

State of Idaho
Department of Water Resources

WATER RIGHT LICENSE

WATER RIGHT NO. 45-07478

Priority: September 25, 1981

Maximum Diversion Rate:

2.14 CFS

This is to certify, that DOUBLE EAGLE INC
C/O GARY FUNK
3173 N 4900 E
MURTAUGH ID 83344

has complied with the terms and conditions
of the permit, issued pursuant to Application for Permit dated August 25, 1981; and
has submitted Proof of Beneficial Use on August 26, 1992. An examination indicates
that the works have a diversion capacity of 2.140 cfs of water from a GROUNDWATER
source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	04/01 to 10/31	2.14 CFS	

LOCATION OF POINT(S) OF DIVERSION:

NWSW , Sec. 16, Township 11S, Range 20E
TWIN FALLS County

Department of Water Resources

WATER RIGHT LICENSE

WATER RIGHT NO. 45-07478

CONDITIONS/REMARKS:

4. The right holder shall use the full allotment of appurtenant surface water rights, to the extent they are available, in conjunction with groundwater diverted pursuant to this right.
5. This right to divert groundwater shall not be used if the surface water right(s) appurtenant to the place of use is sold, transferred, leased or used on any other place of use without the approval of the Department.
6. This right is limited to the irrigation of 480 acres within the place of use described above in a single irrigation season.
7. This right when combined with Right 45-02275 and all other rights shall provide no more than .02 cfs per acre nor exceed a combined annual diversion volume of 5830.8 af for the place of use described above.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code.
Witness the seal and signature of the Director, affixed at Boise, this 4th
day of FEBRUARY, 1995.

BEFORE THE DIRECTOR OF THE DEPARTMENT OF WATER RESOURCES
OF THE
STATE OF IDAHO

IN THE MATTER OF EVALUATING	)	
WHETHER DEVELOPMENT OF 20,000 ACRES	)	
OF IRRIGATED LAND WOULD	)	MEMORANDUM DECISION
CAUSE A SIGNIFICANT REDUCTION	)	& ORDER
IN TRUST WATER AVAILABLE FOR	)	
POWER PRODUCTION	)	

This matter having come before the Director of the Idaho Department of Water Resources (IDWR) as a result of the Swan Falls water right settlement, the Director finds, concludes and orders as follows:

FINDINGS OF FACT

1. "Trust water" is that portion of an unsubordinated water right used for hydropower generation purposes which is in excess of a minimum stream flow established by state action.

2. Section 42-203C(1), Idaho Code, provides as follows:

If an applicant intends to appropriate water which is held in trust by the state of Idaho pursuant to subsection (5) of Section 42-203B, Idaho Code, the director shall consider, prior to approving the application, the criteria established in Section 42-203A, Idaho Code, and whether the proposed use, individually or cumulatively with other existing uses, or uses reasonably likely to exist within twelve (12) months of the proposed use, would significantly reduce the amount of trust water available to the holder of the water right used for power production that is defined by agreement pursuant to subsection (5) of Section 42-203B, Idaho Code, and, if so, whether the proposed reduction is in the public interest. (emphasis added).

3. The IDWR conducted a study to estimate the reduction in hydropower generation which would result from the development of the first 20,000 acres of newly irrigated land (new development) authorized under the Swan Falls settlement. The study included several steps as follows:

- a) Identify the location of the potential new development and the related water sources;
- b) Estimate the net depletion resulting from new irrigation development of these lands;

MICROFILMED

MAR 22 1990

c) Route the reduced flows through the aquifer and surface flow systems to the affected power plants;

d) Compute the loss in potential generation at each plant resulting from the reduced flows.

4. Step a) in Finding of Fact No. 3. was accomplished by plotting land location as shown by the water right applications and permits being considered. The 20,000 acres are generally located as follows:

Acreage	General Location	Water Source
9,885	Snake River Plain	Snake Plain Aquifer
5,315	Valleys adjacent to the Plain	GW trib. to Snake Plain Modeled area
4,800	Scattered areas	GW and surface water from areas not trib. to Snake Plain Modeled area

20,000 acres

5. Step b) in Finding of Fact No. 3. was accomplished using simulation models which have previously established the "base" flows conditions.

6. Step c) in Finding of Fact No. 3. involved a groundwater component and a surface water component. Withdrawals from the Snake Plain aquifer and from the tributary valleys affect the water in storage in the aquifer. Storage changes alter the gradients which eventually reduce aquifer discharges. If a new withdrawal is continued long enough, the aquifer outflows will be reduced by an amount approaching the magnitude of the withdrawal and resulting depletion.

7. The IDWR digital model of the Snake Plain aquifer (groundwater model) was used to simulate this process and predict the outflow reductions after 15, 30, 45 and 60 years of annual withdrawals by new irrigation development at the assumed locations. The results of the groundwater model run indicate that aquifer outflows would be reduced by the following percentages of the annual depletion:

Year	Outflow Reduction (Acre Feet)	Percent of Annual depletion (%)
15	4,600	23
30	9,000	45
45	14,700	73
60	15,200	76

8. Significant reduction should be determined by evaluating the depletion when its effect on the river is fully felt. Incremental change in the percent of annual depletion is very small sixty (60) years after the first

MICROFILMED

MAR 22 1990

depletion. The percent of annual depletion in the 60th year adequately represents the long-term effect of aquifer depletions on Snake River flows.

9. The groundwater model predicts that approximately eighty percent (80%) of the reduction in river flow would occur in the Milner to King Hill reach with the remainder (20%) occurring between Blackfoot and Minidoka Dam.

10. The IDWR routed the reduced flows through the aquifer and river system using a digital model of the Snake River system (river model). This model and its computed base conditions are described in "Stream Flows in the Snake River Basin, 1985 Conditions of Use and Management" Open-File Report, September 1986. The groundwater depletion was input to the river model assuming uniform depletions each month.

