WATER RIGHT LICENSE

WATER RIGHT NO. 45-07454

Priority: October 20, 1980

Maximum Diversion Rate: 1.80 CFS
Maximum Diversion Volume: 360.0 AF

This is to certify, that DELL N MITCHELL
LYNN MITCHELL

RT 1 BOX 38A
DECLO ID 83323

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated October 20, 1980; and has submitted Proof of Beneficial Use on September 13, 1984. An examination indicates that the works have a diversion capacity of 2.000 cfs of water from a **GROUNDWATER** source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	04/01 to 10/31	1.80 CFS	360.0 AF

LOCATION OF POINT(S) OF DIVERSION: NESW , Sec. 1, Township 10S, Range 24E
CASSIA County

					90
Total number of acres irrigated:					90

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right limited to the amount that can actually be beneficially use used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 4.0 afa per acre for the lands above.

3. **Narrative:** Description (As operating at time of measurement. Indicate pressure, number of sprinklers, etc.)

An 18" dia. well and 60 HP turbine Pump Supply 6 lines with 187 Rainbird 9/64" 30-CP nozzles. Pressure at pump was 48 psi with average pressure at the nozzles of 5 psi. Depth to water could not be measured. One M-scope has been lost, and I could not get the probe past 40 ft without getting hung up.

☐ Additional Data Sheets Attached

1.

Measurement Equipment	Type	Make	Model No.	Serial No.	Size	Calib. Date
Annubar				091400	6.065	

2. Measurements:

With the annubar & Manometer I measured a $\Delta H = 51.5$ or $Q = 2.3$ cfs. At a pressure of 48 psi. Pito tube measurement of $P_{ave} = 35$ psi & 187 nozzles gives $Q \approx 2$ cfs.

E. FLOW CALCULATIONS

☒ Additional Computation Sheets Attached

1. Measured Method: $Q = 2.3$ cfs by use of Annubar.

2. Alternate Method for Checking Purposes:

Memo to file # 45-7454

Sept 22, 1987

On July 16, 1987 the first visit to do the field exam was made. The manometer tube got broken, so no exam was done. Two additional times were tried by Warren K., but each time the small manometer would not give a reading. The columns of water would just go up and out of sight on the manometer. On Sept 21, 1987 Jerry B. accompanied Warren K., to see if the problem could be determined. The 57" manometer was used. Even with the longer manometer they could not get a reading. The velocity head was higher than could be read with the long manometer. The owner Dale Mitchell said the pressure that was in the system (20-30 psi) was much too low. A couple of blow outs were found and repaired. Then a reading was taken with success, but a very poor representation of the normal system. So the field exam will be completed in the spring of '88.

CERTIFIED MAIL

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information sheet showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the department to conduct the field examination, but you may change to another certified examiner.

Certified water right examiners are licensed engineers or geologists certified by the department to conduct water right examinations. The procedure for certifying examiners results from the recently enacted HB 671 and is being developed at this time. A listing of certified water

right examiners will be available from this department when examiners have been certified.

If your permitted use, in fact, has already been examined by the department and you have not asked to have the examination repeated, the fee requirement is not applicable to your permit. If you believe this is the case, please contact the department.

The license examination fee is to be based on the amount of water you indicate you have developed, as listed in item 6 on the examination fee information sheet. The amount of water on which the examination fee is based can be less than the permitted amount, if less water has been diverted and beneficially used. The licensed amount of water, however, will not exceed the amount you claim on the examination fee information sheet. The enclosed license examination fee schedule shows a listing of applicable fees.

FAILURE TO SUBMIT WITHIN THE SIXTY (60) DAY PERIOD, THE FEE OR THE STATEMENT THAT A CERTIFIED EXAMINER HAS BEEN RETAINED TO MAKE THE FIELD EXAMINATION, WILL BE CAUSE TO ADVANCE THE PRIORITY OF THE PERMIT ONE DAY FOR EACH DAY THAT THE FEE SUBMITTAL IS LATE.

FAILURE TO SUBMIT THE FEE OR THE COMPLETED FIELD EXAMINATION REPORT WITHIN A YEAR WILL BE CAUSE TO CONSIDER THE PROOF OF BENEFICIAL USE TO BE INCOMPLETE AND TO LAPSE THE PERMIT.

The attached examination fee information sheet and the fee may be submitted to the following department office.
