purposes) and the pumping stations used to return irrigation runoff to the irrigation system.

Pumping station #1 has 2 pumps, one 25 H.P. and one 15 H.P.

Pumping station #2 has one 25 H.P. pump.

Pumping station #3 has one 25 H.P. pump.

Acreage of each field irrigated with waste water from the potato processing plants.

Note: Simplot has additional irrigated land that has not been "connected" to the wastewater.

WELL LOCATIONS AT CALDWELL

Well numbers 1, 2, 3 and 9 are located in the NE 1/4 of the SE 1/4 of Section 19.

- A. No. 1 Well was drilled in 1943 under Permit No. 63-5036. Formerly referred to as the Main Well, it has been abandoned because of the amount of sand pumped.
- B. No. 2 Well was drilled in 1942 under Permit No. 63-4968. Formerly referred to as the Sulphur Well and used only for Boiler Feed Water, has been abandoned because of moving the Boilers to Plant II.
- C. No. 3 Well was drilled in 1947 under Permit No. 63-5039. Formerly referred to as the South Well, has been abandoned for Plant use except for a small amount used in the Bacteria Lab.
- D. No. 9 Well was drilled in 1977 under Permit No. 63-10034. This Well is the source of water for Plant I.

Well No. 4 is located in the SE 1/4 of the NE 1/4 of Section 19.

- A. The No. 4 Well was drilled in 1944 and is used as the main water supply for the Alcohol Plant, the Recovery Plant and the Division Offices. Permit No. 63-5038.

Well numbers 5, 7 and 10 are located in the NW 1/4 of the SW 1/4 of Section 20.

- A. Well No. 5 was drilled in 1957 under Permit No. 63-3107. Formerly known as the Parking Lot Well, this well has not been used for about ten (10) years.
- B. No. 7 Well was drilled in 1969 under Permit No. 63-7244. This was to be the main water supply for Plant II, but because it pumped so much sand a new Well was drilled (No. 8) and this Well was not used after 1972. Last year when the Technical Center Well did not produce they put a small pump back in the Well and used 200-300 G.P.M.'s.
- *C. No. 10 Well was drilled in 1985 under Permit No. 63-2731. Because No. 8 Well was no longer supplying an adequate supply of water for Plant II it was decided to drill another Well.

RE: CALDWELL WELLS
Page 2

Well No. 6 is located in the NW 1/4 of the SE 1/4 of Section 19.

- A. Well No. 6 was drilled in 1961 under Permit No. 63-5037. This Well is used as a supply of water for the Accounting Offices, Soilbuilders Office and Fire Systems in that area. It also is used to water the cattle South of the Plant. On rare occasions it is used as Plant I water (when repairs to No. 9 Well are necessary).

Well No. 8 is located in the NE 1/4 of the SW 1/4 of Section 20.

- A. Well No. 8 was drilled in 1972. I have a letter dated 06-09-72 from Ron Graves asking the State to change the point of Diversion from the NW 1/4 of the SW 1/4 Section 20 to the NE 1/4 of the SW 1/4 Section 20 using Permit No. 63-7244.

* The Permit number for No. 10 Well was, apparently, originally issued in 1948 for the original four (4) Wells.

No. 1 - Main Well	2.25
No. 2 - Sulphur Well	3.77
No. 3 - South Well	2.25
No. 4 - Hog House Well	2.25 C.F.S.

Of those four (4) Wells, No. 4 is the only one that is used. No. 10 Well is capable of something less than 7.0 C.F.S..

Dr. [Name]
[Address]
[City, State, Zip]

Dear [Name]:

We are planning to conduct a series of experiments in the area of your water right permit (the permit number is [Number]). The week of June 13 to July 3, 1987, is the best time to conduct your water right experiment. It is important that you schedule a day and time when the above referenced water right is in use. Please note that your system should be tested during the summer months.

One of the conditions of approval for your water right is that you provide a detailed description of the water right. This description should include the following information: (1) the location of the water right, (2) the type of water right, (3) the amount of water right, (4) the use of the water right, (5) the source of the water right, (6) the method of measurement, (7) the method of control, (8) the method of distribution, (9) the method of storage, (10) the method of disposal.