11. The river model computes flows at numerous points in the Snake Plain Basin including sites at, or near to, the power plants. These computed flows were used to compute power generation and were compared to similarly computed generation for base flow conditions.

12. The annual reduction in hydropower generation 60 years after the development of 20,000 new acres is estimated to be approximately 2.8 million KWH in power facilities upstream from the Murphy gage on the Snake River.

13. In cooperation with staff of the Idaho Public Utilities Commission (IPUC), IDWR determined the rate impact of lost hydropower generation caused by the new development in the trust water area of the Snake River basin assuming that new thermal generation capacity is obtained to replace the lost hydropower generation.

14. The cost impact to the rate base of replacing the lost hydropower generation with thermal generation capacity must be considered in the evaluation of any significant reduction in hydropower generation, but the statutes and Water Appropriation rules do not require consideration of impacts to the rate base resulting from other aspects of the new development such as new pumping loads.

15. Step d) of Finding of Fact No. 3. was determined using an IPUC power supply model (power model) associated with the rate making process. Data from the 1966-1985 period was used to establish a base flow. The depletions were then input to the power model and the difference in ability to meet firm load requirements and to make economic spot market sales and purchases was determined. A comparison of the output of the power model run to base conditions produced increased total IPCO power supply costs due to Snake River depletions.

16. The power model shows that the impact of reduced hydropower generation at IPCO's facilities on the Snake River above the Hell's Canyon complex as a result of the development of 20,000 new acres will result in an average increase in IPCO's power costs of \$159,553 per year which is approximately five one hundredths of one percent (0.05%).

17. During certain periods of each year there generally is unappropriated water in the Snake River. During these periods

MICROFILMED

appropriation of water has no effect upon IPCO's water rights or ability to generate hydropower.

CONCLUSIONS OF LAW

1. The development of 20,000 new acres which results in an average increase in power rates of five one hundredths of one percent (0.05%) will not cumulatively cause a significant reduction in IPCO's hydropower generation capability at hydropower generation facilities upstream from the Hells Canyon complex on the Snake River.

2. The hydropower generating facilities of IPCO which are affected by reductions in river flow represent approximately 25% of IPCO's hydropower generating capacity as compared to the Hells Canyon complex facilities which represent approximately 75% of IPCO's hydropower generating capacity. The Hell's Canyon facilities are subordinated to later in time consumptive uses and are not properly included as a part of the evaluation of significant reduction. (Water Appropriation Rule 5,3,1,4.).

3. The reduction in IPCO's hydropower generation capability caused by new development is such that the timing of the reduction, either on an annual basis or a long term basis, need not be considered by IDWR. The computer model studies show that it would take approximately 15 years for aquifer outflow to the Snake River to be reduced 23% of net new withdrawal. By the 60th year outflow would be reduced by 76% of the new depletion. Other factors present in a dynamic system as large as the Snake Plain aquifer will have more effect on the discharge of the Snake River than decreases caused by this amount of new development.

4. Staff of the IPUC advises that the effect of reduced hydropower production on "unit cost" is not a proper factor to consider when analyzing the effect of reduced flows to hydropower generating facilities. IPUC generally considers hydropower facilities to have zero unit or production costs. Thermal facilities on the other hand do have associated unit costs such as the cost of fuel.

5. The IDWR is unaware of any contract or regulatory permits including FERC licenses which require IPCO to produce or to maintain capability to produce hydropower at specific levels.

6. Approval of applications for permit or permits which propose the development of the first 20,000 acres of newly irrigated land with water from the Snake Plain aquifer will not either individually or cumulatively cause a significant reduction in the water supply available to the holder of a water right used for power production purposes.

7. The development proposed by Permit No. 45-7478 will not either individually or cumulatively cause a significant reduction in the water supply available to the holder of a water right used for power production purposes.

8. Permit No. 45-7478 should be continued without special conditions related to Section 42-203C(2), Idaho Code.

MICROFILMED

ORDER

It is, therefore, hereby ORDERED that Permit No. 45-7478 is hereby continued subject to the following conditions:

1. Proof of construction of works and application of water to beneficial use shall be submitted to IDWR on or before October 1, 1992.
2. The use of trust water authorized by this right is subject to review 20 years after the date of this order to determine availability of trust water and to reevaluate the public interest.
3. The construction of diversion works must be commenced within one (1) year of the date of this order and shall proceed diligently and uninterruptedly to completion unless temporarily interrupted by circumstances over which the permit holder has no control.
4. Diversion and use of trust water under this right is subject to an annual use fee if rules are subsequently promulgated which provide for the submittal of the fee.
5. The Director retains jurisdiction of this right to change, add or remove any requirement as determined to be appropriate.
6. All conditions of approval contained in Permit No. 45-7478 are incorporated into and made part of this order.

Dated this 10th day of MARCH, 1990.

MICROFILMED

MAR 22 1990

BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE
STATE OF IDAHO

IN THE MATTER OF PERMIT NO.)	
45-7478 IN THE NAME OF)	PROPOSED MEMORANDUM
DOUBLE EAGLE INC.)	DECISION & ORDER
_____)	

This matter having come before the Idaho Department of Water Resources (Department) as a requirement of Section 42-203D, Idaho Code, and a protest against the continuance of the permit having been received, the Department finds, concludes and orders as follows:

FINDINGS OF FACT

1. Permit No. 45-7478 was issued to Double Eagle Inc. (permit holder) on December 8, 1981, authorizing the diversion of 5.49 cfs of groundwater for the irrigation of 480 acres of land.
2. Section 42-203D, Idaho Code, directs the Department to review all permits issued prior to July 1, 1985, located within the Swan Falls Trust Area, to determine if water was beneficially used prior to said date.
3. If water was not beneficially used on or before July 1, 1985, Section 42-203D further directs the department to review the permit under the provisions of Section 42-203C, Idaho Code.
4. Section 42-203C requires the department to determine whether diversion of water under a permit issued prior to July 1, 1985, causes a significant reduction of trust water available for power production and, if there is a significant reduction, to determine whether the reduction is in the public interest.

