Maximum Diversion Rate: 0.41 CFS
Maximum Diversion Volume:¹ 101.4 AF

This is to certify, that CARL SCHRENK

STAR RT. BOX 3

DECLO, ID 833230000

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated July 15, 1980; and has submitted Proof of Beneficial Use on January 7, 1983. An examination indicates that the works have a diversion capacity of .410 cfs of water from a **GROUNDWATER** source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	03/15 to 11/15	0.40 CFS	100.0 AF
STOCKWATER	01/01 to 12/31	0.03 CFS	1.4 AF
Totals		0.41 CFS	101.4 AF

LOCATION OF POINT(S) OF DIVERSION:

			SENE 4			25

Total number of acres irrigated: 25

PLACE OF USE: STOCKWATER, same as IRRIGATION use

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.

Dear Mr. Schrenk:

I have recently sent correspondence on two occasions to solicit the filing fee for the licensing amendment you returned in April, 1990. To date, no fee has been received. Therefore, I cannot issue the license for the total 25 acres found by our examiner.

In researching our records, I also find that the adjudication claim you filed on this right shows the irrigation of 25 acres. Unless I receive the fee for the amendment, the license will be issued for only 20 acres and the claim you filed will be recommended for the same. You should be aware that it is illegal to irrigate land without a valid water right. You will be in violation of Section 42-210, Idaho Code, if you continue to irrigate the 5 acres not covered by this water right. The department can issue a cease and desist order preventing the irrigation of that land.

To clear our records, please submit the \$20.00 filing fee within 15 days. If you have any questions, let me know.

Dear Mr. Schrenk:

This office acknowledges receipt of the Assignment of the above referenced permits to you.

Enclosed for your records are copies of the permits. Be sure to note the special conditions of approval on the fourth pages that identify requirements necessary for developing the permits into licensed water rights.

In reviewing the permits, we find that the requirement for submitting proof of construction of works and application of water to beneficial use has been met. The next step towards licensing of the permits will be for our regional office to examine your water right system.

If you have any questions regarding this matter, please feel free to contact us.

Dear Mr. Schrenk:

Per our conversation of 9/22/87 we have prepared Assignment of Permit forms for the above-referenced permits. We have also partially prepared Examination Fee Information forms for your use.

Please return the completed forms to this office with the appropriate examination fees. These permits will lapse on December 11, 1987 and are losing a day of priority for every day that the fees and Fee Information forms are not received in this office.

If you have any questions or if this office can be of further assistance, please feel free to contact us.

Very truly yours,

RE: Permit to Appropriate Water No. 45-7449

The Department mailed the original of the enclosed letter in an attempt to inform him that he was required to pay an examination fee on the above referenced permit. The letter was returned to the Department as undeliverable mail. Research of the records of the County Assessor reveals that you own property which may have been listed as the place of use in the permit.

Please read the enclosed letter. It may be necessary that you file an examination fee with the Department to prevent loss of a developed water right. Should we not hear from an interested party within sixty (60) days of the date of this letter, action will be initiated to remove the permit from the Department files.

Respectfully,

CERTIFIED MAIL

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information sheet showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the department to conduct the field examination, but you may change to another certified examiner.

Certified water right examiners are licensed engineers or geologists certified by the department to conduct water right examinations. The procedure for certifying examiners results from the recently enacted HB 671 and is being developed at this time. A listing of certified water

FEB 29 1988

right examiners will be available from this department when examiners have been certified.

If your permitted use, in fact, has already been examined by the department and you have not asked to have the examination repeated, the fee requirement is not applicable to your permit. If you believe this is the case, please contact the department.

The license examination fee is to be based on the amount of water you indicate you have developed, as listed in item 6 on the examination fee information sheet. The amount of water on which the examination fee is based can be less than the permitted amount, if less water has been diverted and beneficially used. The licensed amount of water, however, will not exceed the amount you claim on the examination fee information sheet. The enclosed license examination fee schedule shows a listing of applicable fees.

FAILURE TO SUBMIT WITHIN THE SIXTY (60) DAY PERIOD, THE FEE OR THE STATEMENT THAT A CERTIFIED EXAMINER HAS BEEN RETAINED TO MAKE THE FIELD EXAMINATION, WILL BE CAUSE TO ADVANCE THE PRIORITY OF THE PERMIT ONE DAY FOR EACH DAY THAT THE FEE SUBMITTAL IS LATE.

FAILURE TO SUBMIT THE FEE OR THE COMPLETED FIELD EXAMINATION REPORT WITHIN A YEAR WILL BE CAUSE TO CONSIDER THE PROOF OF BENEFICIAL USE TO BE INCOMPLETE AND TO LAPSE THE PERMIT.

The attached examination fee information sheet and the fee may be submitted to the following department office.

Re: Permit 45-7449

Dear Mr. Schrenk:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the system.

Field examinations must be done while the system is in operation. For this reason we concentrate on irrigation permits during the summer months and do examinations on permits for other uses during the non-irrigating months.

If you have any questions regarding the field examination, please contact our office.

Sincerely,