If there is a problem with scheduling or control of the water right, please call us and make arrangements as soon as possible.

Sincerely,

[Signature]

STATE OF IDAHO DEPARTMENT OF WATER RESOURCES

CLAIM TO A WATER RIGHT

Under the provisions of Section 42-243, Idaho Code, any person using or claiming rights to the public waters of Idaho established by diversion and application to a beneficial use must file a claim with the Department of Water Resources on or before June 30, 1983. Exempted from this filing are single family domestic uses as defined in Section 42-230(d), Idaho Code. Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.

Notice is hereby given that **J. R. Simplot Company**

to a right to the diversion and beneficial use of the surface or ground water. The extent and nature of said claim is as follows:

Date of priority (When was the water first applied to a beneficial use) 1943, March 10

A claim is not acceptable on a ground water source with a priority later than March 25, 1963 or on a surface water source with a priority later than May 20, 1971. An exception is that a claim may be filed on single family domestic use from a ground water source.

Describe the source of water: (Name of stream, lake, spring, etc., or ground water)

Ground water tributary to

Describe the purpose for which the water has been used and the time during the year when you have used the right claimed:

Dear Mr. Belzer:

We are in receipt of your letter concerning the field exam fee sheet for Permit No. 63-10034. *→ file*

You are correct in that we have received the fee sheet. The problem occurred when the computer code for receiving the sheet was not entered in time and a letter was printed and sent. Please disregard our reminder letter and I will document the file accordingly.

I hope this mix-up has not caused a great deal of inconvenience.

Sincerely,

Jan Shurte

EXAMINATION FEE REMINDER

*Exam Fee Sheet
submitted
but not
entered
yet. JP*

Dear Permit Holder:

Earlier this year you were mailed a certified letter by our state office, which described a new law related to your water right permit. The water right permit to which this law applies is identified by the number at the top of the mailing label above. The purpose of this letter is to act as a reminder of the new law and to warn you that your permit is now losing priority daily.

As described in the certified letter, House Bill 671 enacted by the 1986 Idaho Legislature requires payment of a fee before this Department can conduct the field examination needed to issue a license confirming use of water under the permit. As an alternative to submitting the fee, the Department will accept a field examination report completed by a certified water right examiner from the private sector. The certified letter described the procedure for selecting the latter alternative, whereby you initially notify us regarding which water right examiner you have selected, and provide a statement from the examiner as verification.

The date of priority of your water right permit is now being delayed one day for each day the response is late. Also, if the fee or completed field examination report are not submitted within a year from the sixty-first day after the certified letter was mailed, the permit may be lapsed and rendered invalid. The fee, or notice that a private field examination will be conducted, should be submitted as soon as possible if you wish to maintain your permit in a valid status.

Enclosed please find an Examination Fee Information Sheet, with the License Examination Fee Schedule printed on the back. This sheet should be submitted if either the fee payment option or the private examination option is selected. If you have questions or desire assistance in this matter, please feel free to contact this office.

Sincerely,

David R. Tuthill Jr.

CERTIFIED MAIL

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information sheet showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the department to conduct the field examination, but you may change to another certified examiner.

Certified water right examiners are licensed engineers, geologists, or land surveyors certified by the department to conduct water right examinations. The procedure for certifying examiners results from the recently enacted HB 671 and is being developed at this time. A listing

of certified water right examiners will be available from this department when examiners have been certified.

If your permitted use, in fact, has already been examined by the department and you have not asked to have the examination repeated, the fee requirement is not applicable to your permit. If you believe this is the case, please contact the department.

The license examination fee is to be based on the amount of water you indicate you have developed, as listed in item 6 on the examination fee information sheet. The amount of water on which the examination fee is based can be less than the permitted amount, if less water has been diverted and beneficially used. The licensed amount of water, however, will not exceed the amount you claim on the examination fee information sheet. The enclosed license examination fee schedule shows a listing of applicable fees.

