CONDITIONS OF APPROVAL AND REMARKS

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Domestic use is for 1 home.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. Witness the seal and signature of the Director, affixed at Boise, this 19TH day of DECEMBER, 1995.

RE: Visit from Monroe Lee

=====

Monroe Lee, to whom license 63-10010 was issued last month, visited me today to talk about why the irrigation use authorized on his permit was not licensed. He said that in the spring of 1991 he spread grass seed on his pasture and irrigated it all summer with hand lines. He stated that the grass was not very successful. Mr. Lee also said that health problems have precluded him from irrigating in the years since 1991.

Mr. Lee brought me three canceled checks written to Idaho Power in 1991 to demonstrate that he used water from his well to irrigate his pasture. However, without more information the checks cannot be positively linked to the Lee well. Mrs. Lee called me later to say that she will try to obtain some additional information.

Mr. Lee also brought photographs of the pasture and his sprinkler pipe. He said the photos were taken earlier this month. The photos to appear to show that sagebrush has been cleared from the pasture. But, it is not obvious that pasture grass or any valuable crop has been cultivated on the land.

Mr. Lee left after stating emphatically that he believes he should be granted a water right license for irrigation purposes.

1/24/96

Mr. Lee called this morning to say that his search for more supporting documentation has proven fruitless.

RE: Water Right No. 63-10010

Dear Mr. Lee:

Thank you for calling this morning to discuss your water right license. As we discussed, the irrigation use authorized on your permit was not licensed because our field examiner reported that it had not been developed. She found no evidence of beneficial use of water for irrigation purposes on your property. Moreover, on your March 25, 1991, request for extension of time to provide proof of beneficial use, you stated, " 35 acres currently used for bark and agriculture storage. Not developed for irrigation as of yet." Your request was denied, and you submitted proof of beneficial use on June 25, 1991.

Your license can be amended to include the use of water for irrigation purposes only if you provide strong evidence to demonstrate that you did, in fact, divert the water and make beneficial use of it for irrigation purposes prior to June 25, 1991. If you have such evidence, please submit it to me by February 1, 1996.

If you are contemplating establishing a new use of water for irrigation purposes on your property, you may file an Application for Permit with IDWR at any time.

If you have any questions, please contact me at 208-327-7946 in Boise.

Sincerely,

Shelley Walter Keen

E. NARRATIVE/REMARKS/COMMENTS

Domestic use for one home, minor irrigation < 1/2 ac.

Irrigation use was not developed. No beneficial use
apparent. Permit holder indicates that system has
been activated at some point (above measurement info)
however there is no ongoing irrigation and land has
not been cleared of sagebrush nor planted to another
crop.

Domestic use utilizes smaller pump & pressure tanks
to ~1300' buried line for delivery to one mobile
home.

No overlaps. No SRBA claim filed.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 63-10010

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. Enclosed is an order advancing the priority of the permit since the proof was received after the proof due date. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

I note that the permit issued to you by the department requires the installation of a flow measurement port to allow the department to determine the rate of diversion. The proof which you submitted does not show that you have installed this equipment.

The installation of the flow measurement port must be complete by the time the department representative conducts the examination of your system unless the department has rescinded the requirement prior to the field examination. In some cases, the equipment requirement can be rescinded because the equipment cannot be physically installed, is not appropriate or can be accommodated with other measuring methods.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise at (208)334-2190.

Sincerely,

Rita Fleck
Secretary/Records Manager

RE: Permit No. 63-10010

LAPSE NOTICE

Under the provisions of Sec. 42-218a of the Idaho Code, Permit No. 63-10010 lapsed since the Department could not approve the request for extension of time.

I suggest that you file the enclosed proof of beneficial use form for that portion of the project completed. Within one year of the time you actually intend to develop a water right, you should file a new application for permit. Since Idaho is now under a mandatory permit procedure to develop a water right, the new application will provide an additional period of time for development, although the priority date will be later in time.