MICROFILMED

MAR 22 1990

5. The Department mailed notice to the permit holders on May 24, 1989, advising that Permit No. 45-7478 was subject to the review requirements of Section 42-203D, Idaho Code and that the permit holder must submit to the Department within 30 days either a re-advertisement fee as required by Water Appropriation Rule 4,2,3,1. and Section 42-221F, Idaho Code, or sufficient evidence to show that water was beneficially used prior to July 1, 1985.

6. The Department received the re-advertisement fee within the specified 30 day period and advertised the permit in accordance with Water Appropriation Rule 4,2,1,1. The permit holder did not submit any evidence concerning beneficial use of the water prior to July 1, 1985.

7. A protest against the continuation of the permit was received by the department from the Twin Falls Canal Company (protestant) on August 2, 1989. The protestant alleged that the water sought for appropriation under this permit had already been appropriated under water rights held by the protestant, (criteria of Section 42-203A, Idaho Code).

8. On August 30, 1989, the department corresponded with the protestant and advised that their protest of Permit No. 45-7478 was not in compliance with the department's Water Appropriation Rules and Regulations. The letter requested information to show that the protest was related to the criteria of Section 42-203C, Idaho Code.

9. Water Appropriation Rule 4,2,3,1. provides that the review of permits pursuant to section 42-203D, Idaho Code, is limited to the criteria described in Section 42-203C, Idaho Code.

10. On October 11, 1989, the department issued the protestant a notice of pending action to dismiss the protest against the continuation of Permit No 45-7478 for failure to provide requested information.

MICROFILMED

MAR 22 1990

11. The protestant failed to respond to the notice of pending action to dismiss the protest.

CONCLUSIONS OF LAW

1. Permit No. 45-7478 is subject to the review requirements of Sections 42-203D and 42-203C, Idaho Code, but not the criteria of Section 42-203A, Idaho Code.

2. The protest against the continuance of Permit No. 45-7478 is not in connection with the criteria of Section 42-203C, Idaho Code.

3. An order dismissing the protest of Permit No. 45-7478 should be issued.

ORDER

IT IS, THEREFORE, hereby ORDERED that the protest against the continuation of Permit No. 45-7478 filed by the Twin Falls Canal Company is dismissed.

Dated this 27th day of December, 1989.

APPLICATION FOR PERMIT APPROVED

To appropriate the public waters of the State of Idaho

1. Name of applicant Double Eagle, Inc. Phone 432-5270

Post office address Rt. 2 Murtaugh, ID 83344

2. Source of water supply groundwater which is a tributary of _____

3. Location of point of diversion is SW $\frac{1}{4}$ of SW $\frac{1}{4}$ of Section 16 Township 11S

Range 20E B.M. Twin Falls County, additional points of diversion if any: _____

4. Water will be used for the following purposes:

Amount 5.49 for irrig. purposes from 3-15 to 11-15 (both dates inclusive)
(cfs or acre-feet per annum)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)

5. Total quantity to be appropriated:

a. 5.49 cubic feet per second and/or b. _____ acre-feet per annum.

6. Proposed diverting works:

a. Description of ditches, flumes, pumps, headgates, etc. well & pump

b. Height of storage dam _____ feet, active reservoir capacity _____ acre-feet; total reservoir capacity _____ acre-feet, materials used in storage dam: _____

Period of year when water will be diverted to storage _____ to _____ inclusive.
(Month/Day) (Month/Day)

c. Proposed well diameter is 18 inches; proposed depth of well is 400 feet.

7. Time required for the completion of the works and application of the water to the proposed beneficial use is 5 years (minimum 1 year — maximum 5 years).

8. Description of proposed uses:

a. If water is not for irrigation:

(1) Give the place of use of water: _____ $\frac{1}{4}$ of _____ $\frac{1}{4}$ of Section _____ Township _____
Range _____ B.M.

(2) Amount of power to be generated: _____ horsepower under _____ feet of head.

(3) List number of each kind of livestock to be watered _____

(4) Name of municipality to be served _____, or number of families to be supplied with domestic water _____

(5) If water is to be used for other purposes describe: _____

APPROVED

b. If water is for irrigation, indicate acreage in each subdivision in the tabulation below:

TWP	RANGE	SEC.	NE¼				NW¼				SW¼				SE¼				TOTALS
			NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	
11S	20E	16									40	20 40	40	40					160
		26	20 40	40	40	20 40	40	40	40	40									320

Total number of acres to be irrigated 480

c. Describe any other water rights used for the same purposes as described above. 45-2275 - 45-4103

9. a. Who owns the property at the point of diversion applicant

b. Who owns the land to be irrigated or place of use applicant

c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing

10. Remarks

11. Map of proposed project: show clearly the proposed point of diversion, place of use, section number, township and range number.

Scale: 2 inches equal 1 mile.

BE IT KNOWN that the undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 45-7478, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before December 1, 19 86.
- c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.
- d. Other: An access port or other device as specified by the Department shall be installed by the permit holder to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department.

Witness my hand this 8th day of December, 1981.

J. Glen Saylor
Chief Operations Bureau

State of Idaho

License and Certificate of Water Right

Water License No. 20686 45-2575

Amount 2.51 c.f.s.

