Dear Ms. Newcomb:

One of the conditions of approval of your water Permit No. 45-7184 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before October 1, 1976. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. Dear Mr. Newcomb:

Upon receiving your application for permit, I find the amount of water applied for is an inch per acre. The laws allow the applicant to have an inch per acre; however, this does not mean you have to apply for this amount, but I suggest you make your application for the full inch per acre. In this case it would raise the fee to \$115.00 for irrigation and stockwater totalling 9.52 cfs. I am returning your check no. 92-38 in the amount of \$65.00.

Also enclosed you will find your original application which we have taken the liberty of retyping. Please return the application and check all the information to be sure it is correct. If you do not feel you want to apply for the full inch per acre, I have enclosed a fee schedule for the total amount of water you can apply for.

I have on file in my office field exams to be completed for permits 45-2637, 45-7083, 45-7139. I would like to complete the exams on these permits some time this month. Would you please contact me by phone to let me know if the water from these wells is being used and if there are measuring devices installed. Please contact me at your earliest convenience.

Sincerely,

Gary Funderburg
