Dear Mr. Cranney

In March of this year you visited our Twin Falls office and filed an application for transfer on water right 45-7277. The purpose of the transfer was to remove water from the E $\frac{1}{2}$ SE $\frac{1}{4}$ Section 24, Twp. 18S, Rge. 21E.

You may recall that an earlier transfer had been filed in March of 1980 which also removed water from the said lands. This transfer has never been approved and the department desires to dispose of it.

It is my understanding that you are no longer interested in this transfer and have informed Mr. Merritt in Twin Falls of this. I have inclosed a withdrawal form for your convience, please sign and return the form by July 1, 1983 so that we can complete the processing of your most recent filed transfer.

If you have any questions, please contact me at P.H. 334-4162.

FILE 45-7277

NAME OF PARTY ALAN MERRITT

EMPLOYEE Jim Johnson

RE: At my request Alan reviewed the status of transfer 2430 which had been returned to the region in November 1980.

Alan Explained at length the problems they have encountered with this transfer.

The main problem is that the transfer applicant has been very slow in responding to the requests made by the department.

The dept. is now waiting for proof of ownership of land identified in the transfer.

If information is not received in March the Region will issue an order to show cause.

3-18-83

Per telecon w/ Alan Merritt the Cranney Bros. are going to withdraw T2430 and file a new transfer which will make water under this pt. appurtenant to the same land as pt. 45-7189.

Alan said Cranney Bros. were agreeable to issuing lic. 45-7189 for 353 acs.

Mike Cranney
Oakley,
Idaho 83346

Dear Mr. Cranney:

This letter is intended to summarize what actions must be taken to finalize decisions on several water rights files currently being held by our office. This summary includes several files in the name of Harold Cranney and Sons and Albert Anderson and Sons. I do not know if you are associated with these parties but the water rights involved seems to be connected in one way or another. Copies of this letter will be sent to these parties for their reference.

At present we are holding a transfer application for right number 45-7242. The transfer application was filed by Michael Cranney on March 18, 1980 for transfer of right 45-7242 which was licensed in the name of Michael Cranney. In checking the ownership of the lands which the water is being removed, it appears that a portion of these lands belongs to Harold Cranney. The lands in question are those in the W $\frac{1}{2}$ NW $\frac{1}{4}$, Sec. 6, T13S, R22E, B.M. Our office is holding this transfer application for some form of documentation from Harold Cranney relinquishing any claim to this water right.

At present we are, also, holding two other applications for transfer; one in the name of Cranney Brothers for rights 45-2567 and 45-7277 and one in the name of Albert Anderson and Sons for rights 45-2567 and 45-2668. The original problem with these transfers was both parties were attempting to transfer right 45-2567 but neither party could document who owned this right. This problem seems to have been resolved with the Indenture made July 30, 1980 in which Cranney Brothers, being Michael Cranney, Willard Cranney, Jr., and Douglas Cranney, granted to Harold Cranney and Kerma Cranney and Albert Anderson and Sons, Inc., all their interest in water rights 45-2567, 45-2642, 45-7189 and 45-7277. In light of this Indenture the Cranney Brothers transfer for rights 45-2567 and 45-7277 cannot be approved. I expect that this application will be denied or Cranney Brothers could request that this application be withdrawn which would probably save time and paperwork. In light of the Indenture the Albert Anderson and Sons now has a clear way to transfer right 45-2567, however they have yet to show ownership of right 45-2668 or specifically the SW $\frac{1}{4}$ of Sec. 26, T12S, R21E., B.M., in which a portion of right 45-2668

is appurtenant. For this reason we cannot approve the Albert Anderson and Sons transfer without further documentation.

With regards to license 45-7277 and permit 45-7189, the Indenture implies that the lands which these rights cover should be modified to remove it off of lands now owned by Cranney Brothers. Permit 45-7189 has had the field exam completed, however it is being held in the IDWR State Office with a notation to not issue the license until the owner, Harold Cranney and Sons, has amended the permit. Note that both of these rights cover the same land and are out of the same well.

I would greatly appreciate it if the appropriate parties would do the necessary work to finalize the various pending files. Our office has made numerous attempts to contact these parties to get these files finalized, however our attempts have failed. If the parties fail to submit the requested information the various applications could be denied on grounds of failure to submit requested information.

If you have any questions, please feel free to contact our office.

Sincerely,

Allen D. Merritt

Michael Cranney Transfer 45-7242
Albert Anderson & Sons Transfer 45-2668 & 45-2567

On July 7, 1980 I met with Michael Cranney and discussed the above referenced Transfers. Regarding the Albert Anderson & Sons Transfer and the Cranney Brothers Transfer Michael indicated that the water right 45-2567 was not a part of the transaction when Cranney Bros. obtained the property in Sec. 24, T12S, R21E. In other words The right appears to belong to Anderson's. Michael said he would contact the Andersons a write a letter of explanation which would modify the Cranney Brothers Transfer.

Regarding the Michael Cranney Transfer Michael said he would discuss with Harold Cranney and have Harold Cranney relinquish any claim he would have with the right 45-7242 in a letter from Harold as the memo from Jim Johnson requested.

Hi Loren! In reviewing the Cranney Brothers transfer I found that one of the rights (45-2567) is also identified in a transfer filed by Albert Anderson & Sons which has not been approved yet. I talked to Mary and she found that the original transfer application is in the region.

It appears that the Anderson transfer will affect the Cranney Bros. transfer so I am sending the Cranney Bros. transfer back to you.

Gentlemen:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell during which part of the irrigation season this examination will be made, but our examiner will try to contact you at the time he makes the exam so that you may show him the system.

If you have any questions regarding the field examination, please contact our Regional Office in Twin Falls.

Sincerely,

JANICE RENK