Water District No. _____

Priority October 5, 1948

THIS IS TO CERTIFY that TRUMAN R. DAVIDSON
of Murtaugh, Idaho, made application for a permit to appropriate the
public waters of the State of Idaho, dated October 5, 1948; that Permit No. 20686
was issued under said application; that Certificate of Completion of works, with a carrying capacity of
3.2 second feet, was issued thereunder on November 25, 1953, showing that said works
were completed on the 20th day of October, 1953; and that on the 17th
day of September, 1959,

TRUMAN R. DAVIDSON

of Murtaugh, State of Idaho, made proof to the satisfaction of the
State Reclamation Engineer of Idaho, of the right to use the waters of a well
, a tributary of subterranean flow, for the purpose of irrigation
, under Use Permit No. 20686 of the Department of Reclamation
and that said right to the use of said waters has been perfected in accordance with the laws of Idaho,
and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume
12 of Licenses at page 7584, on the 28 day of May, 1963;

The right hereby confirmed dates from October 5, 1948;

The Point of Diversion is located SW 1/4 NE 1/4
in the 1/4 - 1/4, Sec. 26, Tp. 11 S, R. 20 E., B. M. County Twin Falls

That the amount of water to which such right is entitled and hereby confirmed, for the purposes
aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall
not exceed 2.51 cubic feet per second.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated
11S	20 E.	26	NW 1/4 NE 1/4	40	40
			SW 1/4 NE 1/4	40	40
			NE 1/4 NW 1/4	40	40
			SW 1/4 NW 1/4	40	40
			SE 1/4 NW 1/4	40	40
Total number of acres to be irrigated:					200

MICROFILMED

STATE OF IDAHO DEPARTMENT OF WATER RESOURCES

CLAIM TO A WATER RIGHT

Under the provisions of Section 42-243, Idaho Code, any person using or claiming rights to the public waters of Idaho established by diversion and application to a beneficial use must file a claim with the Department of Water Resources on or before June 30, 1983. Exempted from this filing are single family domestic uses as defined in Section 42-230(d), Idaho Code. Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.

Notice is hereby given that Double Eagle Inc.

(Name of Claimant)

Route #1, Murtaugh, Idaho 83344

(Mailing Address)

Telephone No. 432-5270

(Zip Code)

claims a right to the diversion and beneficial use of the surface or ground water. The extent and nature of said claim is as follows:

- (1) Date of priority: (When was the water first applied to a beneficial use) Mar 15, 1960

A claim is not acceptable on a ground water source with a priority later than March 25, 1963 or on a surface water source with a priority later than May 20, 1971. An exception is that a claim may be filed on single family domestic use from a ground water source.

- (2) Describe the source of water: (Name of stream, lake, spring, etc., or ground water)

groundwater tributary to

- (3) Describe the purpose for which the water has been used and the time during the year when you have used the right claimed:

	(cfs, gpd, AFA)	(Domestic, Irrigation, Stock, Etc.)	(Both dates inclusive)	
			(Mo., Day)	(Mo., Day)
Quantity	<u>1.6 cfs</u>	Use <u>irrigation</u>	Period of Use From <u>Mar 15</u>	To <u>Nov 15</u>
Quantity		Use	Period of Use From	To
Quantity		Use	Period of Use From	To
Quantity		Use	Period of Use From	To
Quantity		Use	Period of Use From	To

- (4) 1.6 cfs TOTAL QUANTITY USED.
(cfs, gpd, AFA)

- (5) A) Point of diversion: (Location of point where water is diverted from its source)

NE 1/4 NW 1/4, Sec. 26 Twp. 11S Rge. 20E B.M., County of Twin Falls

Additional points of diversion: SW 1/4 NE 1/4, Sec. 26 T. 11S R. 20E

B) Describe means of diversion of water: (Pump and pipeline, well, diversion dam, reservoir, length of ditch and field, etc.). Give sizes and capacities: be as specific as possible. Describe any changes in the system and give the date of the change. Two wells, 75 hp & 300 hp motors to gravity & sprinkler irrigation systems

- (6) A) Describe location of use by listing number of irrigated acres within each 40-acre tract in appropriate box. If use is not for irrigation, place an "X" in appropriate box to show location.

T	R	SEC.	NE 1/4				NW 1/4				SW 1/4				SE 1/4				TOTAL
			NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	
11S	20E	26	20			20		40											80

No. of acres 80

- B) If water is used for other than irrigation, fully describe that use, being as specific as possible:

NOTE: Include here the type and number of stock watered:

- (7) If you are claiming water as a member of an organization, list name of organization:

RE: PERMIT NO. 45-07478

Dear Mr. Funk:

Enclosed is an amended Application for Amendment (for licensing purposes) to reflect a change to a "permissible place of use" recommendation per our January 5th conversation. We have verified the acres in Sections 25 and 36 shown on the copies of the ASCS maps you sent us were irrigated prior to your filing of Proof of Beneficial Use for this permit.

Please review the amended application carefully and if you concur, sign the amendment and return with the \$50.00 filing fee within 14 days.

The last page of the Application for Amendment form contains a list of CONDITIONS/REMARKS proposed for the license when it is issued. These conditions/remarks may be modified upon further administrative review.

Thank you for your assistance and if you have any questions with this information, please contact me as soon as possible. My telephone number is (208) 327-7946.

Sincerely,

SHELLEY W. KEEN
Water Rights Supervisor

MEMORANDUM

TO: File 45-07478 / Double Eagle Inc. (Darrell Funk)
FROM: Brenda Chapman
DATE: December 19, 1994 / January 13, 1995
RE: Recommendation Adjustment(s)

=====

The final licensing recommendations for the above referenced water right are based on the information below:

G. VOLUME CALCULATIONS

The volume recommendation is addressed in the remarks based on current supplemental groundwater processing procedures.

January 13, 1995

The acres shown on the ASCS maps sent to us by Mr. Funk were verified with a planimeter to be correct. We have now changed the recommendation to a "permissible place of use" situation for the irrigation of 480 acres within 1454.7.

