This topographic map depicts the Milner area in Jerome County, Idaho. The map is overlaid with a grid and shows various geographical and man-made features. Key elements include:

- Water Features:** The Milner River flows from the top left towards the center. The Milner Dam is located on the right side of the river. A spillway is marked with an elevation of 4134. A canal is shown in the lower left, with a main line and a south line. An aqueduct is located in the lower right.
- Infrastructure:** The Pacific Railroad runs horizontally across the middle of the map. A road is shown in the lower center. A gaging station and a substation are marked near the railroad.
- Topography:** Contour lines indicate elevations ranging from 4100 to 4250 feet. Benchmarks (BM 4159, BM 4145, BM 4246) are marked throughout the area.
- Administrative Boundaries:** The map shows the boundaries of Jerome County and the towns of Milner and Twin Falls.
- Handwritten Annotations:** The letters "T.I.O.S." are written in the center of the map. The letters "R. 21E" are written near the railroad. The number "30" is written in the upper left, and "32" is written in the lower right.

Dear Mr. Tuthill:

Please refer to recent correspondence regarding Water Permit No. 45-7484 in the name of Full Circle, Inc., which covers a water well located at Milner, Idaho.

Review of my file indicates that Full Circle, Inc. has executed an assignment of permit which makes the Union Pacific a party to said permit. In order that my file may be current, would appreciate receiving a copy of the basic permit. Along with copy of permit, please enclose your invoice for payment and I will ensure that you are properly reimbursed.

Gentlemen:

This office acknowledges receipt of the Assignment of the above referenced permit to you.

Enclosed for your records is a copy of the permit. Be sure to note the special conditions of approval on the fourth page that identify requirements necessary for developing the permit into a licensed water right.

In reviewing the permit, we find that the requirement for submitting proof of construction of works and application of water to beneficial use has been met. The next step towards licensing of the permit will be for our regional office to examine your water right system.

If you have any questions regarding this matter, please feel free to contact us.

Dear Dave:

I am writing at this time in regard to my continued investigation of the use of water on or along our right of way in the State of Idaho.

Through my recent investigations, I found that our Lessee, Full Circle Inc., drilled a well on Railroad property which is currently covered by a Railroad lease.

It was noted that Full Circle Inc. had applied for and received a Permit from the Department of Water Resources, identified as 45-7484. Subsequently I requested Full Circle to execute one of the Department of Water Resources Assignment of Permit Forms which they have now done. Please find attached the Original of said Assignment and I ask that you place this in the active file in order that the Union Pacific might be a party to said Permit.

Dave, I appreciate the help you have given in the past and look forward to seeing you again in the near future.

Sincerely,

Re: Permit 45-7484

Gentlemen:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the system.

Field examinations must be done while the system is in operation. For this reason we concentrate on irrigation permits during the summer months and do examinations on permits for other uses during the non-irrigating months.

If you have any questions regarding the field examination, please contact our office.