FAILURE TO SUBMIT WITHIN THE SIXTY (60) DAY PERIOD, THE FEE OR THE STATEMENT THAT A CERTIFIED EXAMINER HAS BEEN RETAINED TO MAKE THE FIELD EXAMINATION, WILL BE CAUSE TO ADVANCE THE PRIORITY OF THE PERMIT ONE DAY FOR EACH DAY THAT THE FEE SUBMITTAL IS LATE.

FAILURE TO SUBMIT THE FEE OR THE COMPLETED FIELD EXAMINATION REPORT WITHIN A YEAR WILL BE CAUSE TO CONSIDER THE PROOF OF BENEFICIAL USE TO BE INCOMPLETE AND TO LAPSE THE PERMIT.

The attached examination fee information sheet and the fee may be submitted to the following department offices.

RE: Permit No. 63-10034

Dear Permit Holder:

We acknowledge receipt of your statement submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this department.

A condition of approval of your original permit required the installation of an access port which, according to the proof card submitted by you, has not been installed. An access port must be installed prior to the time a field examination is made.

A field examiner will contact you to arrange to examine your system.

If you have any questions regarding the field examination, please contact this office by phone at 334-2190 or in person in the third floor State Towers Building, 450 West State Street, Boise.

Sincerely,
s/Judy Pense
Secretary

DEAR PERMIT HOLDER:

ONE OF THE CONDITIONS OF APPROVAL OF YOUR WATER PERMIT NO. 63-10034 WAS THAT PROOF OF THE EXTENT OF YOUR BENEFICIAL USE MUST BE SUBMITTED TO THIS OFFICE ON OR BEFORE NOVEMBER 01, 1984. (SEE LAST PAGE OF YOUR APPROVED PERMIT OR YOUR LAST APPROVED EXTENSION REQUEST). ENCLOSED IS A POSTCARD WHICH MAY BE USED TO SUBMIT THE REQUIRED PROOF.

IF YOU HAVE NOT FULLY COMPLETED YOUR PROJECT, AND YOU OR A PREVIOUS OWNER OF THIS PERMIT HAVE NOT RECEIVED A PRIOR EXTENSION OF TIME, YOU MAY REQUEST AN EXTENSION OF TIME IF THE DELAY IS FOR REASONABLE CAUSE AS PROVIDED IN SECTION 42-204, IDAHO CODE. IF YOU HAVE BEEN PREVENTED FROM PROCEEDING BY A GOVERNMENTAL AGENCY OR BY LITIGATION, MORE THAN ONE EXTENSION OF TIME CAN BE GRANTED. AN EXTENSION OF TIME REQUEST FORM IS ENCLOSED FOR YOUR CONVENIENCE.

EITHER THE BENEFICIAL USE POSTCARD OR A REQUEST FOR AN EXTENSION OF TIME MUST BE RECEIVED BY THIS DEPARTMENT ON OR BEFORE THE ABOVE DESCRIBED PROOF DUE DATE. IF NEITHER IS RECEIVED, THE DEPARTMENT WILL SEND YOU A LAPSE NOTICE. WITHIN SIXTY (60) DAYS OF THE MAILING OF THE LAPSE NOTICE, THE PERMIT WILL NO LONGER BE OF ANY FORCE NOR EFFECT.

RE: PERMIT NO. 63-10034

DEAR PERMIT HOLDER:

ENCLOSED IS A COPY OF YOUR APPROVED APPLICATION FOR PERMIT. WE DIRECT YOUR ATTENTION TO THE CONDITIONS OF APPROVAL ON THE FOURTH PAGE.

PLEASE BE ADVISED THAT NUMEROUS PRIOR APPLICATIONS FOR PERMIT HAVE BEEN FILED TO APPROPRIATE WATER FROM YOUR SOURCE, TO BE USED ON DESERT LAND ENTRY AND/OR CAREY ACT LANDS. DEVELOPMENT OF THESE WATER RIGHTS IS CURRENTLY PREVENTED BY THE U.S. BUREAU OF LAND MANAGEMENT. HOWEVER, IF THE LANDS ARE RELEASED FOR DEVELOPMENT, THE ASSOCIATED WATER RIGHTS WILL RECEIVE WATER PRIOR TO YOUR WATER RIGHT ENCLOSED. THEREFORE BE SURE TO ANALYZE THE FUTURE IMPACT OF THESE RIGHTS BEFORE MAKING A MAJOR INVESTMENT IN A WATER SUPPLY SYSTEM.