Please feel free to contact our regional offices if you wish to have assistance in completion of the new application.

Sincerely,

L. GLEN SAXTON, Chief
Water Allocations Bureau

Dear Mr. and Mrs. Lee:

Re: Permit No. 63-10010

Enclosed is a copy of the denied request for extension of time which you submitted to the department in connection with the above referenced permit. Sec. 42-204, Idaho Code, provides that the department can only grant one extension of time. Please note that the department has previously granted an extension of time in connection with this permit.

I suggest that you file the enclosed proof of beneficial use form for that portion of the development completed. Then, you can file a new application within one year of the time you actually intend to develop the remainder of the water right. Since Idaho is now under a mandatory permit procedure to develop a water right, the new application will provide an additional period of time for development, although the priority date will be later in time.

Please feel free to contact any of our regional offices if you wish assistance in completion of the new application.

Sincerely,

L. GLEN SAXTON

PROOF DUE NOTICE

RE: PERMIT NO. 63-10010

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before May 1, 1991. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

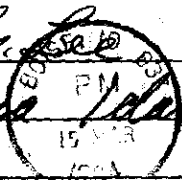

Rita Fleck
Secretary/Records Manager

RE: PERMIT NO. 63-10010

DEAR PERMIT HOLDER:

ENCLOSED IS A COPY OF YOUR APPROVED APPLICATION FOR PERMIT. WE DIRECT YOUR ATTENTION TO THE CONDITIONS OF APPROVAL ON THE FOURTH PAGE.

BE SURE TO NOTE THE SPECIAL CONDITION REQUIRING YOU TO INSTALL A MEASURING DEVICE, OR AN ACCESS PORT TO PROVIDE FOR THE INSTALLATION OF MEASURING EQUIPMENT BY THE DEPARTMENT. ENCLOSED PLEASE FIND A LIST OF MEASURING DEVICE OPTIONS, AND SPECIFICATIONS FOR THE INSTALLATION OF THE ACCESS PORT.

PLEASE BE ADVISED THAT NUMEROUS PRIOR APPLICATIONS FOR PERMIT HAVE BEEN FILED TO APPROPRIATE WATER FROM YOUR SOURCE, TO BE USED ON DESERT LAND ENTRY AND/OR CAREY ACT LANDS. DEVELOPMENT OF THESE WATER RIGHTS IS CURRENTLY PREVENTED BY THE U.S. BUREAU OF LAND MANAGEMENT. HOWEVER, IF THE LANDS ARE RELEASED FOR DEVELOPMENT, THE ASSOCIATED WATER RIGHTS WILL RECEIVE WATER PRIOR TO YOUR WATER RIGHT ENCLOSED. THEREFORE BE SURE TO ANALYZE THE FUTURE IMPACT OF THESE RIGHTS BEFORE MAKING A MAJOR INVESTMENT IN A WATER SUPPLY SYSTEM.

THE 1982 IDAHO LEGISLATURE ADDED A REQUIREMENT THAT AS A PERMIT HOLDER YOU MUST COMMENCE THE EXCAVATION OR CONSTRUCTION OF DIVERTING WORKS WITHIN ONE YEAR OF THE DATE THE PERMIT WAS ISSUED, AND YOU MUST PROCEED DILIGENTLY UNTIL THE PROJECT IS COMPLETED. THE ENCLOSED BLUE CARD MUST BE COMPLETED AND RETURNED TO THIS OFFICE AS SOON AS YOU COMMENCE CONSTRUCTION, NO LATER THAN ONE YEAR FROM THE DATE THE PERMIT WAS APPROVED.

WE HAVE ENCLOSED INSTRUCTIONS ENTITLED "MAKING PROOF OF BENEFICIAL USE". PLEASE READ THE INSTRUCTIONS CAREFULLY SINCE YOU MUST TAKE FURTHER ACTION TO DEVELOP THIS PERMIT INTO A LICENSE.