H. RECOMMENDATIONS

1. Recommended Amounts

Beneficial Use	Period of Use	Rate of Div	Annual Vol
Irrigation	4-01 to 10-31	2.14	Not listed

See item G.

RE: Place of Use

=====

The Field Report prepared by Jim Stanton for this permit indicates that he found 427 acres irrigated within the permitted place of use. He also found the groundwater diverted under this permit to be commingled with surface water in a relift pond and delivered via a pipeline to the place of use. Because of the possibility that a volume expansion of this groundwater use could occur if use of the surface water were ever discontinued, we proposed to condition this right so that it cannot be used if the surface water is not also used on the place of use. We commonly call this set of conditions the "supplemental groundwater" conditions.

Gary Funk, the permit holder, communicated to me that he did not think the supplemental groundwater conditions should apply to the license issued on this permit. He met with me on January 5, 1995, to discuss this issue. He revealed that his system actually includes about 1027 acres in addition to the permitted place of use. Because the groundwater commingles with the surface water, it is actually used on 1454 acres.

I discussed with Mr. Funk the possibility of describing this groundwater right as appurtenant to 480 acres (the permitted total) within the 1454-acre place of use. He agreed that he would not object to the use of the supplemental groundwater conditions if we described the right this way.

In order to confirm the 1027 acres of additional place of use, Mr. Funk submitted an ASCS photo showing the irrigated land. The landsat mapping data available to IDWR shows that the land was irrigated by 1987, which is prior to his submission of proof of beneficial use for this right.

RE: WATER RIGHT NO. 45-07478

Dear Water Right Holder(s):

The above referenced water right is in the process of being licensed. However, before a license can be issued, your permit must be amended to correspond with the findings of the Department's field examiner.

The enclosed Application for Amendment contains information that will be included on the license when it is issued. The amendment reflects a change in the location of the point(s) of diversion. Please review carefully and if you concur, sign the amendment and return with the \$50.00 filing fee within 14 days.

The last page of the Application for Amendment form contains a list of CONDITIONS/REMARKS proposed for the license when it is issued. These conditions/remarks may be modified upon further administrative review.

If you do not concur or have any questions with this information, please contact me as soon as possible. My telephone number is (208) 327-7947.

Sincerely,

Shelley W. Keen

D. FLOW MEASUREMENTS

1.

Measurement Equipment	Type	Make	Model No.	Serial No.	Size	Date
15" portable ~~water~~ weir						FEB 15 1995

2. Measurements:

~~Not measured. Pump designed for 800 gpm at 326' TDH according to Lynne Pump Co. of Twin Falls. Pump installed in 1990. Measured 18.8" head on 15" contracted water weir.~~

E. NARRATIVE/REMARKS/COMMENTS

Well, motor, pump, open discharge to large pond at east end of Murtagh Lake. Re-lift pumps in pond to pressurize sprinklers. System was being repaired during exam - no re-lift pumps were seen (12-1-92). Pumps present 8-11-94. Well is used to supplement surface rights in Sec. 16 when surface rights are cut back (usually mid-late season). Land has full canal rights. In Sec. 26, ³old licensed wells ^{are} insufficient to water the property. Main use of Sec. 16 well is to supplement wells in Sec. 26. Land is all sprinkled. Not to exceed 0.02 cfs/acre or 4.0 acre feet/annum/acre for all rights combined on these lands. Well is close to 40 line, but appears to be in NW/SE Sec. 16. Quad map for the area was printed before well was drilled, so does not show the well or re-lift pumps.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 45-07478

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the SOUTHERN Regional Office in Twin Falls at (208)736-3033.

Sincerely,

Karen L. Gustafson
Secretary/Records Manager

PROOF DUE NOTICE

RE: PERMIT NO. 45-07478

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before October 1, 1992. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson
Secretary/Records Manager

Dear Permit Holder(s):

Enclosed is an order that authorizes you to continue development under Permit to Appropriate Water No. 45-7478. Please note in condition #1., page five of the order that you must develop your system and beneficially use the water prior to October 1, 1992. Failure to beneficially use the water before October 1, 1992, could result in a loss of your water right permit.

Also enclosed is a copy of the approved extension of time request. Please be advised that the department has granted this extension of time based on due diligence. It is important that you work diligently toward the completion of this project during the construction period allowed. The department may not be able to grant additional requests.

Please note the conditions of approval contained in the continuation order. You must comply with the conditions to fully complete beneficial use.

Sincerely,

TIM LUKE
Sr. Water Resource Agent

RE: Permit No. 45-7478

Jack H. Eakin
Twin Falls Canal Co.
Box 326
Twin Falls, ID 83303-0326

Dear Mr. Eakin:

NOTICE OF PENDING ACTION TO DISMISS PROTEST

On August 2, 1989, the Department of Water Resources (Department) received a protest from the Twin Falls Canal Company against the continuance of the above referenced permit.

On August 30, 1989, the Department sent a letter to the protestants explaining that the permit was being reviewed under the public interest criteria of Section 42-203C, Idaho Code. This letter further explained that a party filing a protest against the continuance of this permit must bear the initial burden of coming forward with evidence for the evaluation of the public interest criteria of Section 42-203C, and of demonstrating a significant reduction in the Snake River near Murphy, Idaho. The letter requested that the protestant, Twin Falls Canal Company, provide this evidence within fifteen days of receiving the letter. The protestant has failed to submit the required evidence within the specified period.

The purpose of this notice is to provide a second and final opportunity for the protestant to submit the requested evidence. If you fail to respond to this inquiry within fifteen (15) days of the date of this letter, the Department will formally dismiss the protest.

