CONDITIONS OF APPROVAL AND REMARKS

5. The right holder shall use the full allotment of appurtenant surface water rights in conjunction with groundwater diverted under this right.
6. Two points of diversion are located within Lot 2 (SESW), S30, T10S, R24E.
7. Points of diversion are located within Lot 7, Blk. 1, Springdale Acres Subdivision.
8. Right 45-07375 is also diverted through the points of diversion described above.
9. Places of use are located within Lots 2-14, Blk. 1, and Lots 1-9, Blk. 2, Springdale Acres Subdivision.
10. Domestic use is for 22 homes.
11. Domestic use does not include lawn, garden, landscape, or other types of irrigation.
12. This right when combined with all other irrigation rights shall provide no more than 0.02 cfs per acre nor exceed a combined annual volume of 44.0 AF for irrigation of the lands above.
13. The total combined rate of diversion under this right and Right 45-07375 shall not exceed 0.43 cfs nor a combined annual diversion volume of 57.2 AF.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code.

RE: Water Right No. 45-07697

Dear Mr. Jones:

Enclosed is a copy of the Water Right License issued on Permit No. 45-07697.

As we discussed in our conversation today, this right is supplemental to and interconnected with the system licensed under right no. 45-07375. License 45-07375 identifies one well as the point of diversion. The second well developed under 45-07695 that was connected to the existing system needs to be added to license 45-07375.

I have enclosed a partially completed 'Application for Transfer of Water Right' form with instructions for your use in adding this point of diversion to license 45-07375. I have highlighted the portions of the form requiring your attention. Please send the completed form and filing fee to our Southern Region office whose address can be found on the back of the instructions.

If you have any questions, you may contact me directly at (208) 327-7944.

TO: File No. 45-07697 *CZO*
FROM: Cindy Zimmerman
SUBJECT: Review of Beneficial Use Field Report

=====

This right is supplemental to license 45-07375 for the same 22 homes within Springdale Acres Subdivision.

The following adjustments were made on the field report to reflect the overlapping uses of License 45-07375:

1. Annual Volume.
 - a. Irrigation, 11 acres x 4.0 AF/acre = 44.0 AF.
 - b. Domestic, 22 homes x 0.6 AF/home = 13.2 AF.
 - c. Total combined annual volume = a + b
= 44.0 + 13.2 = 57.2 AF.
 - d. Maximum volume for 45-07697 = 57.2 - License 45-07375
= 57.2 - 26.4
= 30.8 AF.

this System consists of 1ea 6" Well 218 Ft deep w/ static water level @ 65-70 ft., tied directly to an 8" well 218 Ft deep w/a static water level of 65-70 ft. The 6" well is used as the Primary water source and Pumps into 8 100 gal Pressure tanks. If demand causes the 6" Well Pressure to fall below a certain point, the 8" Well is activated to meet demands. All lots have been STUBBED in to Mainline.

This Permit adds additional water NOT covered under License 45-07375.

Based on measurements & theoretical, this System produces .59 CFS. AND is adequate to receive H₂O the proof asks for:

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 45-07697

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed you should complete and submit this form immediately.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Sincerely,

BRENDA MILLER
Technical Records Specialist

Re: Application for Permit No. 45-07697

Dear Applicant (s):

The Department of Water Resources acknowledges receipt of your water right application for permit. The application has been assigned the above referenced identification number. Please refer to this number in all further correspondence.

This office will be advertising the application in the South Idaho Press on 2/7 & 2/14/92. A period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Very truly yours,

James E. Stanton
Sr. Water Resource Agent