BE SURE TO NOTE THE SPECIAL CONDITION REQUIRING YOU TO INSTALL A MEASURING DEVICE, OR AN ACCESS PORT TO PROVIDE FOR THE INSTALLATION OF MEASURING EQUIPMENT BY THE DEPARTMENT. ENCLOSED PLEASE FIND A LIST OF MEASURING DEVICE OPTIONS, AND SPECIFICATIONS FOR THE INSTALLATION OF THE ACCESS PORT.

WE HAVE ENCLOSED INSTRUCTIONS ENTITLED "MAKING PROOF OF BENEFICIAL USE". PLEASE READ THE INSTRUCTIONS CAREFULLY SINCE YOU MUST TAKE FURTHER ACTION TO DEVELOP THIS PERMIT. ALSO ENCLOSED FOR YOUR CONVENIENCE IS THE STATEMENT OF BENEFICIAL USE POSTCARD THAT MUST BE SUBMITTED WHEN YOUR PROJECT IS COMPLETED.

Dear Ron:

Unfortunately, one of the filings for Simplot has returned again.

Because the application had to be re-advertised, due to the change in the legal description for the number of acres irrigated, there is a \$20 fee required for the additional newspaper costs. Departmental policy requires this fee to be submitted before processing can continue.

I hope all of the excess paperwork these filing have involved has not caused you too much inconvenience. As soon as this fee is received, the application will be sent to the State office for approval.

RE:

Change in Claims + Apps. to agree w/ Maps

Bruce Belzer, Asst. Corporate Counsel for Simplot confirmed that the acreages in the W¹/₂NE¹/₄, Sec. 18 and the W¹/₂NW¹/₄, Sec. 17, were irrigated as shown on the map on each water right filed.

Therefore, I am changing the claims with a spot note on each to show this. Also the application & each ^{claim} will be re-advertised.

RE: Caldwell Plants Water Rights

Dear Ms. Grover:

This will acknowledge receipt of your letter dated April 19, 1983. In response to your first question, your hunch was correct - the legal should be NE 1/4 SW 1/4, Section 18, to conform to the map.

Additionally, I have submitted a combined application for permit on well numbers 7 and 9. You indicated in your letter that we will be receiving a \$45.00 refund because of the combined filing. Your assistance in this matter is greatly appreciated. Thank you.

Sincerely,

Dear Mr. Belzer:

In reviewing the various claims and applications submitted, some questions have come up.

On the claims submitted for well nos. 1, 3, 4, and 6 at the Caldwell plants all appears to be in good order except for the 15 acres claimed in the NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 18, Twp. 4 N, Rge. 3 W. As you can see on your map (a copy is enclosed), it shows no acreage irrigated in this quarter-quarter, but does show some being irrigated in the NE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 18, Twp. 4 N, Rge. 3 W. Does the legal need to be changed to reflect this? If so, please contact us and any corrections can be made prior to the advertising of these claims.

Also submitted were two applications for well nos. 7 and 9 to irrigate this same land. The 15 acres mentioned above can also be changed on these applications if need be. Since both of these wells are used for the same acreage and are being applied for as new uses, only one application needs to be filed. The separate claims for each well are filed correctly since each are claiming a different priority date. I am enclosing a partially completed application for permit reflecting both wells serving this land. Please review the application, sign it and return it to us. The filing fees for the other two applications were \$270.00 total. The fee for the one application at 9.8 cfs is \$225.00. Therefore, if you file the one application, a \$45 refund will be mailed to you.

Please respond as soon as possible with this information and/or forms. If you have any questions, do not hesitate to contact us.

Sincerely,

JAN GROVER