Sincerely,

JIM JOHNSON
Water Rights Supervisor

RE: Application for Permit No. 45-7478

Gentlemen:

Until readvertisement of the above referenced application by IDWR, Twin Falls Canal Company (TFCC) was unaware of your proposal to drill a well on the banks of Murtaugh Lake, TFCC's regulating reservoir.

TFCC's hydrologists have given us their opinion that locating the well as shown in the application will facilitate the pumping of water from TFCC's bank storage, which is available as a result of the existence of Murtaugh Lake. Double Eagle's proposed use would correspond with TFCC's irrigation season, and pumping from a well so located would be a direct taking of TFCC's water.

The purpose of this letter is to advise you that it is TFCC's intention to protect its prior water rights and water supplies. Be advised that TFCC will pursue legal action to protect its water rights. Also consider this letter as notice that the drilling and pumping of such well will be met with such appropriate legal action.

Respectfully,

MICROFILMED

RE: Permit No. 45-7478 (Double Eagle Inc.)

Jack H. Eakin
Twin Falls Canal Co.
Box 326
Twin Falls, ID 83303-0326

Dear Mr. Eakin:

The department acknowledges receipt of your protest against the continuance of the above referenced permit filed under the name of Double Eagle Inc.

The information contained in the protest of this permit is not in compliance with the requirements of the Department's 1986 Water Appropriation Rules and Regulations. Rule 4,4,2,3. states in part, "the protestant shall bear the initial burden of coming forward with evidence for the evaluation of the public interest criteria of Section 42-203C(2), Idaho Code, and of demonstrating a significant reduction" in the flows of the Snake River near Murphy, Idaho.

The permit which you have protested is one of many non-completed permits which were identified in the recent Swan Falls litigation between the State of Idaho and Idaho Power Company. A settlement between these two parties was reached in 1985 and finally received federal approval in 1988. As you may know, many of those individuals who held applications or permits were unable to proceed with development because of the above pending litigation. The Department is presently in the process of implementing the approved settlement and has been reviewing backlogged files according to priority dates. All backlogged files subject to the settlement must be reviewed under new and additional public interest criteria. As a part of this review process, the Department is required to re-advertise permits which were not developed prior to July 1, 1985. Protests filed against these permits must be based on the public interest criteria established by the Swan Falls settlement, and specifically identified in Section 42-203C, Idaho Code (copy enclosed), and Idaho Department of Water Resources for Appropriation Rule 5,2.

In order to pursue a protest of Permit No. 45-7478 with the Department, you must submit additional information to support a claim that the proposed use would significantly reduce the amount of trust water available to the hydropower right at Swan Falls. The reason for protest identified in your letter is valid only for unapproved applications, not permits which have been approved and are being reviewed under the terms of the Swan Falls settlement.

MICROFILMED

MAR 22 1990

Page 2

By filing a protest you are entitled to a hearing of the reasons for your protest. However, as a protestant you must follow the requirements that provide you the opportunity to file the protest. If the matter is set for a formal hearing and the reason for the protest fails to meet the previously mentioned requirements, the protest will be dismissed.

Please submit the additional information to this Department within fifteen (15) days of the receipt of this letter. If you do not wish to pursue your protest, please sign and return the enclosed withdrawal of protest form.

If you have any questions, please feel free to call me directly at 327-7947.

Attn: Loren Holmes

Subject: Application for Permit #45-07478
Double Eagle, Inc.

Dear Loren:

The Board of Directors of the Twin Falls Canal Company directed that a protest to the subject application be filed.

Murtaugh Lake is actually a regulating reservoir for the Twin Falls Canal Company with the water supply to maintain a constant elevation during the irrigation season being brought in from Milner Dam. This water comes from a natural flow right or from reservoir storage belonging to the Twin Falls Canal Company.

The subject application is for a right to obtain 5.49 cfs from groundwater with the point of diversion located along the edge of Murtaugh Lake.

Enclosed is a map of Section 16, T 11 S, R 20 E prepared from Canal Company records. The SW1/4 SW1/4 of the section is predominately covered by Murtaugh Lake and water obtained from wells in this 40 acre tract should be considered bank storage, the right to which should belong to the Twin Falls Canal Company.

Enclosed also is a map of the general area showing the 320 acres to be irrigated in Section 26 as lying some 2 to 3 miles distant from the source adjacent to the lake.

It is considered that the water requested by this application is already appropriated under water rights of the Twin Falls Canal Company.

Dear Legal Department:

Enclosed you will find legal notices which we wish to have published on July 20 and July 22 (once a week for two consecutive weekly issues) in your newspaper. If your paper is published weekly, the notices must appear in the issue that is distributed during the weeks of July 17 and July 24. If you cannot publish the notices on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. Your cooperation is appreciated.

Please send the affidavit of publication and billing to the office below before August 8, 1989.

Idaho Department of Water Resources
1301 North Orchard St.

MEMORANDUM

TO: FILE

FROM: TIM LUKE

RE: SWAN FALLS PROCESSING
PERMIT NO. 45-7478

DATE: 8-7-89

Several different sources have been reviewed to determine irrigation prior to July of 1985. These sources include:

- 1) 1984 National High Altitude Photography (NHAP): (on record at Idaho State SCS office)
- Shows irrigation of all 480 permitted acres.
- 2) 1983 U2 Photography: (on record at IDWR)
- Shows irrigation of all 480 permitted acres except a portion of W1/2SW1/4 of section 16. This portion is roughly 20 acres and appears to be flooded by Murtaugh Lake.
- 3) IDWR 1986 Remote Sensing Data:
- Classifies all 480 permitted acres as irrigated except 10 acres in SW1/4.

For purposes of Swan Falls processing, I recommend that the entire 480 permitted acres be considered as supplemental.

PERMIT NO. 45-7478

IF YOU ARE NOT INTERESTED IN HAVING YOUR PERMIT PROCESSED,
PLEASE COMPLETE AND RETURN THE ENCLOSED RELINQUISHMENT FORM.

