In regards to the status of the water rights, no further action is required on the licensed rights or the claims. The statements of beneficial use have been submitted for all of the permits. The field exam has been conducted for Permit No. 45-7436 and is pending on Permit No. 01-7074. The Department will notify you of the extent of beneficial use found just prior to licensing these rights.

RE: 45-7269 City of Burley

Gentlemen:

The City of Burley apparently had the above permit and for some reason the City's records do not appear that the permit was proved up on.

Could you tell me the status of the permit and send us the necessary papers to prove up on the permit.

We would also appreciate a report as to what your files also indicate as to any other permits or licenses that the City of Burley has or should have.

Very truly yours,

Gentlemen:

One of the conditions of approval of your water Permit No. 45-7269 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before July 1, 1978. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Gentlemen,

I received your letter dated April 29, 1977 concerning the proof of beneficial use of our well Permit Number 45-7269.

This permit number describes our Well #5 for use with our domestic water supply. The status with this well is such that the well has been drilled and test pumped, then capped.

We are now advertising for bids for installation of the pump motor and housing for this well.

If this does not comply with the intent of your letter, please let me know so that I might persue the problem further.

Please acknowledge this letter so I might know what to do.

Sincerely

Al Hodge

Gentlemen:

One of the conditions of approval of your water Permit No. 45-7269 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before July 1, 1977. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.
