CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount that can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use as to implement accepted standards of diversion and use.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 4.0 afa per acre for the lands above.
6. This right uses the same well as Right 45-02402 and when combined with Right 45-02402 shall not exceed a diversion rate of 4.9 cfs.

H. REMARKS AND OVERLAP REVIEW ANALYSIS

This water right seeks to expand the place of use of a previous right.

capacity of system obviously exceeds permitted rate. Pump motor is same as 45-2402, but now has booster pump in line.

Actual place of use is determined to be 95 acres. In combination with license 45-2402 diversion rate shall not exceed 4.9 cfs or 1220 AFA. Recommended diversion rate = original system capacity / total acres $\times$ # acres under this permit. $= 4.9 / 320 \times 20 = 0.31$ cfs

I. RECOMMENDATIONS

RE: License Exam, S. Keen/B. Chapman Memos

Exam was returned to Southern for review. The exam was originally done by a summer temporary and should not have gone directly to the S.O. w/o checking. Apparently several have made it to S.O. & back to Southern

I found several problems which I have corrected to the best available information: ① P/D was described incorrectly

② Diversion rate was wrong

③ Period of use was updated to new standard.

④ Conditions were added.

Thank you for bringing this and other files to our attention, Shelley & Brenda. Keep up the good work!

RE: Returning the Field Report to Southern Region

=====

Yesterday Brenda Chapman reviewed the field report for permit 45-07513 and conclude that it did not contain enough information to confirm the right. I have reviewed the report, and I concur with Brenda's conclusion.

This morning I spoke with Allen Merritt, Southern Regional Manager, and he agreed that the report should be returned to his region for completion.

RE: Recommendation to Return Exam to the Region

=====

The exam on the above referenced permit should be returned to the region for the following reasons:

1. The place of use listing conflicts with the map drawn on the front of the exam. The actual maps could have more information on them.
2. There were no measurements taken or any pumping plant information from which to calculate a theoretical.
3. The acres and rate recommended exceeds the permit parameters.

CERTIFIED MAIL

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information sheet showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the department to conduct the field examination, but you may change to another certified examiner.

Certified water right examiners are licensed engineers or geologists certified by the department to conduct water right examinations. The procedure for certifying examiners results from the recently enacted HB 671 and is being developed at this time. A listing of certified examiners is enclosed.

FEB 15 1995

right examiners will be available from this department when examiners have been certified.

If your permitted use, in fact, has already been examined by the department and you have not asked to have the examination repeated, the fee requirement is not applicable to your permit. If you believe this is the case, please contact the department.

The license examination fee is to be based on the amount of water you indicate you have developed, as listed in item 6 on the examination fee information sheet. The amount of water on which the examination fee is based can be less than the permitted amount, if less water has been diverted and beneficially used. The licensed amount of water, however, will not exceed the amount you claim on the examination fee information sheet. The enclosed license examination fee schedule shows a listing of applicable fees.

FAILURE TO SUBMIT WITHIN THE SIXTY (60) DAY PERIOD, THE FEE OR THE STATEMENT THAT A CERTIFIED EXAMINER HAS BEEN RETAINED TO MAKE THE FIELD EXAMINATION, WILL BE CAUSE TO ADVANCE THE PRIORITY OF THE PERMIT ONE DAY FOR EACH DAY THAT THE FEE SUBMITTAL IS LATE.

FAILURE TO SUBMIT THE FEE OR THE COMPLETED FIELD EXAMINATION REPORT WITHIN A YEAR WILL BE CAUSE TO CONSIDER THE PROOF OF BENEFICIAL USE TO BE INCOMPLETE AND TO LAPSE THE PERMIT.

The attached examination fee information sheet and the fee may be submitted to the following department office.

Re: Permit 45-7513

Dear Mr. Parrish:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the system.

Field examinations must be done while the system is in operation. For this reason we concentrate on irrigation permits during the summer months and do examinations on permits for other uses during the non-irrigating months.

If you have any questions regarding the field examination, please contact our office.

Sincerely,

Gary L. Funderburg