INSTRUCTIONS: Please answer the following questions as
thoroughly as possible and submit the \$20.00 readvertisement
fee if applicable.

1. Did irrigation occur on the lands identified under your
permit prior to July 1, 1985? Yes _____ No X

If yes, you are requested to submit clear evidence that shows the
number and location of acres irrigated.

Aerial photographs taken prior to July 1, 1985, located in area
ASCS offices, are best forms of evidence. Photos submitted to the
the Department must be accompanied by a signed statement from an
ASCS representative which verifies the photo date and that the
lands were irrigated prior to July 1, 1985. If ASCS does not have
photos for the land and/or time in question, you must have the ASCS
provide the Department with a statement that photos are not avail-
lable and then proceed to submit other forms of suitable evidence.

2. Please state the number of acres you have irrigated under this
permit since July 1, 1985. _____

3. If you have not irrigated lands under this permit, please
state the number of acres you plan to complete. 480

NOTE: You must submit the \$20.00 readvertisement fee if any or
all of the lands were not irrigated before July 1, 1985.

4. If the permit is a supplemental filing please identify other
water rights which are used on the same land.

45-2275 45-4103

Use the reverse side of this form if you wish to add any comments.

I hereby assert that the responses provided above are true to the
best of my knowledge. I understand that any willful misrepresentations
may result in voiding of the application.

5. REMARKS/COMMENTS:

The well was dug in May of 82 but because of the Swan Fall issue we could not get Idaho Power to hook us up until they settled their suit. Inclosed is a copy of the well driller's report. The well is lined and ready to work and all we are waiting for is the permit to be granted.

DIRECTOR

May 24, 1989

RE: PERMIT NO. 45-7478

Dear PERMIT HOLDER:

Due to the Swan Falls litigation, development proposed by the enclosed permit may have been delayed. The Department is presently reviewing the permit and may authorize completion of development proposed under the permit.

The purpose of this letter is to determine: (1) the extent of development under the permit, and (2) your continued interest in developing or completing development under the permit.

Enclosed are two forms which will help the Department expedite the reprocessing of the permit.

Please complete and return the enclosed questionnaire if you wish to continue with your plans of development or have completed all or a portion of your development before July 1, 1985.

Please complete the enclosed relinquishment form and return it to the Department if you have abandoned or have no interest in continuing with your plans for development of the project.

If the entire project was not completed prior to July 1, 1985, and you still wish to proceed with your plans of development, then you must submit a \$20.00 re-advertisement fee to the Department as required by Water Appropriation Rule 4,2,3. and Section 42-221F, Idaho Code.

Failure to return the questionnaire and pay any required re-advertisement fee within thirty (30) days of the date of this letter is cause for the Department to cancel the permit.

If the incomplete portion of your project is for irrigation of more than 200 acres, the Department will issue a notice requesting additional information as required by Water Appropriation Rule 4.5. (45-1000-4)

MICROFILMED

Gentlemen:

Re: Permit No. 45-7478

The department has reviewed the request for extension of time submitted in connection with the above referenced permit. The department will hold the request without action until the permit is reprocessed in compliance with the provisions of Sec. 42-230D, Idaho Code. Upon completion of reprocessing, an appropriate development period will be granted if the permit is to be continued.

Please feel free to contact this office if you have any questions.

LAPSE NOTICE

RE: PERMIT NO. 45-7478

DEAR PERMIT HOLDER:

YOU ARE HEREBY NOTIFIED THAT UNDER THE PROVISIONS OF SECTION 42-218A, IDAHO CODE, THE ABOVE REFERENCED WATER PERMIT HAS LAPSED. THIS OFFICE DID NOT RECEIVE EITHER AN ACCEPTABLE PROOF OF BENEFICIAL USE SUBMITTAL OR AN ACCEPTABLE REQUEST FOR AN EXTENSION OF TIME. YOU WERE PROVIDED THE PROPER FORMS IN OUR PROOF DUE NOTICE TO YOU DATED SEPTEMBER 30, 1986.

YOUR PERMIT CANNOT BE REINSTATED UNLESS YOU SUBMIT PROOF OF BENEFICIAL USE OR SUBMIT AN EXTENSION OF TIME REQUEST SHOWING REASONABLE CAUSE FOR DELAY. EITHER THE COMPLETED PROOF OF BENEFICIAL USE SUBMITTAL (INCLUDING THE EXAMINATION FEE OR A COMPLETED FIELD EXAMINATION REPORT) OR THE EXTENSION REQUEST FORM TOGETHER WITH THE \$15 FEE MUST BE RECEIVED BY THIS DEPARTMENT WITHIN SIXTY DAYS OF THE DATE OF MAILING OF THIS LAPSE NOTICE OR THE PERMIT WILL NO LONGER BE OF ANY FORCE OR EFFECT.

A PROOF OF BENEFICIAL USE FORM AND A REQUEST FOR EXTENSION OF TIME FORM ARE AGAIN ENCLOSED FOR YOUR USE. PLEASE NOTE THAT ONLY ONE EXTENSION OF TIME CAN BE GRANTED UNLESS THE PROJECT HAS NOT BEEN COMPLETED BECAUSE OF LACK OF A NECESSARY APPROVAL BY A GOVERNMENTAL AGENCY OR BY LITIGATION WHICH MIGHT BRING TITLE TO THE WATER IN QUESTION.

PROOF DUE NOTICE

RE: PERMIT NO. 45-7478

DEAR PERMIT HOLDER:

ONE OF THE CONDITIONS OF APPROVAL OF THE ABOVE REFERENCED WATER PERMIT WAS THAT PROOF OF THE EXTENT OF YOUR BENEFICIAL USE MUST BE SUBMITTED TO THIS OFFICE ON OR BEFORE DECEMBER 1, 1986. (SEE LAST PAGE OF YOUR APPROVED PERMIT OR YOUR LAST APPROVED EXTENSION REQUEST.) ENCLOSED IS A FORM WHICH WHEN ACCOMPANIED BY THE LICENSE EXAMINATION FEE OR A COMPLETED FIELD EXAMINATION REPORT PREPARED BY A CERTIFIED WATER RIGHT EXAMINER MAY BE USED TO SUBMIT THE REQUIRED PROOF.

IF YOU HAVE NOT FULLY COMPLETED YOUR PROJECT, AND YOU OR A PREVIOUS OWNER OF THIS PERMIT HAVE NOT RECEIVED A PRIOR EXTENSION OF TIME, YOU MAY REQUEST AN EXTENSION OF TIME IF THE DELAY IS FOR REASONABLE CAUSE AS PROVIDED IN SECTION 42-204, IDAHO CODE. IF YOU HAVE BEEN PREVENTED FROM PROCEEDING BY A GOVERNMENTAL AGENCY OR BY LITIGATION WHICH MIGHT BRING TITLE TO THE WATER IN QUESTION, MORE THAN ONE EXTENSION OF TIME CAN BE GRANTED. AN EXTENSION OF TIME REQUEST FORM IS ENCLOSED FOR YOUR CONVENIENCE.

EITHER AN ACCEPTABLE PROOF OF BENEFICIAL USE SUBMITTAL OR AN ACCEPTABLE REQUEST FOR AN EXTENSION OF TIME MUST BE RECEIVED BY THIS DEPARTMENT ON OR BEFORE THE ABOVE DESCRIBED PROOF DUE DATE. IF NEITHER IS RECEIVED, THE DEPARTMENT WILL SEND YOU A LAPSE NOTICE. WITHIN SIXTY (60) DAYS OF THE MAILING OF THE LAPSE NOTICE, THE PERMIT WILL NO LONGER BE OF ANY FORCE NOR EFFECT.

SINCERELY,

RITA FLECK
SECRETARY/RECORDS MANAGER

SEPTEMBER 1, 1985

DEAR PERMIT HOLDER:

ACCORDING TO OUR RECORDS, YOU ARE THE HOLDER OF A WATER PERMIT ON WHICH PROOF OF BENEFICIAL USE OF WATER WAS NOT SUBMITTED BEFORE JULY 1, 1985, WHICH INDICATES YOUR PROJECT IS NOT COMPLETE. THEREFORE, YOU NEED TO BE AWARE OF CHANGES IN IDAHO LAW, EFFECTIVE JULY 1, 1985, WHICH IMPACT ALL WATER PERMITS ISSUED BY THIS DEPARTMENT.

SPECIFICALLY, PURSUANT TO SECTION 42-203D, IDAHO CODE, THE DEPARTMENT MUST REVIEW ALL PERMITS FOR WHICH DEVELOPMENT OF WATER USE WAS NO COMPLETED ON OR BEFORE JULY 1, 1985, TO DETERMINE IF THEY MEET THE NEW REQUIREMENTS OF CHAPTER 2, TITLE 42, IDAHO CODE. RULES AND REGULATIONS GOVERNING THE RE-EVALUATION OF PERMITS ARE NOT YET FINALIZED. HOWEVER, IF YOU COMPLETED THE DEVELOPMENT UNDER YOUR PERMIT BEFORE JULY 1, 1985, YOU SHOULD SUBMIT A PROOF OF BENEFICIAL USE STATEMENT, STATING THAT THE PROJECT WAS COMPLETED BEFORE JULY 1, 1985 SO THAT YOUR PERMIT WILL NOT BE SUBJECT TO THE REVIEW REQUIREMENTS OF SECTION 42-203D, WHICH READS AS FOLLOWS:

42-203D. REVIEW OF PERMITS - OPPORTUNITY FOR HEARING. - (1)THE DEPARTMENT SHALL REVIEW ALL PERMITS ISSUED PRIOR TO THE EFFECTIVE DATE [JULY 1, 1985] OF THIS SECTION, EXCEPT TO THE EXTENT A PERMIT HAS BEEN PUT TO BENEFICIAL USE PRIOR TO JULY 1, 1985, TO DETERMINE WHETHER THEY COMPLY WITH THE PROVISIONS OF CHAPTER 2, TITLE 42, IDAHO CODE. IF THE DEPARTMENT FINDS THAT THE PROPOSED USE DOES NOT SATISFY THE CRITERIA OF CHAPTER 2, TITLE 42, IDAHO CODE, THEN THE DEPARTMENT SHALL EITHER CANCEL THE PERMIT OR IMPOSE THE CONDITIONS REQUIRED TO BRING THE PERMIT INTO COMPLIANCE WITH CHAPTER 2, TITLE 42, IDAHO CODE. IF THE DEPARTMENT FINDS THAT THE PERMIT SATISFIES THE CRITERIA ESTABLISHED IN CHAPTER 2, TITLE 42, IDAHO CODE, THEN THE DEPARTMENT SHALL ENTER AN ORDER CONTINUING THE PERMIT.

(2)THE DEPARTMENT SHALL PROVIDE AN OPPORTUNITY FOR HEARING IN ACCORDANCE WITH SECTION 42-1701A, IDAHO CODE, AND SECTIONS 67-5209 THROUGH 67-5215, IDAHO CODE, FOR EACH HOLDER OF A PERMIT THAT IS PROPOSED EITHER TO BE CANCELLED OR MADE SUBJECT TO NEW CONDITIONS.

YOU MAY OBTAIN PROOF OF BENEFICIAL USE FORMS FROM THE DEPARTMENT. IF YOU HAVE ANY QUESTIONS, PLEASE LET US KNOW.
